We are delighted to present to you our latest collection of stunning Natural Stone, Mosaic, Porcelain and Ceramic wall and floor tiles.

By staying at the forefront of ideas and innovation Marshalls can help you create the home you've always dreamed of, with an after-care service that's second to none, for complete confidence in your choice.

Our Natural Stone tiles are selected for their unique natural beauty and are perfect for those wanting to create an exclusive, personal look. All of our Natural Stone is sourced and quarried in line with a clear set of ethical values and commitments that Marshalls strongly believe in. We take our responsibility to the workers in our supply chain extremely seriously and want our customers to be able to buy our beautiful natural stone products with a clear conscience.

Our Mosaic collection offers distinctive design opportunities and can be used as feature walls or stunning borders to create a truly unique look in any kitchen or bathroom.

The Porcelain and Ceramic ranges combine beautiful colours and textures with remarkable strength and durability, creating distinctive and highly practical living spaces that have their own individual sense of style and character.

Our exclusive product collections are available via our trusted network of trade and retail partners. To find your nearest retailer visit our website [www.marshalls.co.uk/tile-and-stone](http://www.marshalls.co.uk/tile-and-stone).

We also have a team of experts available on **0345 308 3030** who can arrange samples and provide advice on selecting the right product for your project.

We hope you enjoying browsing our collection of wall and floor tiles!

# Natural Stone Collection

Whether in a traditional setting or a striking contemporary home, our Natural Stone Collection offers a wealth of choice to accommodate every design.

Incorporating Limestone, Travertine, Slate, Marble and Sandstone, our collection of natural stone tiles have been specially selected from trusted sources all over the world, to provide you with the highest quality products in a wide variety of colours, sizes and finishes.

# LIMESTONE

Limestone is formed by layers of marine organisms deposited and compacted over millions of years to produce a stone of intriguing texture and variety. Characterised by its practicality, warmth and versatility, this durable stone is a perennial favourite, ideal for numerous internal and external applications.

## Aegean Cream

Aegean Cream has warm tones of soft cream and pale gold. It has an antiqued finish and a peppering of fossilisation, giving it timeless character.

Finish	Size (mm)
Tumbled	Classical Roman Opus x 10
Tumbled	610 x 406 x 10

Chenzira

*A natural stone floor combines distinctive character with practicality, creating a seamless link between indoor and outdoor spaces.*

A beautifully understated stone of beige and coffee tones, Chenzira has a granular appearance which is full of character and has timeless appeal.

Finish	Size (mm)
Brushed	Classical Roman Opus x 12
Tumbled	Classical Roman Opus x 12

Cathedral

Careful ageing gives this traditional blue-black flagstone the impression of years of use. Cathedral is ideal for use in larger rooms where it can be shown off to maximum effect. It can also be used externally as it is extremely hard wearing.

Finish	Size (mm)
Chipped edge, tumbled and part-honed	600 x Random Length x 20
Chipped edge, tumbled and part-honed	Classical Roman Opus x 20

Glendale

Antiqued to enhance its rustic charm, this robust Portuguese tile displays distinctive colour variation from stone to stone.

Finish	Size (mm)
Antiqued	400 x Free Length x 15

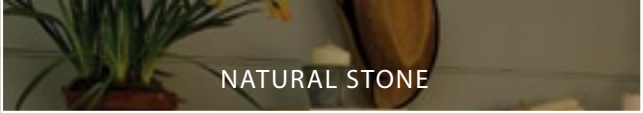

Jura Grey

A popular German stone, with subtle tones of blue-grey, is renowned for its distinctive fossilisation. Its smooth honed and durable surface make it practical for any modern or traditional environment.

Finish	Size (mm)
Honed	406 x Free Length x 10
Honed	610 x 406 x 10

NATURAL STONE

# Knightmill

This attractive, hard-wearing limestone with a blend of mid-grey and brown tones will add warmth and character to your home. The antiqued surface makes this stone perfect for more traditional interiors. It is also suitable for use externally.

Finish	Size (mm)
Diamond brushed	560 x Random Length x 20

LIMESTONE

# Layton Coombe

This pale and elegant Portuguese limestone with a softly-antiqued finish is perfect in any sophisticated environment, where its neutral colour is subtle and complementary.

Finish	Size (mm)
Antiqued	400 x Free Length x 15

Minster

Offering the classic, well-worn look with a riven finish, this stone is ideal for traditional applications. Its flagstone size makes it perfect for larger areas, both inside and out.

Finish	Size (mm)
Chipped edge, tumbled and part-honed	560 x Random Length x 20
Chipped edge, tumbled and part-honed	Classical Roman Opus x 20

Nazzano

A truly fascinating and varied Portuguese stone featuring large quartz crystals, significant fossilisation and abundant veining.

Finish	Size (mm)
Honed	600 x 300 x 10
Honed	600 x 600 x 15

Perpignan

Characterised by a variety of warm caramel, beige and gold colours within each stone and a gentle antiquing, this charming stone has an ageless, rustic feel. A truly stunning and unique floor that can be used both inside and out.

Finish	Size (mm)
Tumbled & brushed	560 x Random Length x 20

Rochester

This elegant stone has a soft blue-grey background with pale creamy flecks and heavier inky blue fossilisation.

Finish	Size (mm)
Bush hammered & brushed	400 x Random Length x 15

Safiya

A warm gold limestone with heavy veining.  
The tumbling process mimics gentle ageing.

Finish	Size (mm)
Tumbled	Classical Roman Opus x 12
Tumbled	600 x 400 x 12

Saint Benedict Antique

Quarried amongst the vineyards of  
France's Bourgogne region, it has gentle  
tones of brown with occasional waves of  
red and stunning fossilisation.

Finish	Size (mm)
Brushed	600 x Free Length x 20

Santa Anna

Honed to enhance its subtle fine-grained structure, this stylish tile of cool neutral tones works particularly well in open, contemporary spaces.

Finish	Size (mm)
Honed	610 x 406 x 12

Santa Capa

The clearly-visible strata of sedimentation define this intriguing stone, whose consistent pale caramel background is brought to life by the striking, compacted layers.

Finish	Size (mm)
Honed	600 x 300 x 10
Brushed	400 x Random Length x 15

Summerleaze

This limestone has warm tones of beige and brown, with intricate fossil detail and subtle surface veining and mottling. This attractive stone is extremely versatile and can be used on both walls and floors, in modern or traditional room settings.

