Focused on ceramics' expertise

RAK Ceramics is one of the largest ceramics' brands in the world. Specialising in ceramic and gres porcelain wall and floor tiles and sanitaryware, the company has the capacity to produce 123 million square metres of tiles and 5 million pieces of sanitaryware per year at its state-of-the-art plants across the United Arab Emirates, India and Bangladesh.

Founded in 1989 and headquartered in the United Arab Emirates, RAK Ceramics serves clients in more than 150 countries through network of operational hubs in Europe, Middle East and North Africa, Asia, North and South America and Australia. Across global operations the company employs approximately 15,000 staff from more than 40 nationalities. RAK Ceramics is a publicly listed company on the Abu Dhabi Securities Exchange in the United Arab Emirates and as a group has an annual turnover of approximately US\$1 billion.

Forged in the mountains of Ras Al Khaimah

RAK Ceramics was established in Ras Al Khaimah (U.A.E.) in 1989 by H.H. Sheikh Saud Bin Saqr Al Qasimi, member of the Supreme Council and Ruler of Ras Al Khaimah, who aspired to have the best machinery, latest technology, and to produce the best products possible for sale in the world.

Now under the vision and leadership of Sheikh Khalid Bin Saud Al Qasimi, Chairman of RAK Ceramics; the company has enjoyed rapid growth becoming an industry leader in just 30 years.

Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We manufacture also seat covers, acrylic bathtubs and showertrays.

Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with **ISO 9001 certification** by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of **ISO 9001:2015** with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for **ISO 14001:2015 Environmental Management System**.

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to **ISO/IEC 17025** accredited by NATA (National Association of Testing Authorities, Australia).

Global approvals & standards

RAK Ceramics Sanitaryware production is accredited with the world's most reputable certification entities; with national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own water/air severe product testing is performed on the 100% of WC & Bidet production. Only complying products are labeled with our QC sticker: a seal of quality and performance!

