

Fugalite® Eco

LIQUID CERAMIC

FOR PERFECT JOINTS

**WATERPROOF,
STAINPROOF,
HYGIENIC**

The eco-friendly, **water and stain proof** adhesive grout that improves the aesthetic quality and **hygiene** of ceramic surfaces.

Tested and GEV certified with very low-VOC emissions

KERAKOLL
The GreenBuilding Company

Fugalite® Eco

LIQUID CERAMIC FOR PERFECT JOINTS

CERTIFIED, ECO-FRIENDLY, VITRIFIED, HIGH-SLIDE, EASY-TO-CLEAN GROUT AND ADHESIVE, BACTERIOSTATIC AND FUNGISTATIC, WATER AND STAIN PROOF FOR JOINTS OF BETWEEN 0 AND 20 MM WITH A HIGH LEVEL OF CHEMICAL AND MECHANICAL RESISTANCE, GUARANTEES THE CONTINUITY OF CERAMIC SURFACES, IDEAL FOR USE IN GREENBUILDING. WITH VERY LOW VOLATILE ORGANIC COMPOUND EMISSIONS.

ADHESIVE GROUT

Fugalite® Eco is ideal for safe and long-lasting laying of glass mosaic, **guaranteeing maximum adhesion** to each individual piece of glass and to absorbent and non-absorbent supports. **Fugalite® Eco** provides a final solution to the application and aesthetic problems of glass mosaic coverings, guaranteeing safe laying and **aesthetically perfect grouting** using the same colour of **Fugalite® Eco** for both operations.

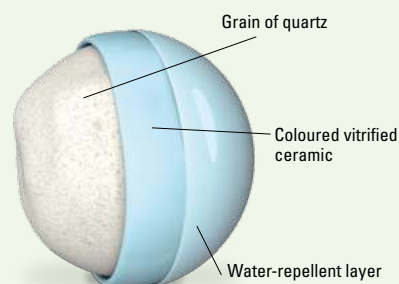

VITRIFIED

Fugalite® Eco is the world's first vitrified grout and adhesive that combines innovative, eco-friendly raw materials with new ways of processing natural minerals. The spherical shape of the quartz is behind the extraordinary workability and **ease with which surfaces can be cleaned**. Kerakoll® researchers started with this extremely pure natural mineral and used it to perfect a **vitrification process** able to cover each individual grain of quartz completely.

Guaranteed, long-lasting aesthetic and functional continuity

Every grain of spherical quartz is covered by a thin ceramic layer protected by a water-repellent treatment

* Centro Ceramico Bologna has passed the test for Resistance to stains following UNI EN ISO 10545-14 (Test Report N° 3685/11).

Fugalite® Eco: a new generation of grouted joints

Fugalite® Eco improves the quality of ceramic surfaces, because it is like a ceramic surface, completely waterproof, stainproof and dirtproof, so that it ensures working, functional and aesthetic continuity.

WATER-RESISTANT STAIN PROOF

Fugalite® Eco

Cement-based grout

Fugalite® Eco can be cleaned in the same way as tiles, it is **completely non-absorbent and will not stain** or change colour when it gets wet.

Fugalite® Eco is **extremely resistant to chemical aggression making** it the ideal grout for all floors, both in homes and in environments subject to a high degree of stress.

Fugalite® Eco is bacteriostatic, anti-mould, hygienic and safe.

FUGALITE® Cleaning Kit

Fuga-Soap Eco

Eco-friendly detergent to remove residues and streaks of Fugalite® Eco.

- Ideal for cleaning after fixing
- Suitable for all surfaces

STRENGTH

Fuga-Wash Eco

Eco-friendly detergent to be used as an additive in water used to clean Fugalite®.

- Keeps the sponge cleaner
- Facilitates cleaning of covering materials

STRENGTH

Fuga-Shock Eco

Eco-friendly cleaner, ready to use, for removing residues and streaks.

- Highly effective
- Floors and walls

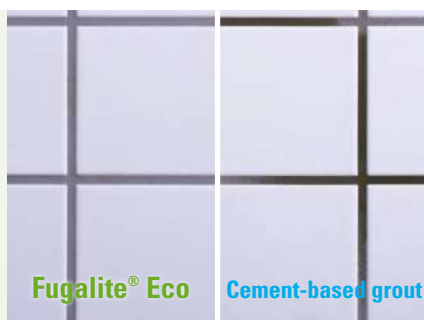

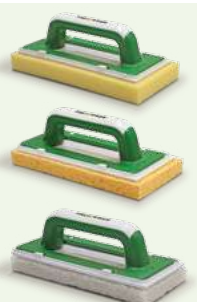

STRENGTH

Sponges and accessories

The cellulose sponge and foam rubber sponge, the handle and the Kerakoll® abrasive felt allow better cleaning of coverings grouted with Fugalite® Eco and Fugalite® Eco Invisible, they guarantee a longer life-span than normal cleaning accessories.

Fugalite® Eco

Cement-based grout

Resistant to the most stubborn stains. Also withstands the coffee test

CLASSIC - DESIGN - COLORS COLLECTIONS

Available in 3 colour collections giving a total of **28 different colours** and allowing unlimited creative potential and original combinations as well as a striking finish.

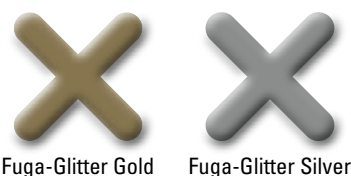

Given the heterogeneous nature of the materials, actual colours may vary slightly from those illustrated here. Slight shade differences between production batches can occur and are to be expected.

Fuga-Glitter

Fuga-Glitter in **Gold** and **Silver** colours emphasizes the **shade and detail of the covering** by creating a constant play on the reflections of the glitter. Fuga-Glitter is a **bright, ultra-fine powder** that can be easily added to Fugalite® Eco in the proportions required to create the desired effect.