Finish	Size (mm)
Tumbled	400 x 100 x 12
Tumbled	600 x 400 x 12

Thala Cream

A light and bright limestone, brushed to expose veining and add a warm, gentle look. An excellent choice for contemporary spaces.

Finish	Size (mm)
Brushed	600 x 300 x 12
Polished	600 x 300 x 12

Winchester

Heavily brushed with a tumbled edge, this rustic antiqued limestone in warm cream and caramel colours has a timeless quality. Ideal for use both internally and externally.

Finish	Size (mm)
Antiqued	560 x Random Length x 20

# TRAVERTINE

Travertine is the result of precipitation as hot water rapidly cools on exit from the limestone through which it has passed, and minerals collected by the water are deposited and revealed as rich, creamy colours. Travertine is available in various finishes including honed and filled, polished and tumbled.

## Savannah

Waves of light cappuccino to delicate browns, with a gentle aged finish, give this popular stone both variety and versatility.

Finish	Size (mm)
Unfilled, tumbled	200 x 100 x 10
Unfilled, tumbled	406 x 406 x 12
Unfilled, tumbled	610 x 406 x 12
Unfilled, tumbled	Classical Roman Opus x 12

Tivana

Tivana is a popular beige travertine with tones varying from cream to walnut.

Finish	Size (mm)
Honed & filled	610 x 406 x 12
Polished	610 x 406 x 12

Dalian Grey

This popular slate has a unique dark grey-green colouring and a relatively smooth riven surface. The dense structure of slate make it suitable for most applications.

Finish	Size (mm)
Natural cleft	Classical 3-way Opus x 10*
Natural cleft	600 x 400 x 10*