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

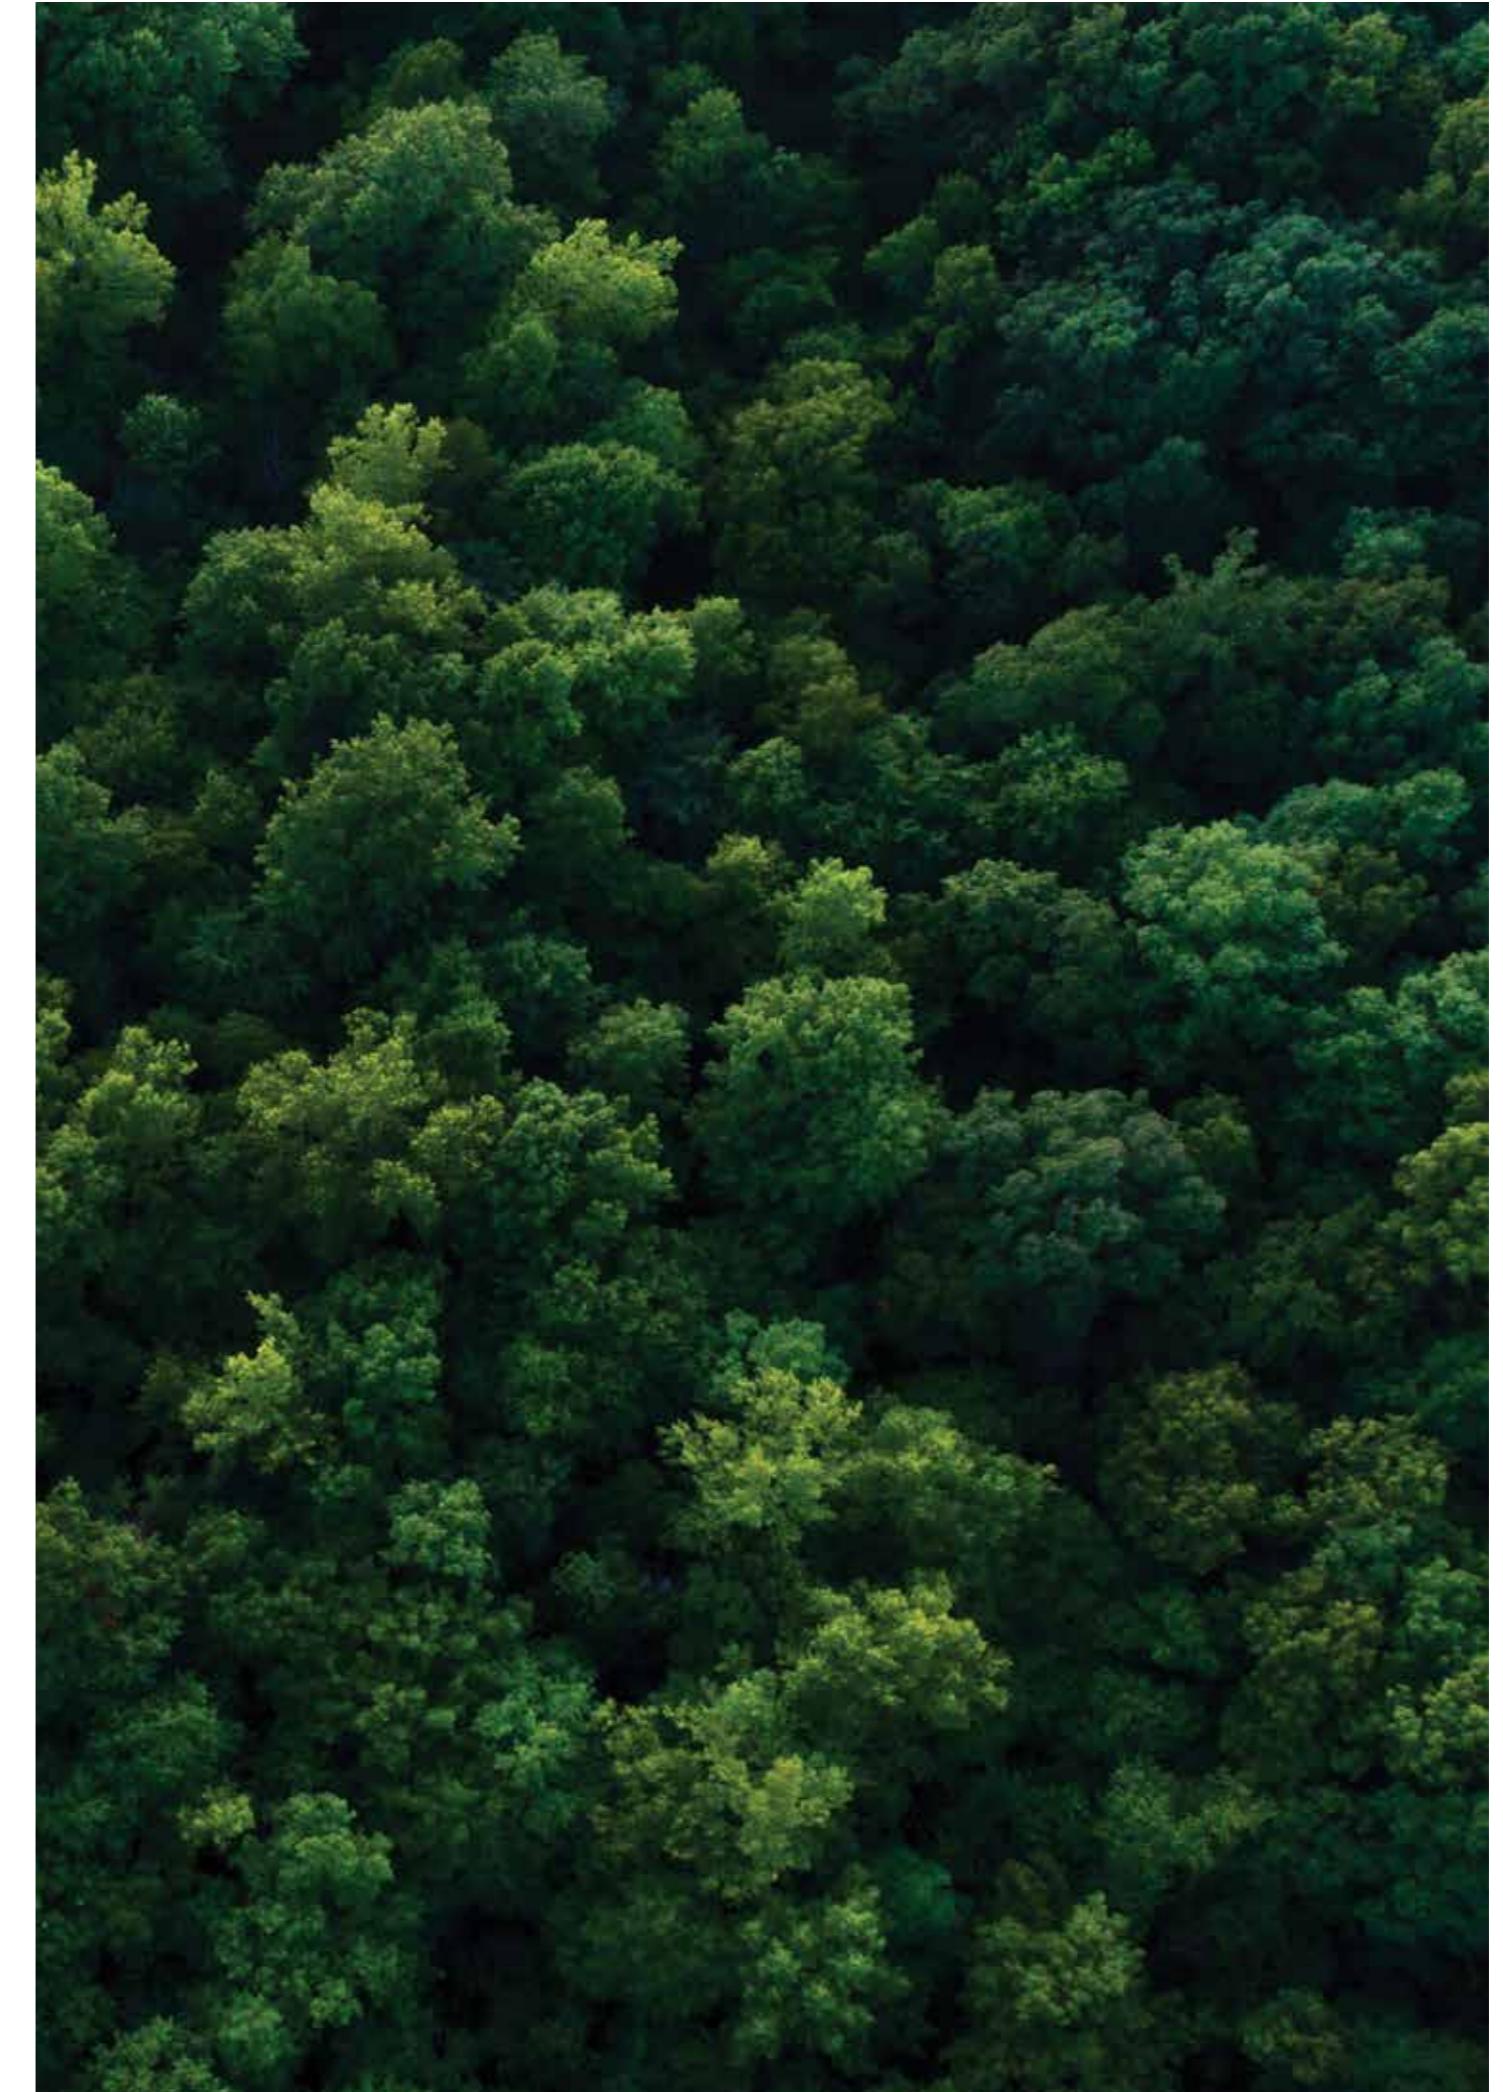

FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

FSC® N002784

The world's leading ceramics lifestyle solution provider

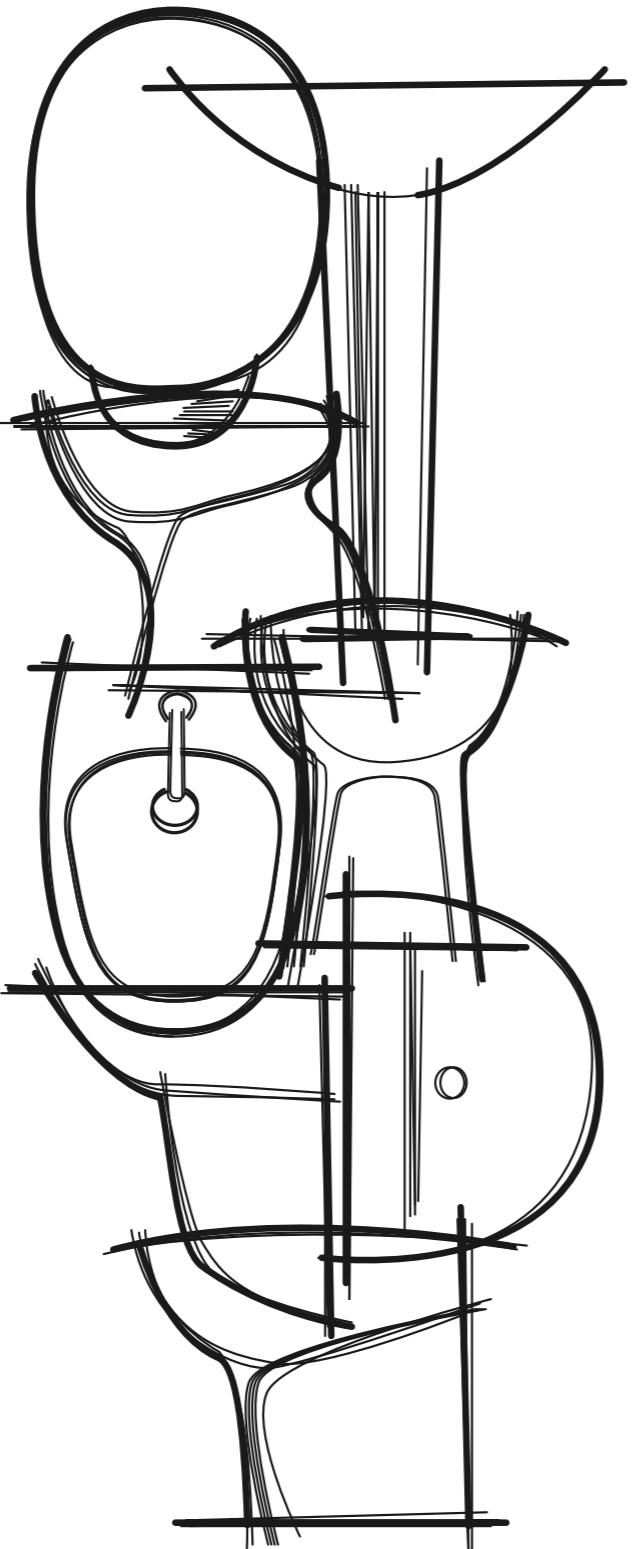

RAK Ceramics helps architects and interior designers create icons and build marvels. It provides sustainable materials that inspire ideas, shapes and hues designed to freely express any style. Unique and inspiring products that realistically resemble natural materials, with unlimited choice.

RAK Ceramics gives porcelain perfection and limitless imagination. Its passion and expertise combined with a careful attention to details enables it to provide designers and end users with a wide range of integrated ceramics solutions, allowing their freedom to be creative and plenty of room for imagination.

A track record of expertise

RAK Ceramics' products feature in some of the most iconic buildings in the world. From the Burj Al Arab, Atlantis on The Palm and Ferrari World, to Dubai Duty Free, Wembley Stadium, The O2 Arena, Mercedes Benz Showrooms, Airports, Residential Developments and Shopping Malls all over the world.