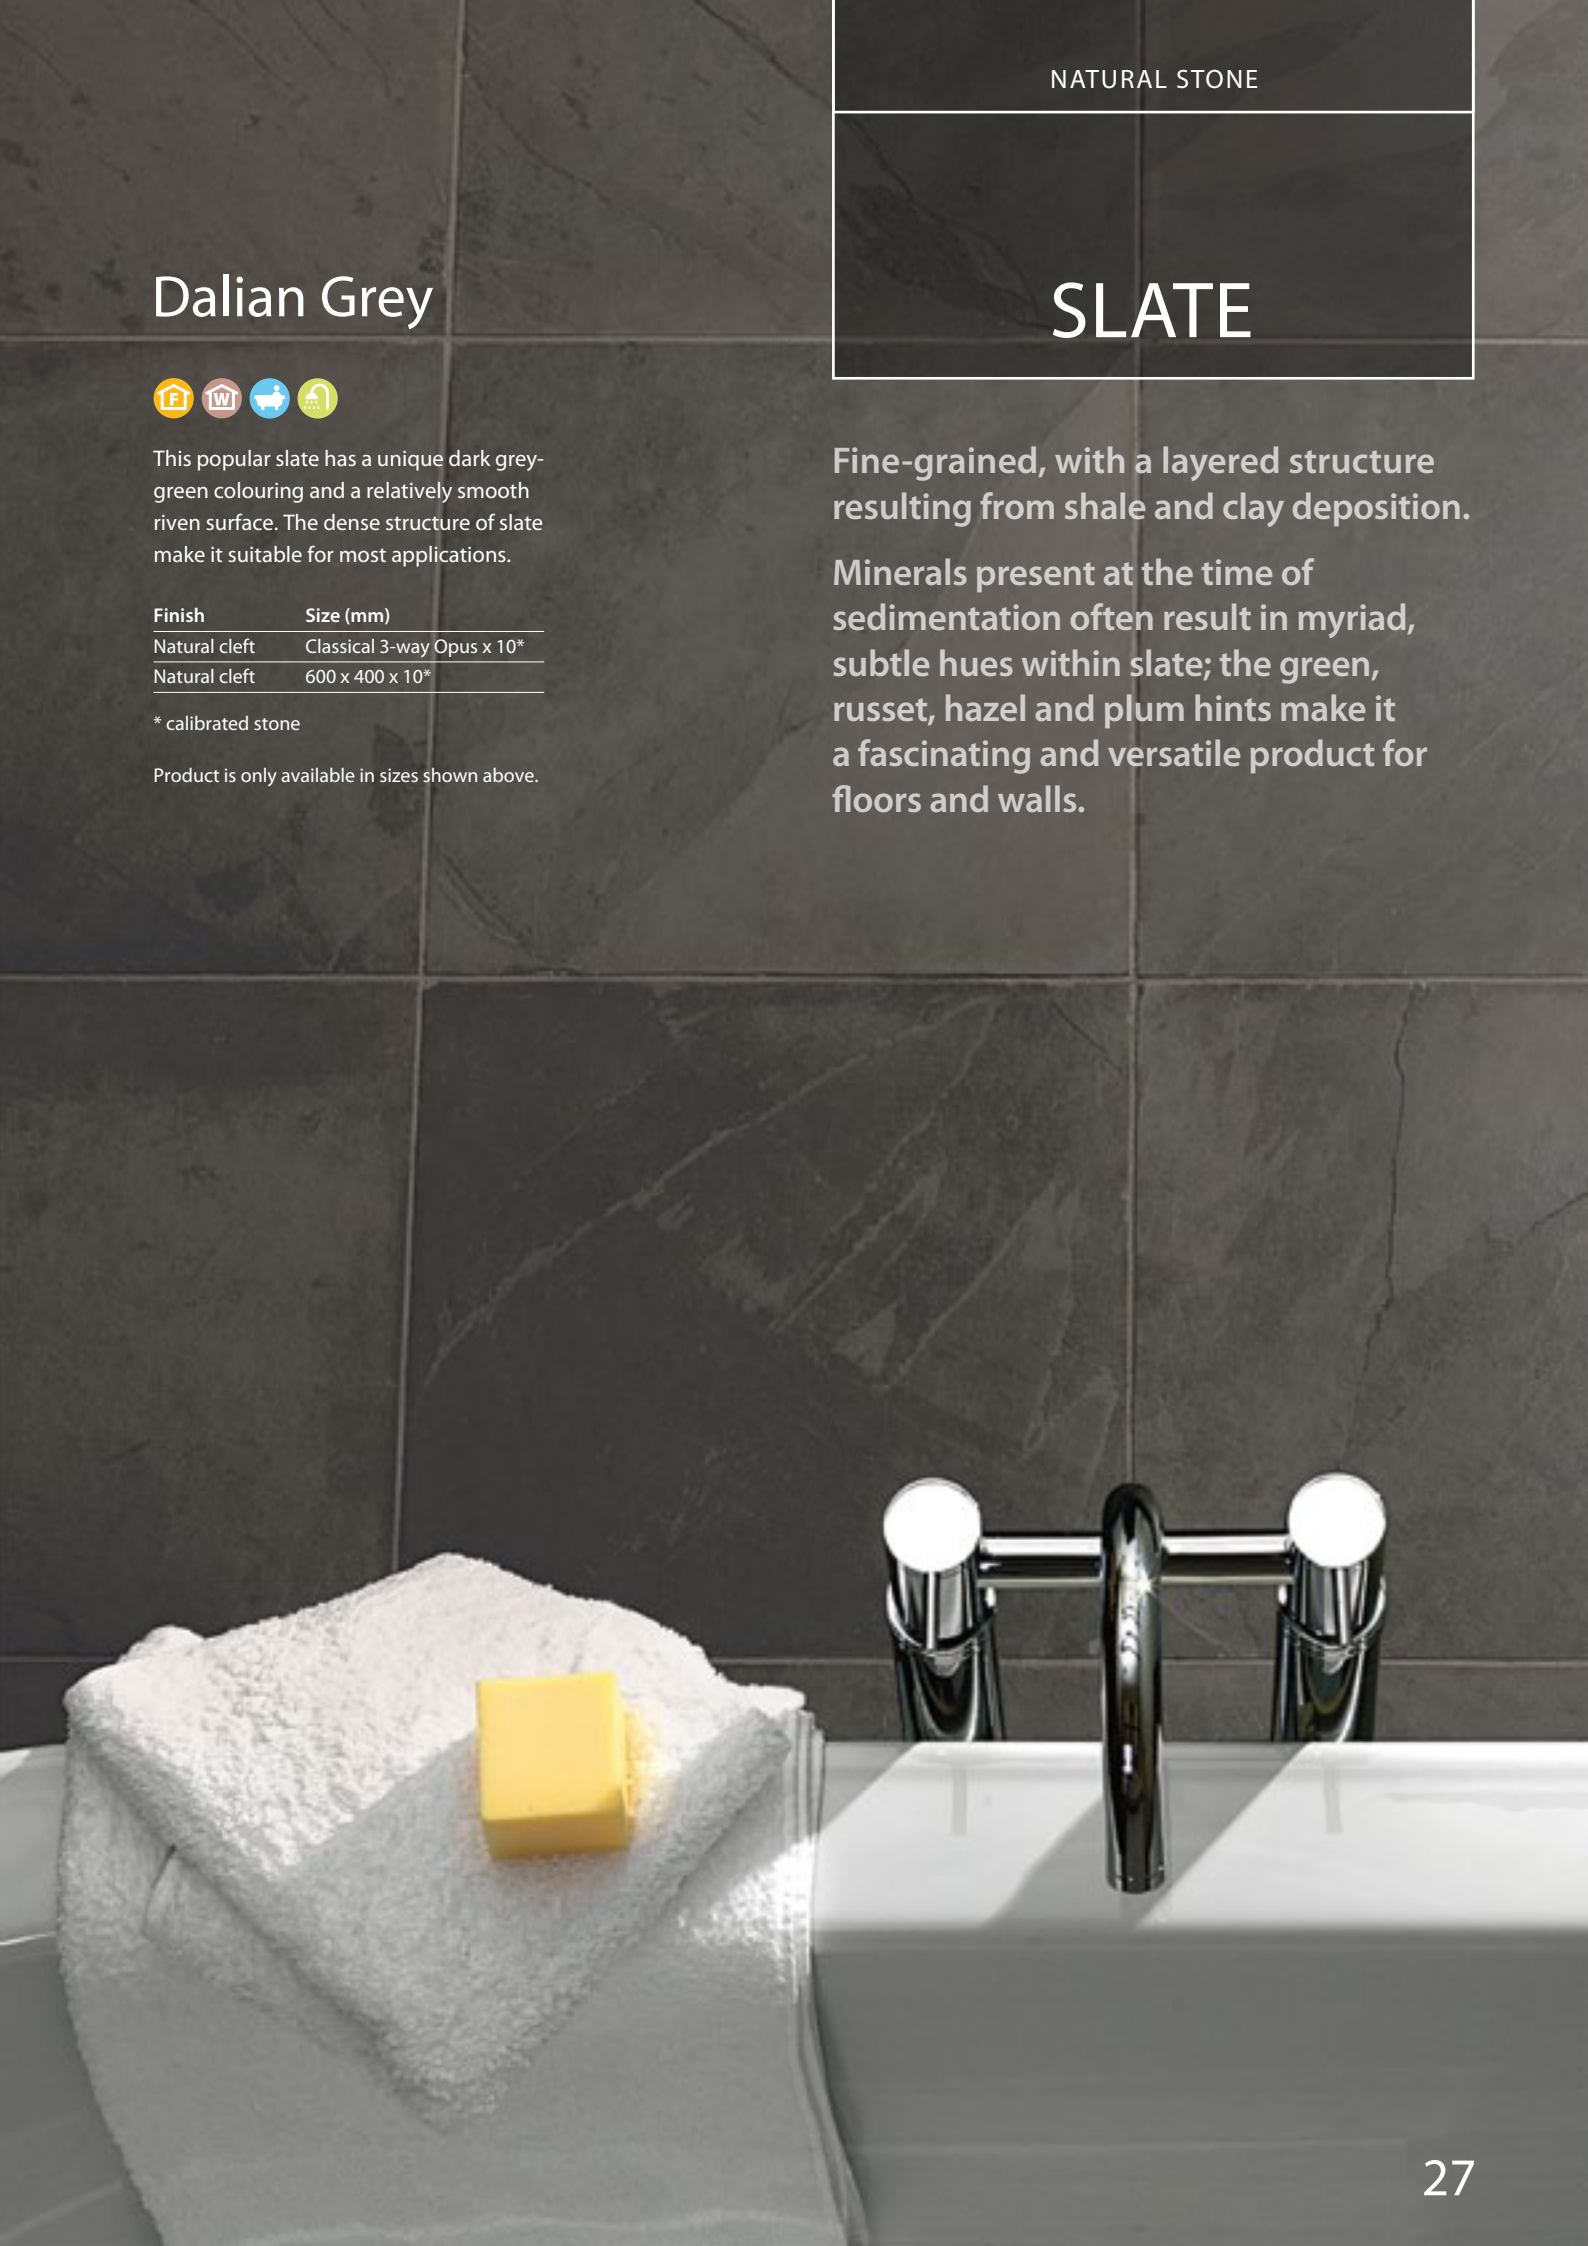

\* calibrated stone

Product is only available in sizes shown above.

SLATE

Fine-grained, with a layered structure resulting from shale and clay deposition.

Minerals present at the time of sedimentation often result in myriad, subtle hues within slate; the green, russet, hazel and plum hints make it a fascinating and versatile product for floors and walls.

Nero

Highly versatile and durable, this consistent black slate has a smooth surface with classic riven features.

Finish	Size (mm)
Natural cleft	Classical 3-way Opus x 10*
Natural cleft	300 x 600 x 10*
Natural cleft	600 x 400 x 10*
Natural cleft	600 x 600 x 10*

\* calibrated stone

Rustic Multi-colour

A remarkable slate, possessing a variety of striking colours from greens to copper tones. Use it as an accent or to create a stunning statement.

Finish	Size (mm)
Natural cleft	Classical 3-way Opus x 15-18*
Natural cleft	600 x 400 x 15-18*
Natural cleft	600 x 600 x 15-18*

\* calibrated stone

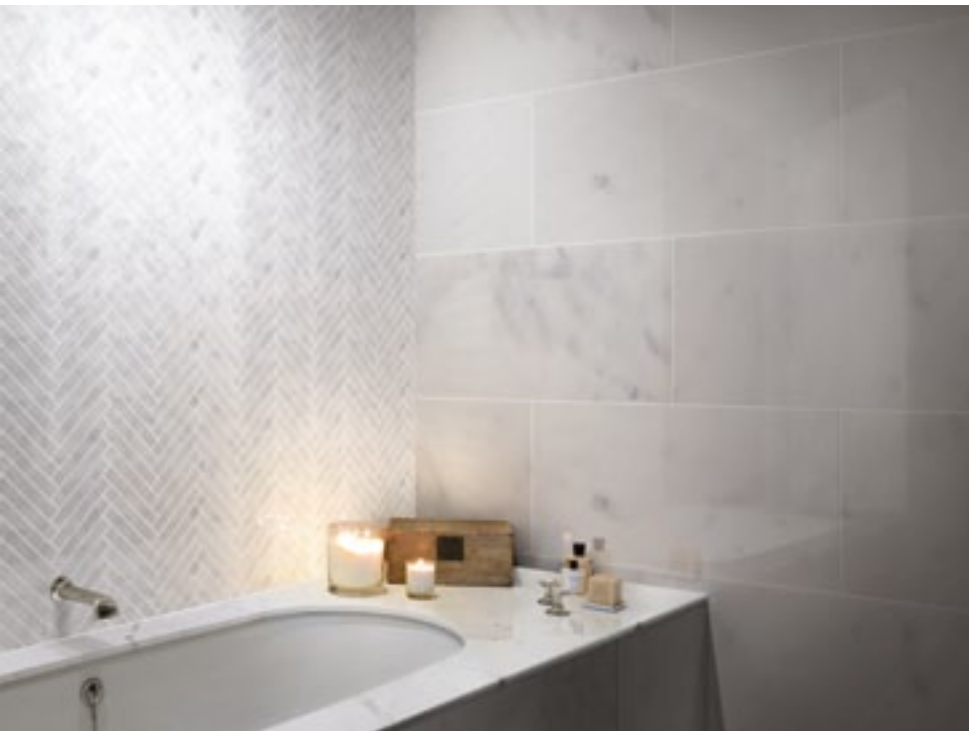

NATURAL STONE

MARBLE

A statement of opulence, this stone of classic beauty is the result of limestone subjected to extreme heat and pressure, yielding a stone which can be mirror-polished to create an illusion of depth.

Featuring many beautiful colours from classically cool to rich and warm, our collection will accommodate and enhance any classical or contemporary setting.