design

RAK
CERAMICS

Quality design for international tastes

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

WATER SAVING

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

HYGIENIC AND EASY TO CLEAN

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

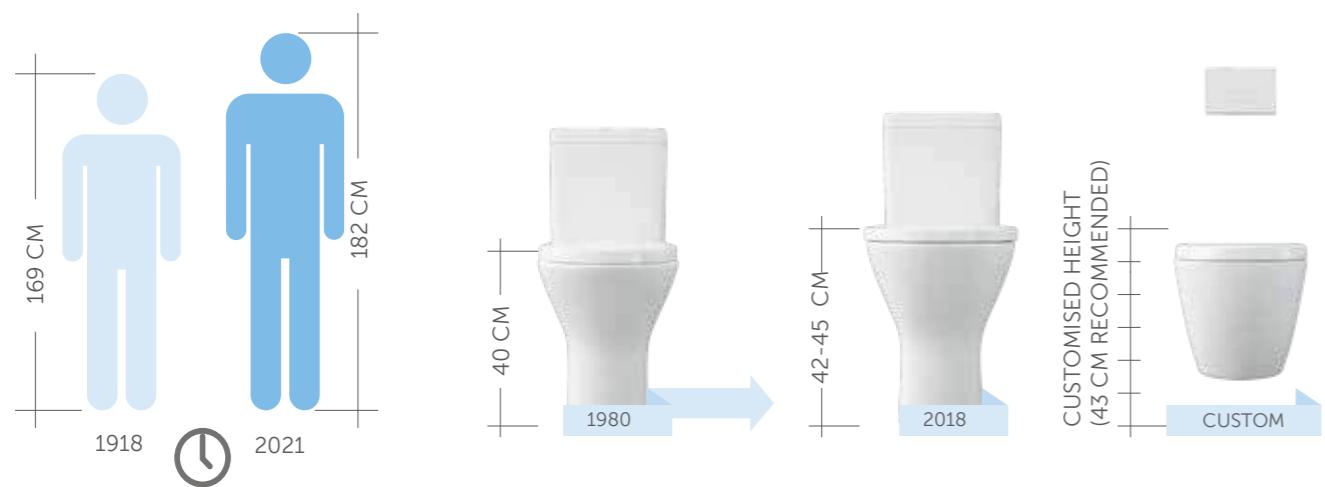

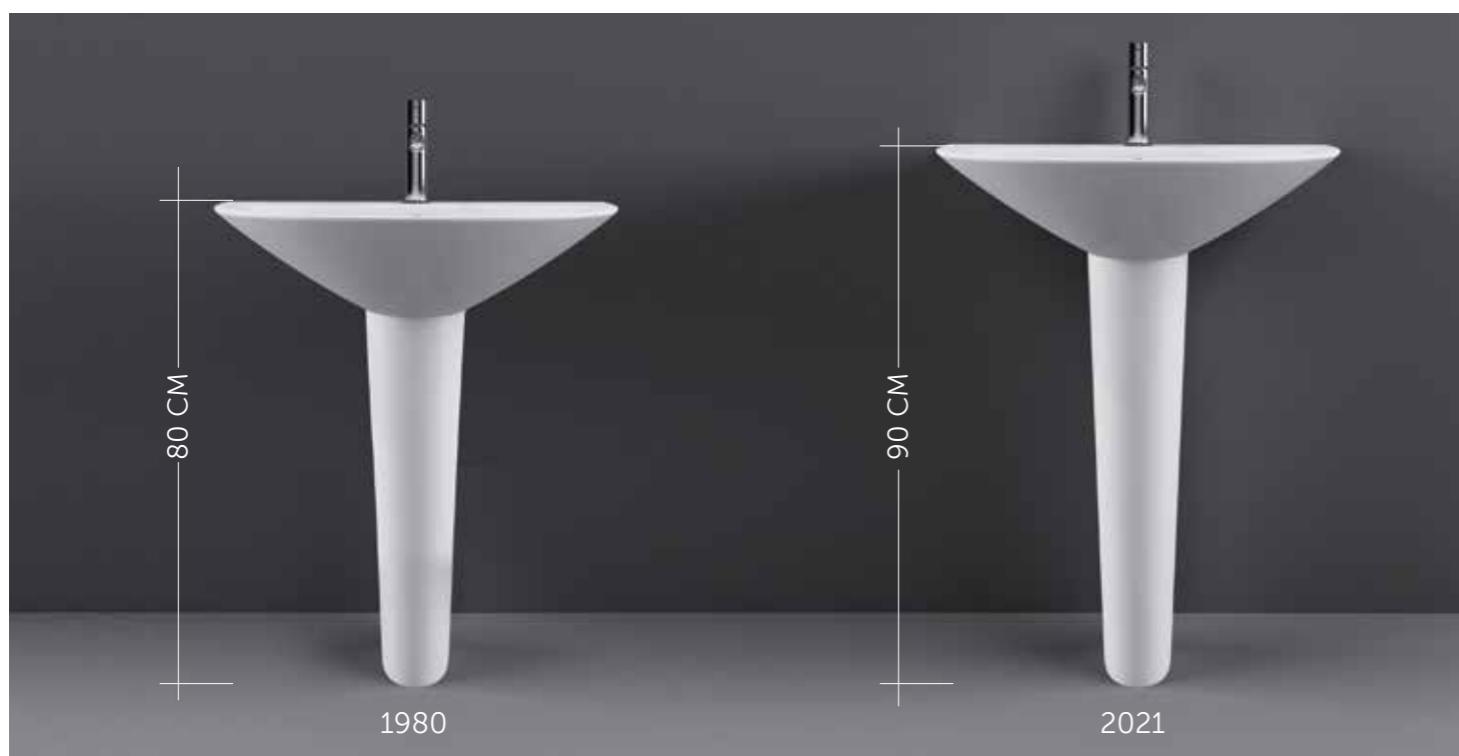

SILENT FLUSH

Rimless technology allows a faster and more silent flush.