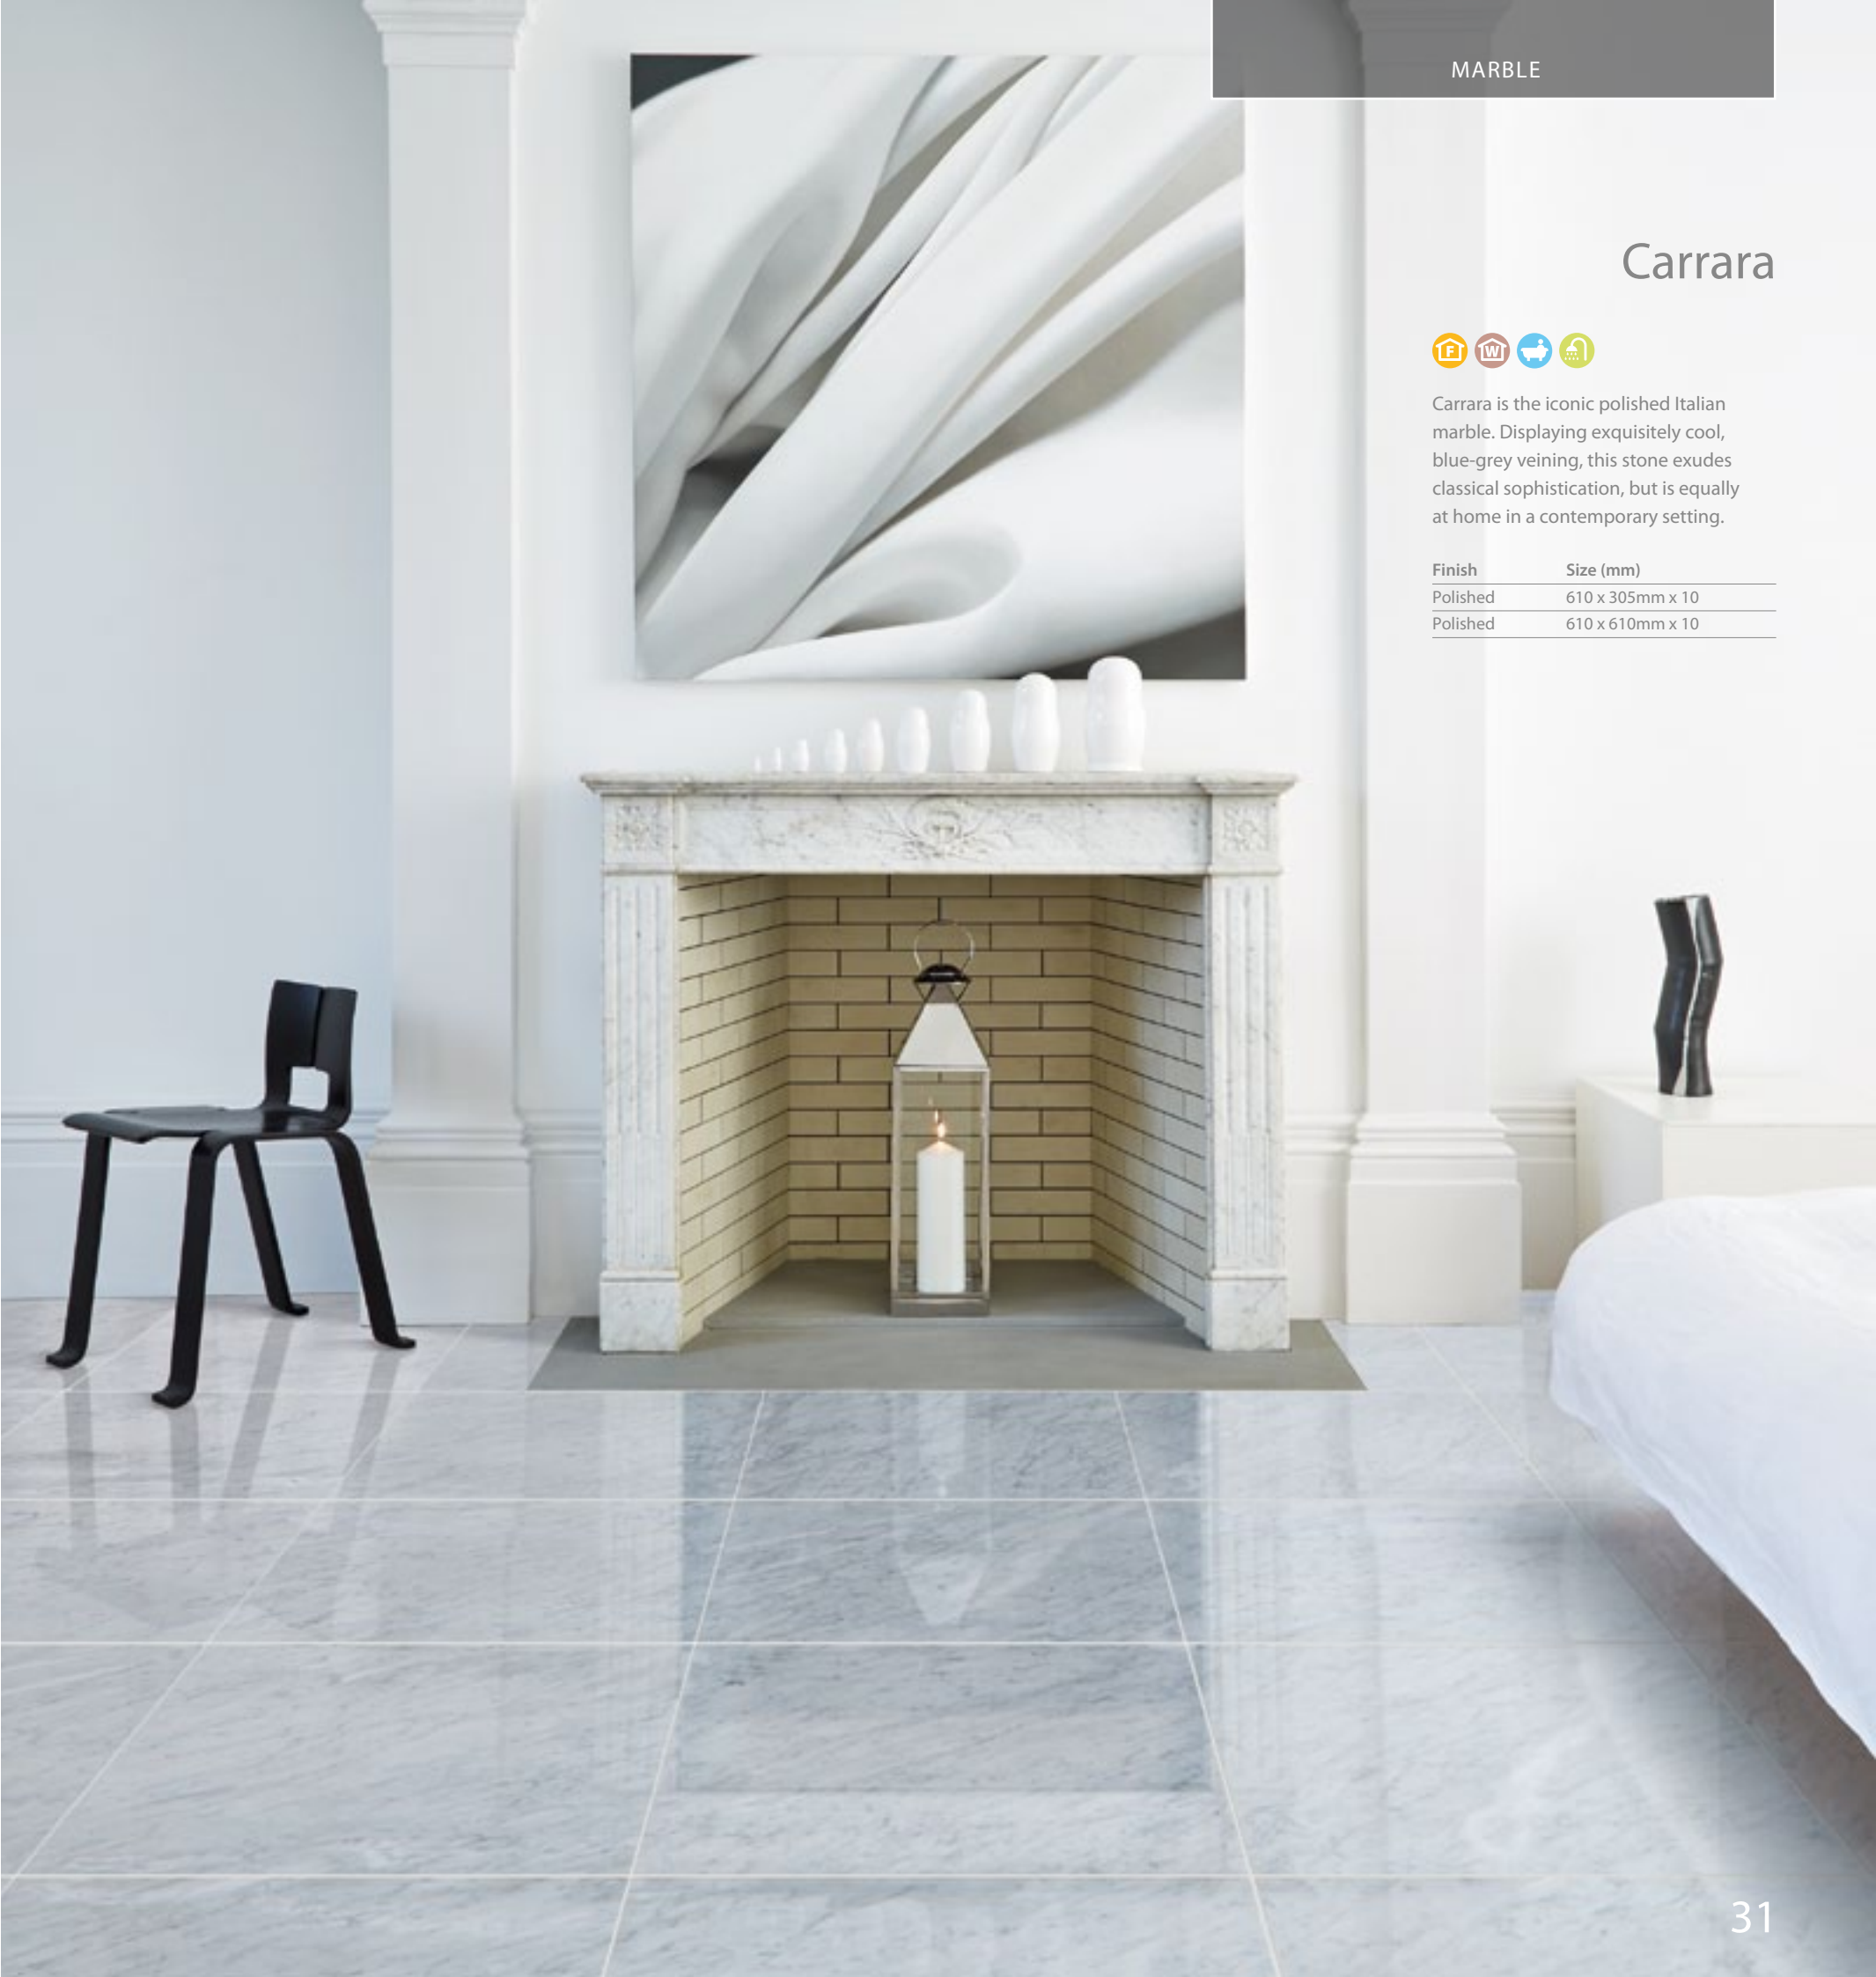

Carrara Nouvo

This beautiful polished white marble has distinctive blue/grey veins that will add a touch of opulence and quality to any room.

Finish	Size (mm)
Polished	610 x 305 x 10

Shown with Carrara Nouvo Herringbone Mosaic (see page 42).

MARBLE

Carrara

Carrara is the iconic polished Italian marble. Displaying exquisitely cool, blue-grey veining, this stone exudes classical sophistication, but is equally at home in a contemporary setting.

Finish	Size (mm)
Polished	610 x 305mm x 10
Polished	610 x 610mm x 10

# Valmont

Add a touch of luxury to your home with this exquisite polished marble. Its warm grey tones with subtle veining detail give this tile both a striking appearance and timeless elegance.

Finish	Size (mm)
Polished	610 x 100 x 12
Polished	610 x 610 x 12

Also shown right with **Valmont** large square format tiles on the floor and **Valmont Hexagon Mosaic** (see page 71).

SANDSTONE

Sandstone is the product of the sedimentation of coarse sand subjected to immense pressure from overlying materials and mineral deposition.

St Austell

These large format stones have a sleek diamond brushed finish which is perfect for contemporary settings. This elegant sandstone has consistent and even colouration, with some stones showing evidence of natural sedimentary layering in the form of veining and swirls.

Finish	Size (mm)
Diamond brushed	600 x 400 x 12
Diamond brushed	600 x 800 x 12

DRystack  
CLADDING

Utilising our expertise in the sourcing of natural stone, we present Balla Drystack Cladding. This range brings the dry stone wall look into the modern home. Manufactured in a 'z-shape', the panels create the illusion of a seamless expanse.