EFFICIENT DESIGN

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

Updated ergonomics

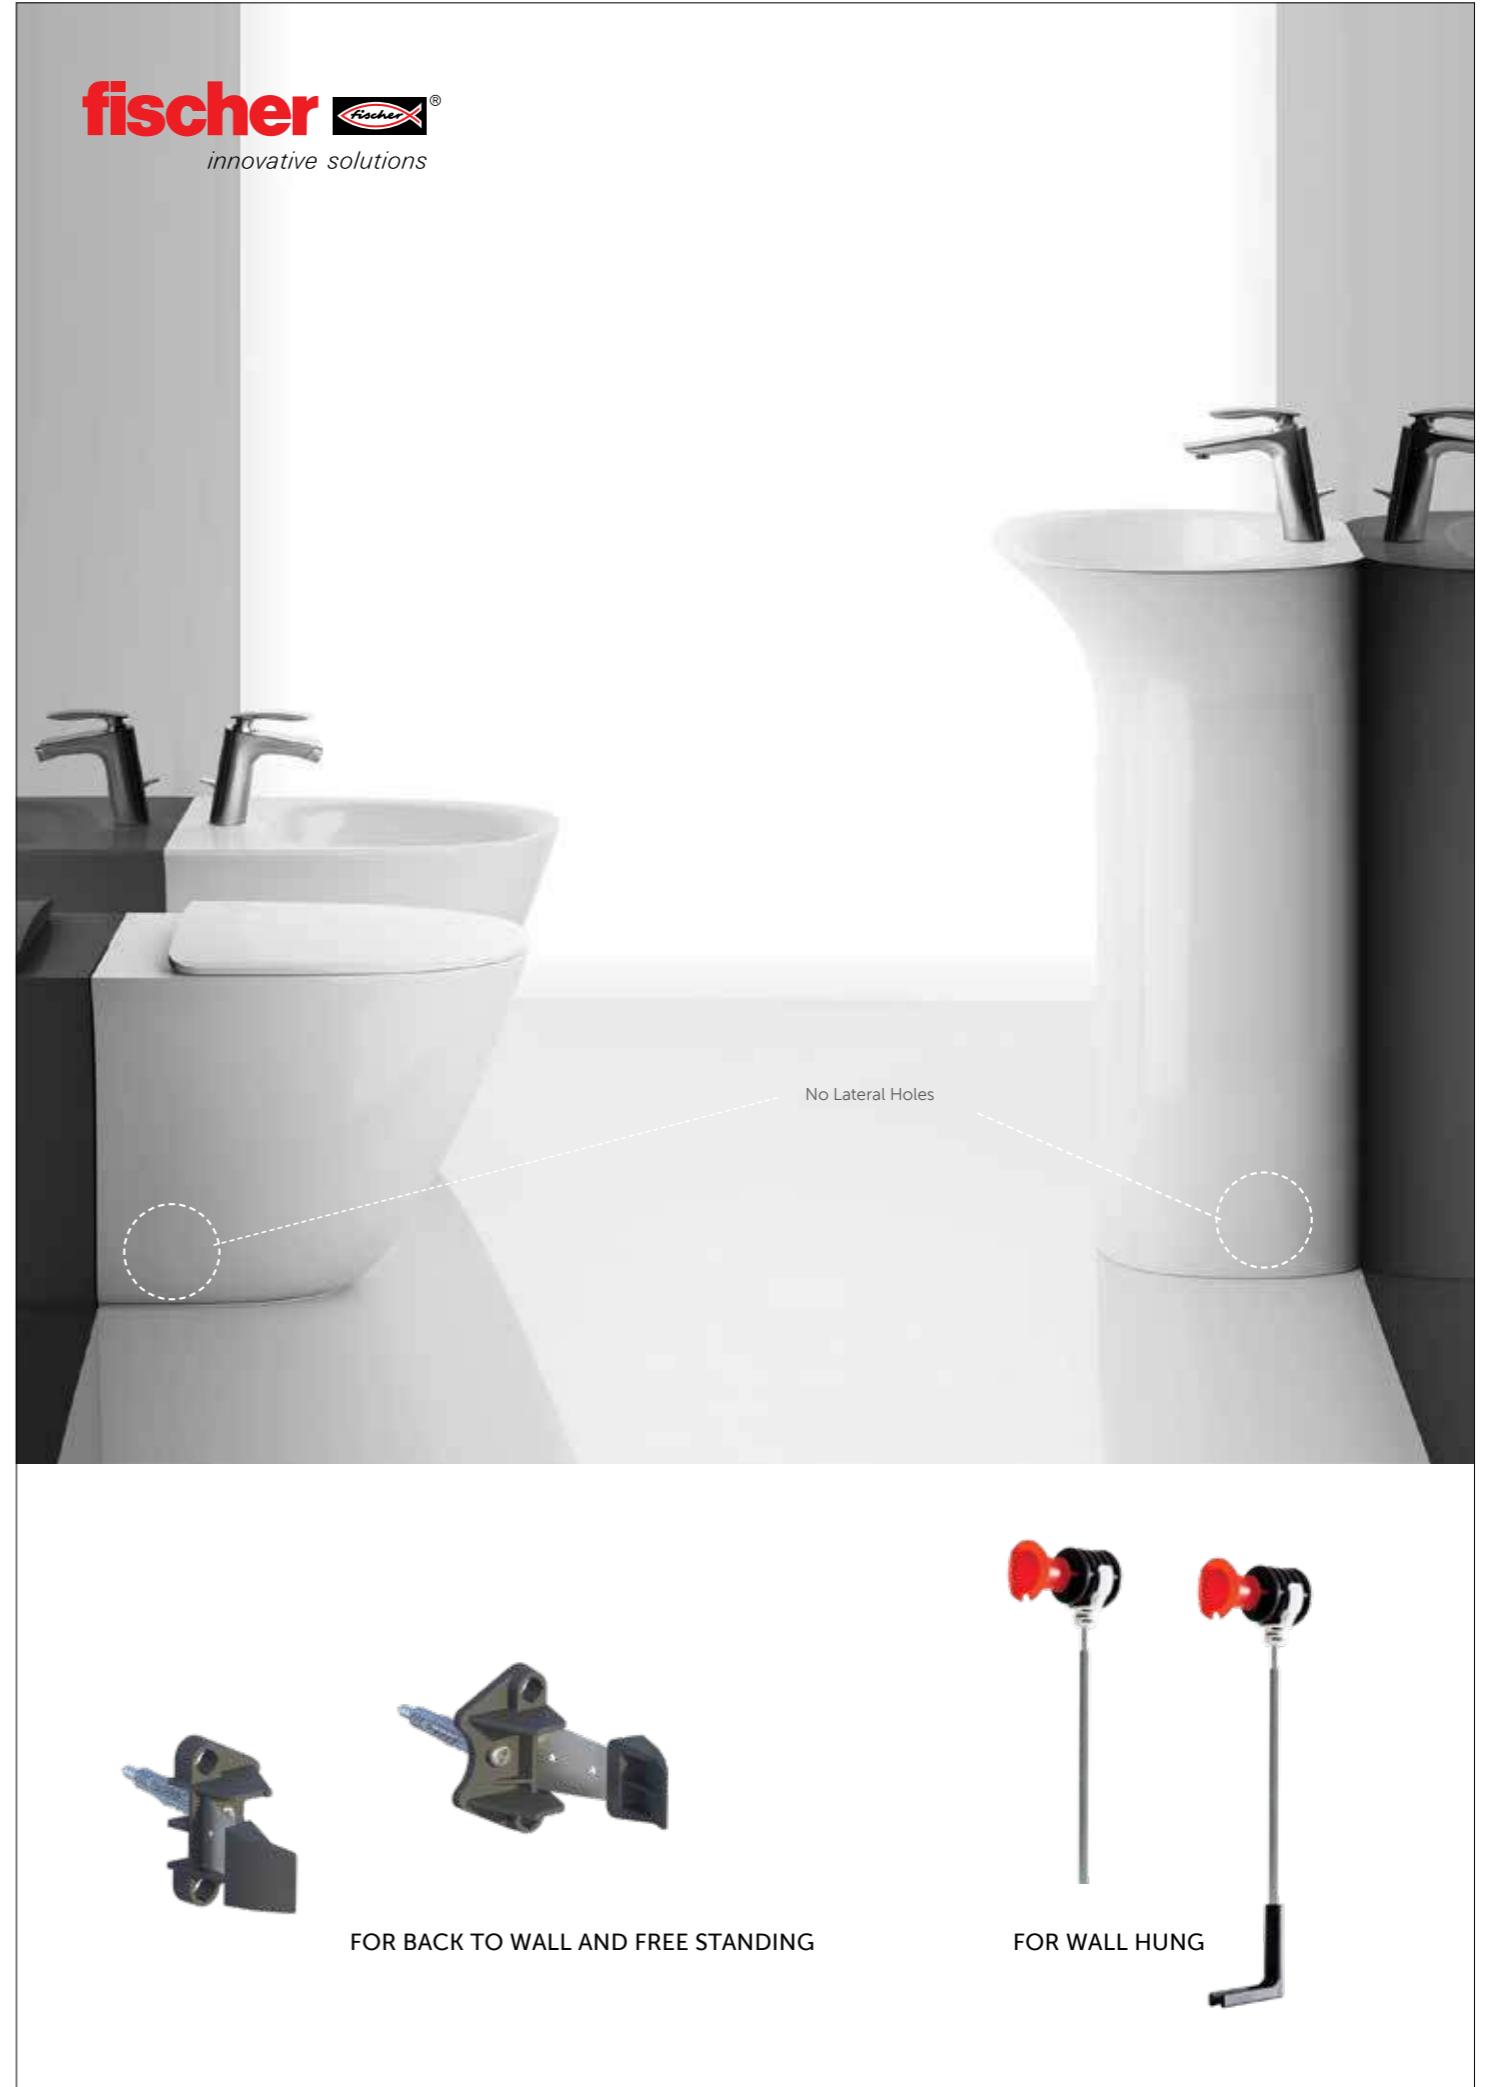

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm.

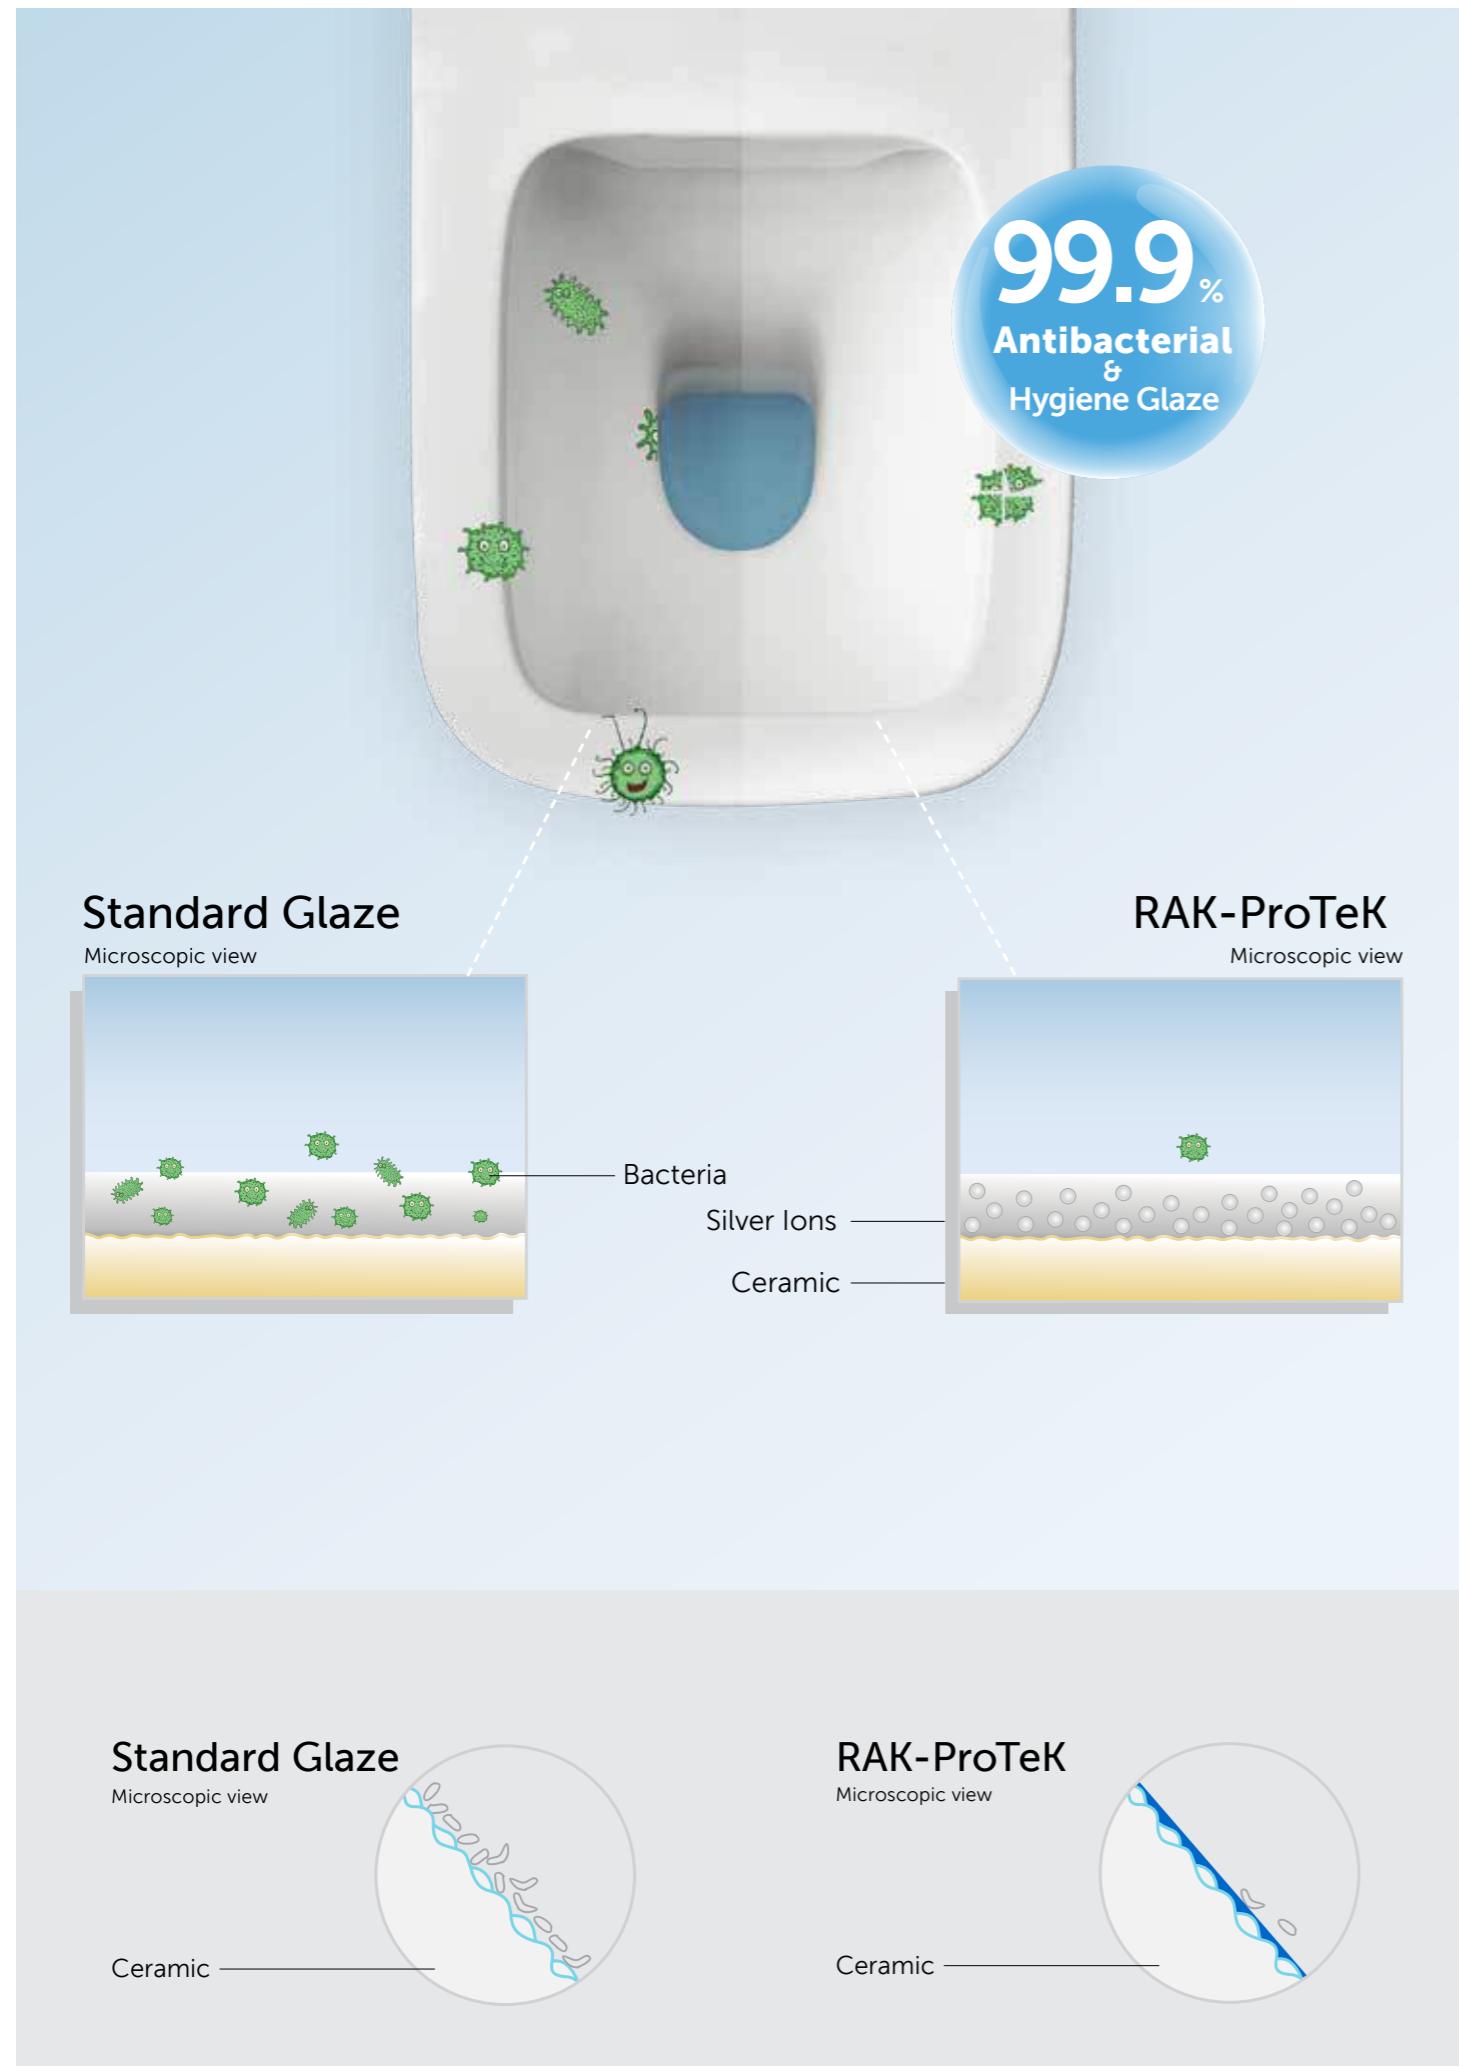

To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort. RAK Ceramics design evolves together with human evolution.