OUR MOSAIC COLLECTION  
USES RECYCLED GLASS,  
AND BY-PRODUCTS  
OF THE STONE AND  
JEWELLERY INDUSTRIES.

Every effort has been made to give a true representation of colour and appearance in these photographs. However, due to the reflective qualities and natural variations in the products, each tile, and therefore each mosaic, will have its own unique character. As our mosaics are handmade, sheet sizes may vary by up to 5mm.

All mosaics are supplied on a premium grade mesh backing sheet.

# Porcelain & Ceramic Collection

Available in a wealth of sizes, colours and textures, porcelain and ceramic tiles offer everything from larger format lappato tiles for striking contemporary finishes, to smaller format, natural tones for a soft, subtle finish.

Combining incredible durability with low maintenance requirements, porcelain and ceramic represent an ideal choice for the modern home.

# ATLANTA RANGE

Reminiscent of Gneiss Quartzite with its distinctive white veining, ATLANTA is a versatile range in three colourways. Manufactured in Italy, its Natural finish gives it excellent non-slip properties making it ideal for kitchen and bathroom areas, including wet rooms.

Porcelain & Ceramic Product Application Guide

This information table provides guidance on the suitability of our porcelain, ceramic and mosaic tiles for particular applications. However, you should always consult your installer regarding suitability of a product for your individual requirement, as well as the wall and floor substrate to which the tiles will be applied.