Hidden fixation systems

Our wall hung and back to wall products are benefitting of the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.

RAK-Sanit A new standard for hygiene

RAK-Sanit solutions for your bathroom are produced with RAK-ProTeK, the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

This feature allows the particles accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK glaze has been tested by Artest laboratory from the Italian Ceramic district in Modena.

For more information, please refer to RAK-Sanit dedicated brochure.

RAK-CLOUD

Fluid lines inspired by geometric swirls combined with changing shapes like clouds lend themselves to multiple interpretations and play with light, producing a soft enveloping effect, culminating in a sophisticated but at the same time functional and welcoming bathroom. **RAK-Cloud** is available in Back to wall, or wall-hung sanitaryware, elegant freestanding bathtubs and washbasins.

Design

Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design.

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

Giuseppe Maurizio Scutellà

RAK-DES

RAK-Des is a new concept bathroom suite that pays tribute to the Bauhaus school by which it is inspired, on the occasion of the centenary of its foundation (1919). RAK-Des includes bowls and freestanding washbasins with the essential minimalist lines. The rectangular washbasins of this collection can be installed suspended, individually, or combined with the RAK-Joy vanities.

Touchless flushing

Enjoy the same hands free, germ free experience of commercial restrooms. With the new RAK Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to the home use toilets. A sensor module mounts underneath the toilet's cistern lid and runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 Liters keeping the hand above the spot, or 3 Liters waving the hand.

Technical Information:

- Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.
- Battery life: around 2 years for family use, and 1 year for commercial using.
- Override lateral push button in case of failed battery.

FREE STANDING BATHTUBS IN RAK SOLID

DESIGN AND FUNCTIONALITY

التصميم والوظيفة

RAK-Washington bathtubs are made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte white finish gives a distinctive feel to the bathing area, as well as a pleasant to the touch and more anti-slip safety.

صنعت أحواض الاستحمام "راك-واشنطن" من راك صولد، وهي مادة متينة تتكون من خليط من المعادن الطبيعية والراتنجات. يمنحك اللون الأبيض اللامع الأنيدق مظهراً مميزاً لمنطقة الاستحمام، بالإضافة إلى لمسة لطيفة والمزيد من السلامة المضادة للانزلاق.

RAK-PETIT

WASH
BASINS

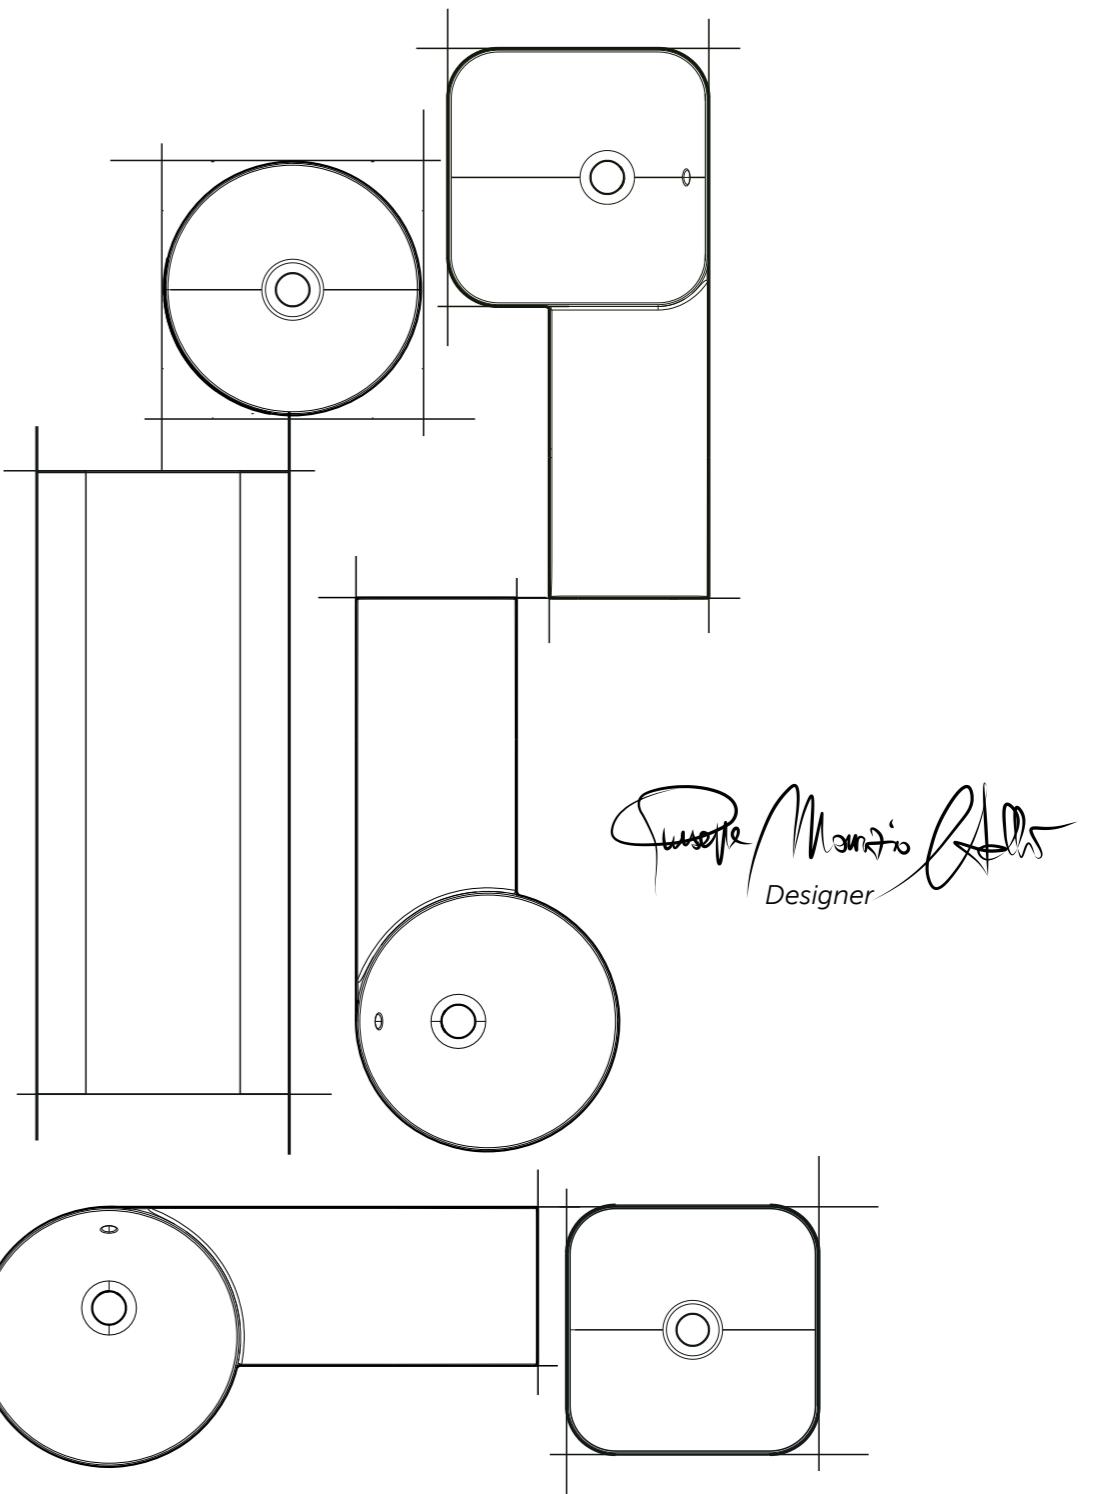

RAK-Petit is the second chapter of the successful collaboration with Maurizio Scutellà. A transversal collection of small washbasins designed for architects and interior designers who address the theme of small spaces; with minimal shapes and small dimensions, RAK-Petit is perfect for small but special bathrooms and for furnishing elegant public spaces. freestanding washbasins for representative or public bathrooms.

Design Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design. RAK-Petit is the second concept developed together with RAK Ceramics (2019).

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter".

RAK-VARIANT

WASH
BASINS

Round, oval, square... what's the shape of your freedom? Feel free to design, free to explore new solutions for your bathroom project, free to imagine. RAK-Variant featuring countertop, drop-in and under counter washbasins. Different shapes and different sizes with or without tap bank. Made from high-quality ceramic in 5mm thickness.