Natural Stone Laying Patterns

Classical Roman Opus

A random laying pattern made up of 4 stone sizes.

Size guide (mm) for:

Aegean Cream limestone		
A = 4 x		406 x 406
B = 2 x		610 x 406
C = 2 x		203 x 406
D = 4 x		203 x 203

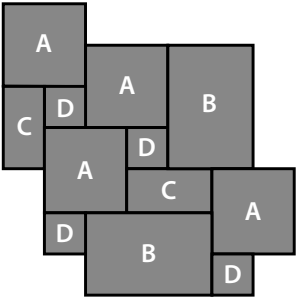

1.48m² per module/pattern

Cathedral & Minster limestone		
A = 4 x		550 x 550
B = 2 x		550 x 825.5
C = 2 x		273.5 x 550
D = 4 x		273.5 x 273.5

2.72m² per module/pattern

Chenzira & Safiya limestone		
A = 4 x		400 x 400
B = 2 x		600 x 400
C = 2 x		200 x 400
D = 4 x		200 x 200

1.44m² per module/pattern

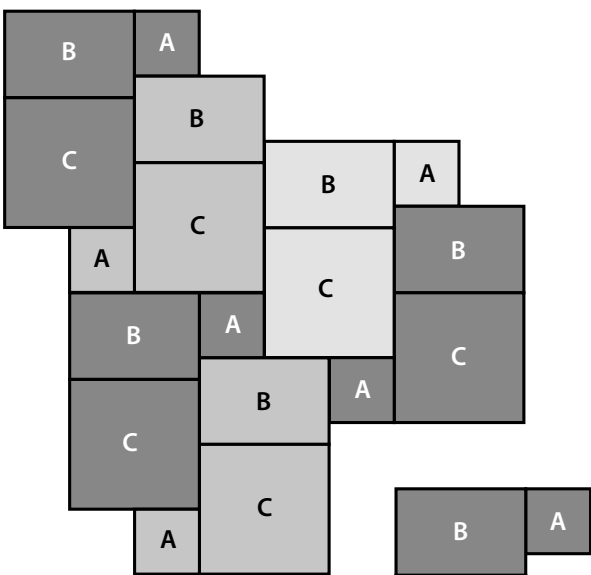

Single Classical Roman Opus module pattern

Savannah travertine		
A = 4 x		406 x 406
B = 2 x		610 x 406
C = 2 x		203 x 406
D = 4 x		203 x 203

1.48m² per module/pattern

Classical 3-way Opus

A random laying pattern made up of 3 stone sizes.

Size guide (mm) for:

Dalian Grey slate, Nero slate & Rustic Multi-colour slate		
A = 1 x		300 x 300
B = 1 x		600 x 400
C = 1 x		600 x 600

0.69m² per module/pattern

Single Classical 3-way Opus module pattern

Set width x Random Length

A random laying pattern made up of courses of even widths and predetermined lengths.

Size guide (mm) for:

Knightsmill, Minster, Cathedral, Perpignan, Rochester, Santa Capa brushed & Winchester limestone	
Knightsmill	1.62m² per module/pattern
Minster	1.59m² per module/pattern
Cathedral	1.80m² per module/pattern
Perpignan	1.59m² per module/pattern
Rochester	1m² per module/pattern
Santa Capa brushed	1m² per module/pattern
Winchester	1.59m² per module/pattern

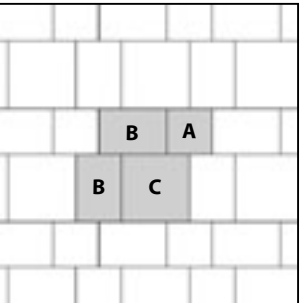

Balla Natural Stone Drystack Cladding

Consideration should be given to wall substrate permissive weights prior to installation of Balla Drystack Cladding. We strongly recommend where possible to fix directly to brick or block work using an appropriate adhesive. Any installation over two metres in height requires the use of mechanical fixers. Advice should always be sought from your professional installer prior to commencing work. For external installations please refer to the specific installation instructions available on [marshalls.co.uk/homeowners](http://marshalls.co.uk/homeowners).

Porcelain & Ceramic Laying Patterns

MILAN RANGE

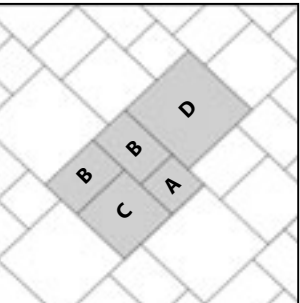

Modular laying patterns

Size guide (mm) :

A = 1 x		300 x 300

C = 1 x		450 x 450

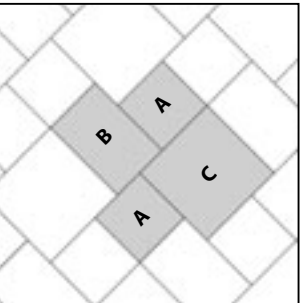

0.56m² per module/pattern

Size guide (mm) :

A = 1 x		300 x 300
B = 2 x		300 x 450
C = 1 x		450 x 450
D = 1 x		605 x 605

0.92m² per module/pattern

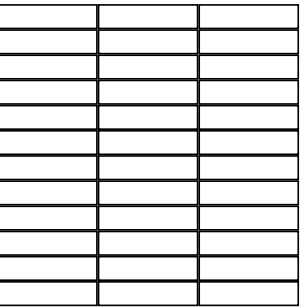

Size guide (mm) :