DANIEL DEBIASI AND FEDERICO SANDRI

Designer

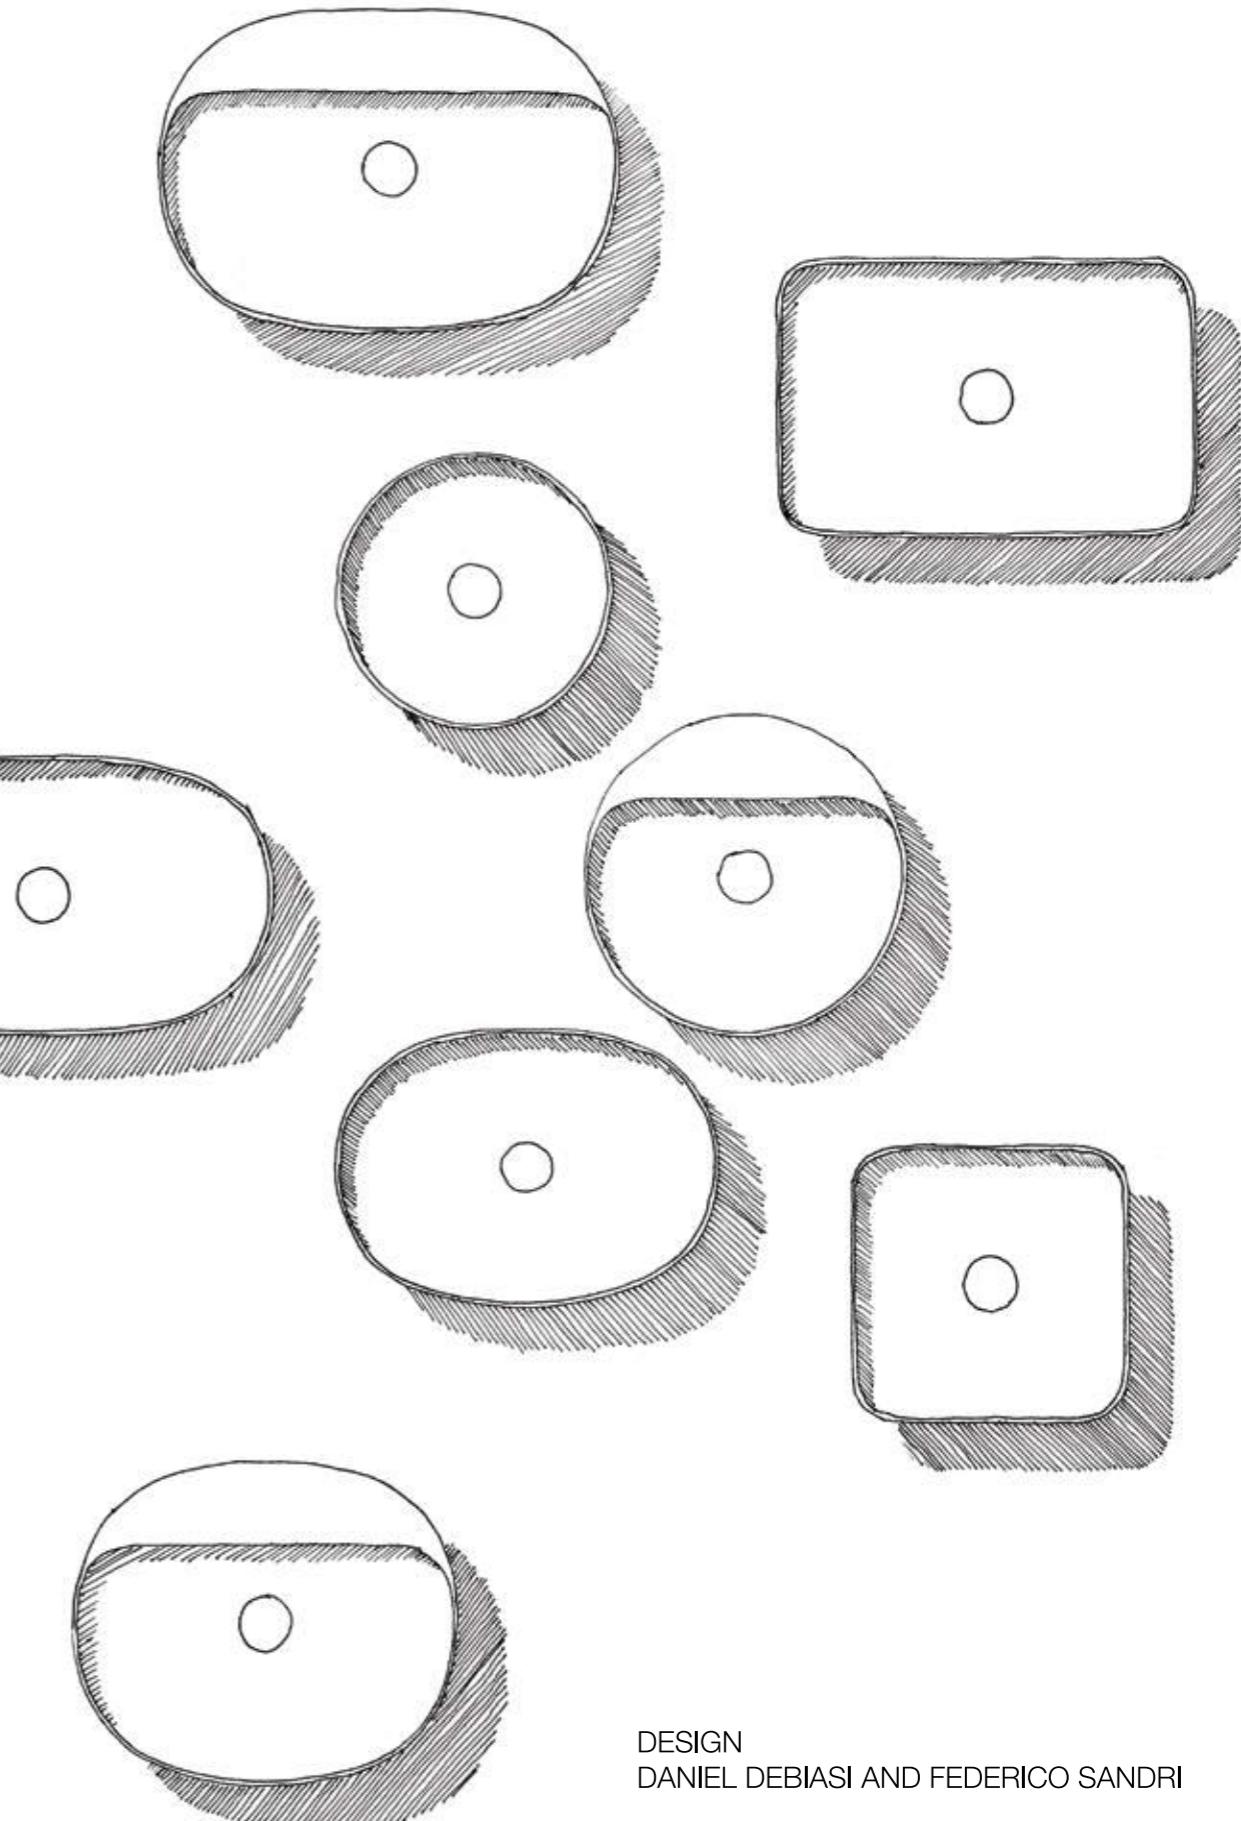

Daniel Debiased and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiased and Federico Sandri present the project RAK- Variant (2019).

أسس دانيال ديبياسي وفديريكو ساندري استوديو التصميم الخاص بهما في عام ٢٠١٠ ويعملان في مجالات التصميم المختلفة، بدءاً من الأجسام حتى المساحات. تشكل التجارب المتعددة والعلاقة بين التصنيع والحرفة الأساس لتفكير الأوسع نطاقاً، حيث تعتبر الأجسام دائمة جزءاً من صورة أكبر. لقد قاما بإنشاء أعمال لصالح أنتونيلوبي ولينا روزيت ونورمان كوبنهagen وأوفكت وروشنثال وستيلتون وفيليروي آند بوش وأخرين. حصل العديد من مشاريعهم على جوائز دولية في مجال التصميم، وهي واردة في المنشورات في جميع أنحاء العالم. إلى جانب عملهما كمصممين، فهما يعملان بانتظام على التدريس وعقد ورش عمل وإلقاء محاضرات في مختلف المؤسسات بما في ذلك جامعة البندقية للهندسة المعمارية (IUAV) وجامعة البوليتكنيك في ميلانو. يقدم دانيال ديبياسي وفديريكو ساندري، جنباً إلى جنب مع راك-سيراهيكس، مشروع راك-فاريانت ٢٠١٩.

Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a 3 Liters single flush cistern.

RAK Ceramics has developed this innovative watersaving technology specifically for those countries with limited water resources, delivering a system that perfectly flushes with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

3L SINGLE FLUSH

احتياجات كبار السن

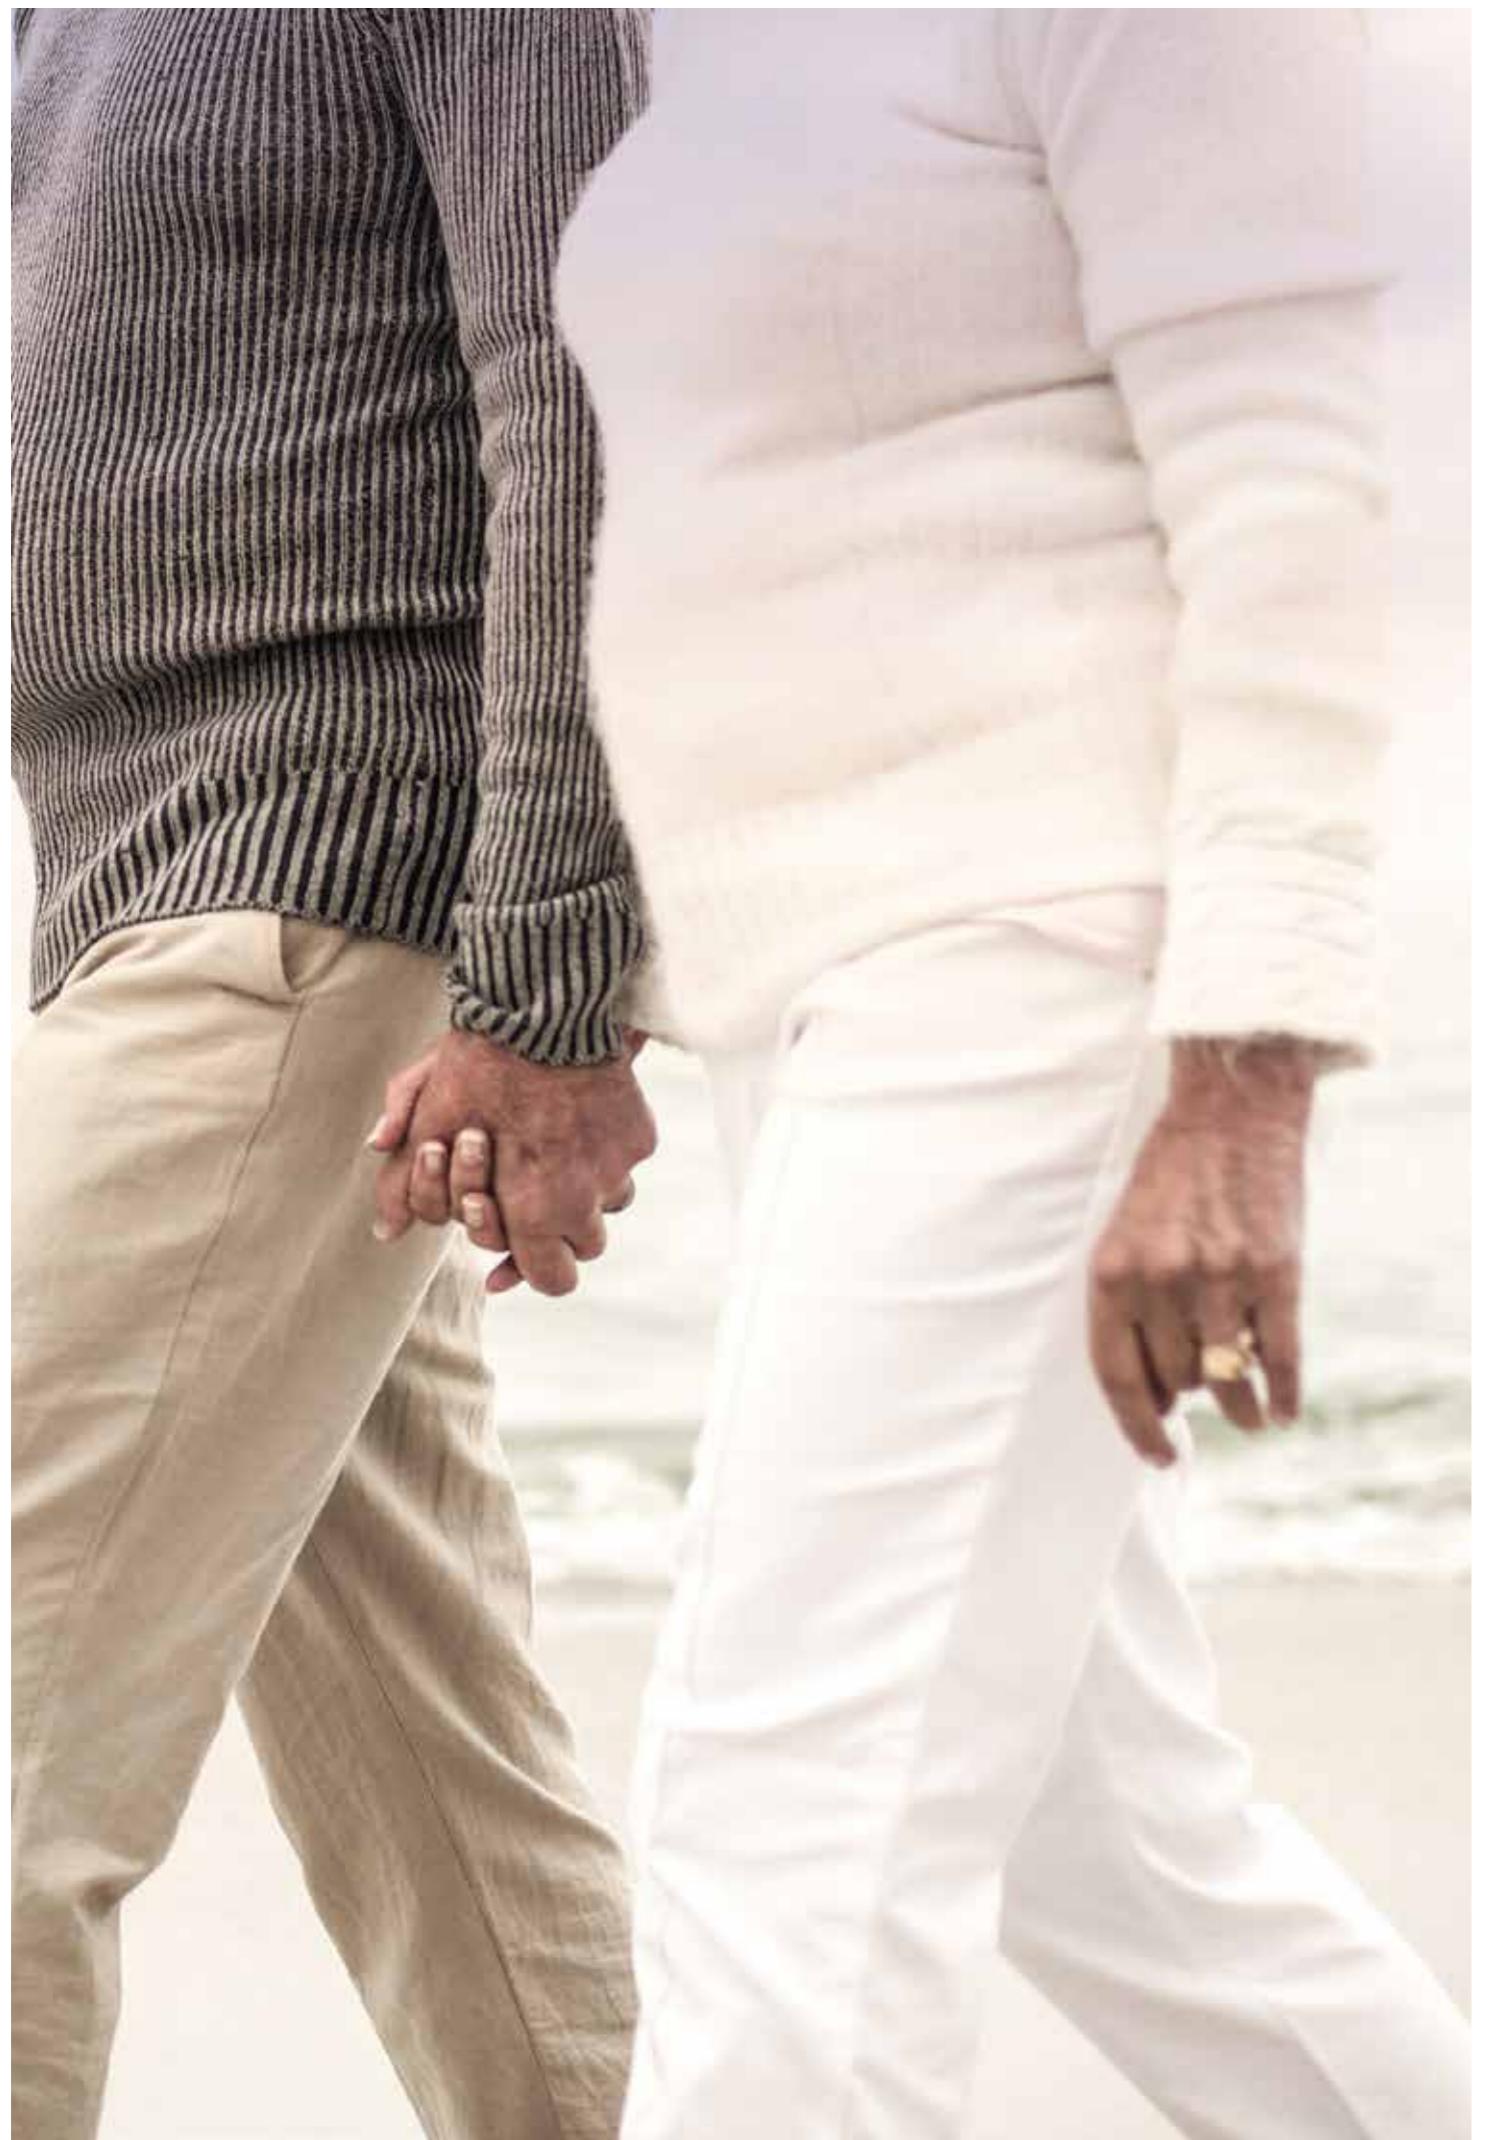

RAK-SILVER

SENIOR NEEDS

Just a few small changes are enough to turn your bathroom into a safe environment, even if you are in your twilight years or have limited movement. The **RAK-SILVER** collection has been created by RAK Ceramics to provide safety, functionality and comfort at any age, with essential features to ensure total independence and autonomy in your bathroom, without sacrificing on style.

Equip your bathroom in 6 easy steps

1. Make your toilet more comfortable, choose a H 45cm WC comfort height
2. Replace the comfort of your bidet with a spray douche (shataff)
3. Install quality design grab bars
4. Replace your bathtub with a walk-in anti slip shower tray
5. Install a comfortable and safe shower seat in your shower
6. Organize your medicinal products and first aid kit in capient and functional cabinet mirrors and furniture storage

Waterless urinal

RAK-Venice is a urinal perfectly functioning with no use of water:
we call it Waterless.

RAK Ceramic's Waterless system is unlike any other dry valve in the market,
helping to: eliminate restroom odors, provide the most robust flow rate,
make maintenance and clean up easier, and provide a more hygienic solution
in the restroom. The maintenance of our Waterless system is easy and fast,
the green visual indicator is made of biodegradable ingredients that inform
when it's time to change out your cartridge (approx. 7500 uses).