A = 2 x		300 x 300
B = 1 x		300 x 450
C = 1 x		450 x 450

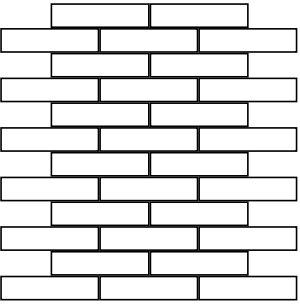

0.51m² per module/pattern

BOSTON RANGE

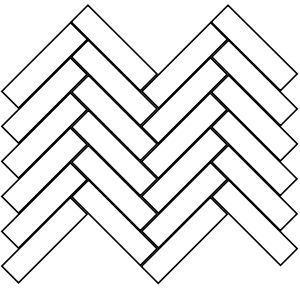

Laying patterns

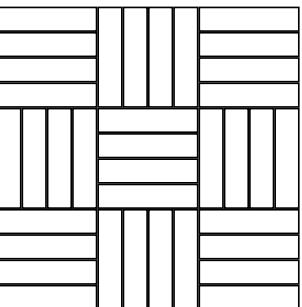

Tile size (mm):	75 x 300
-----------------	----------

Tile size (mm):	75 x 300
-----------------	----------

Tile size (mm):	75 x 300
-----------------	----------

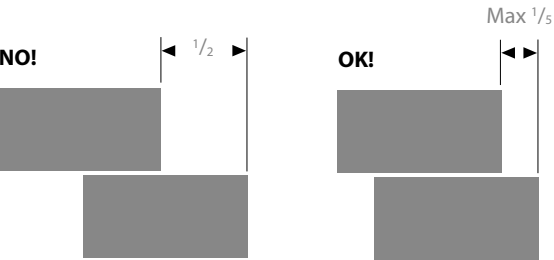

Tile size (mm):	75 x 300
-----------------	----------

This laying pattern is only recommended for use with small format tiles such as BOSTON

We recommend you keep a 2mm minimum joint when laying either same-sized or different sized tiles together.

For laying porcelain products that are suitable for outdoor use, we recommend a grout width of 3mm.

Porcelain & Ceramic Tile – Variations in Shade & Finish

As a result of recent advancements in production technology, subtle shade variations can be achieved to create a distinctive and natural appearance. The degree of variations in shade and finish may vary from tile to tile. This is an intended effect, designed to enhance the aesthetic characteristics of the tile itself. To illustrate this, a scale has been created to communicate the degree of variation intended.

The products fall within 4 categories:

**Low** – A more uniform appearance and minimal variation in shade from tiles from the same production batch.

**Moderate** – While there is a degree of consistency in the colour, texture or pattern between tiles, there may be subtle differences in shade.

**High** – Distinctive variations in shade, colour and texture giving a more distinctive pattern.

**Random** – Clearly distinguishable differences in shade, colour and texture so one tile may have a totally different appearance from that on other tiles.

**Please note:** You should always purchase project quantities in one go to minimise variation in batches.

## General Information

- All natural stone samples are subject to variation in colour, texture and pattern and can therefore give only an approximate example of the general appearance of the stone.
- Natural stone is a variable material by its nature – each batch will be different even when coming from the same quarry. Please ensure that all tiles are ordered at the same time to minimise batch variation and work with tiles from different pallets to achieve a harmonious look before fixing.
- Material should be cleaned and inspected prior to fixing and any faults or breakages reported within 3 days of receipt of your order.
- Laying should not be started until tiles are completely dry. As part of the cutting process requires water, some products may arrive damp. These products should be laid in a warm environment with a clear air flow until they are dry. The colour of the product is dependent upon its water content, so damp products may appear darker in appearance when initially received.
- Natural stone may appear to have fine and sometimes broader veins, which can appear as filled lines of fracture. This is a completely natural phenomenon; veining is not a weakness.
- The natural characteristics of Jura Grey require that the preparation of the stone is done in stages. It is necessary to improve natural faults such as pores, open holes and small quartz veins by filling with resin. This procedure is necessary to guarantee perfect quality and in no way does it depreciate the value of the natural stone. Jura can also show elements of what look like rust patches – this is due to metal oxides within the stone and is inherent to this type of limestone.
- It is customary in certain types of marble to glue loose pieces together during production and sometimes provide an adhesive connector (net) on the back. This technique is necessary to provide a sound, reliable product.
- We recommend using honed and filled travertine stone only in light traffic areas. This is due to the possibility of small holes opening up over time. This is an inherent nature of the stone. These can be filled with grout and re-sealed or can be resin-filled, re-honed and re-sealed by a professional tiler.
- Slight honing marks can sometimes be seen on the surface of natural stone tiles – these should disappear when sealed. Please note that this is unavoidable and should not be deemed a fault.
- Random Length – due to the nature of the product size some orders may be received without any shorter lengths and therefore additional cutting may be required.
- Tolerance (size variation) for all natural stone products (excluding slate) will be + or – 2mm for the thickness and squareness of the stone, with an overall size tolerance of 3% deemed acceptable.

PLEASE NOTE THAT WE ARE UNABLE TO ACCEPT ANY COMPLAINTS ONCE MATERIAL HAS BEEN FIXED.

## Glossary of Terms

### NATURAL STONE

#### Aged/Antiqued/Vintaged

The stone is tumbled then distressed and additional ad hoc processes may be added to enhance the aged appearance.

#### Brushed

The stone is wire brushed, giving a consistent textured finish.

#### Bush hammered

The surface of the stone is textured with hammers to create a finish that resembles naturally weathered rock.

#### Chipped

The edges of the stone are chipped “by hand”.

#### Diamond brushed

The stone surface is brushed with nylon brushes that are impregnated with small diamonds, giving a lustrous finish.

#### Filled

Naturally occurring holes in the stone are filled and the surface then honed.

#### Honed

Abrasives are applied to the surface of the stone giving an even, smooth and generally matt surface.

#### Natural cleft

A natural riven finish achieved by splitting the stone.

#### Polished

After honing the stone, much finer abrasives are applied to achieve an even, smooth and highly reflective surface.

#### Tumbled

The stones are placed in large tumbling machines whose action gives an aged finish to surface and edges.

### PORCELAIN & CERAMIC

#### Lappato

A varying degree of polishing across the surface of the tile, and it is important to note that the non-uniform finish will vary from tile to tile. This is an individual feature of this type of products. Not recommended for shower floors or external use.

#### Natural

The tile has a matt finish often to replicate natural wood or stone finishes. Natural finished products are generally the best choice for shower floors and wetroom areas.

#### Satin

A smooth surface which reflects more light than a matt finish but not glossy like Lappato. It is classed as a mid-sheen finish. Not recommended for shower floors.

#### Rectified tiles

The tile is cut to size after the firing process. This ensures the tiles are more accurate in size in comparison to non-rectified. Rectified floor tiles must be laid with a grout width of 2-3mm.

### USAGE

#### Domestic

Low wear resistance, suitable only for light domestic use after sealing.

#### Light commercial

Medium wear resistance, suitable for domestic and light commercial use.

#### Commercial

Good wear resistance, suitable for domestic and commercial use.