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

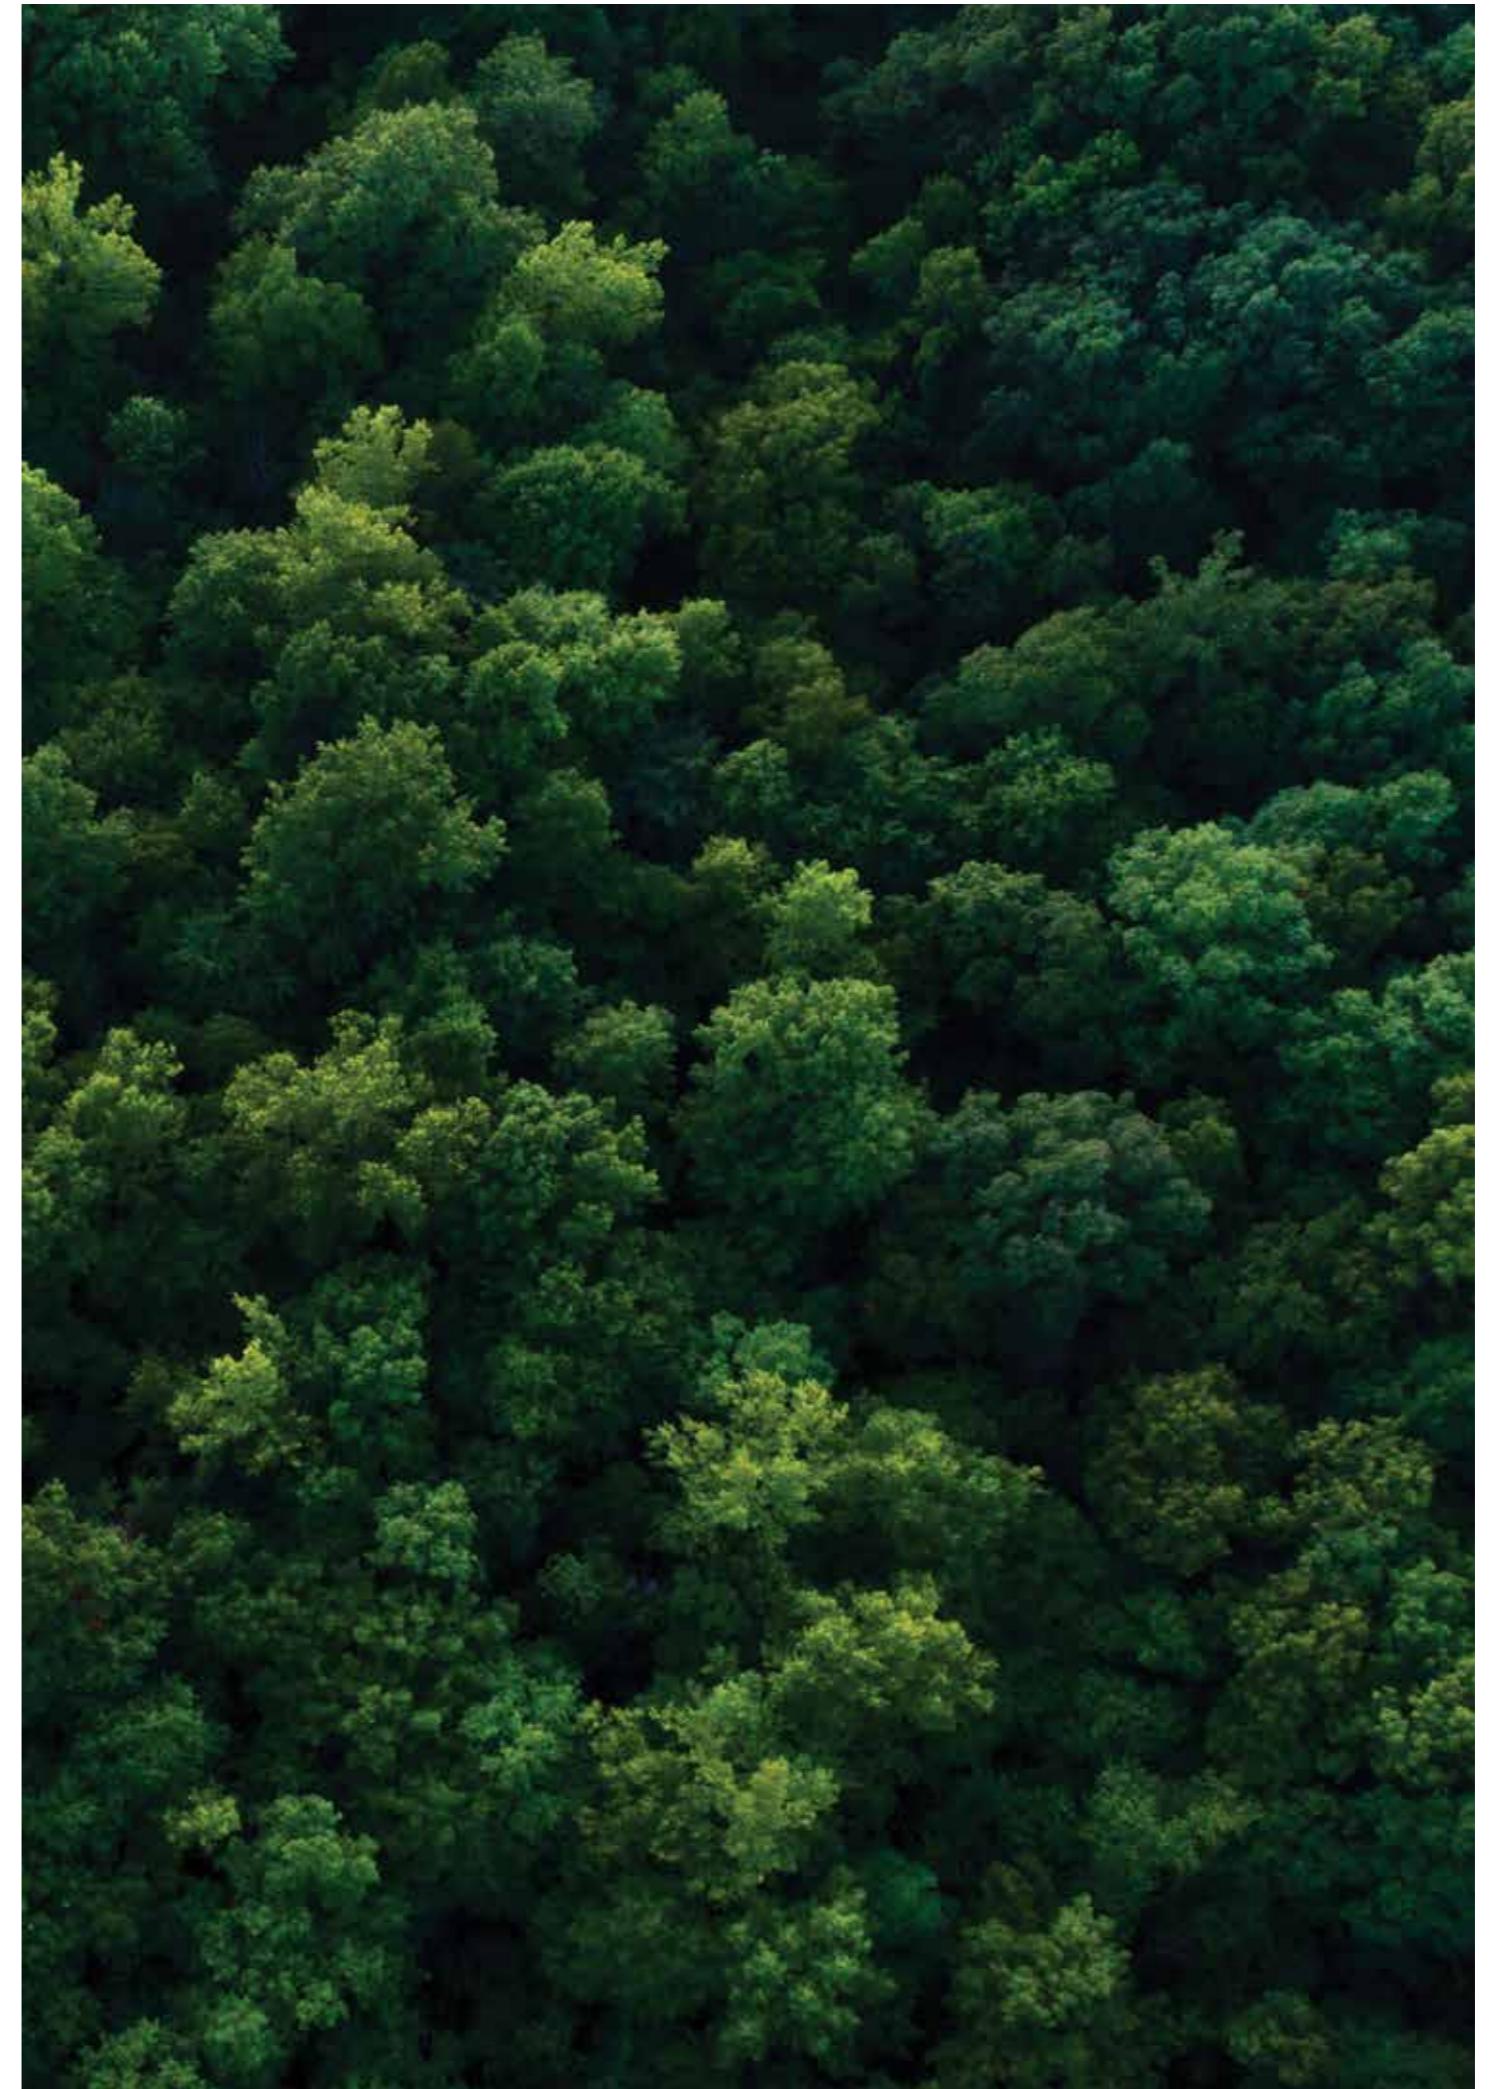

FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

DESIGN AND FUNCTIONALITY

التصميم والتطبيقات

RAK-Cloud and RAK-Washington bathtubs are made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte white finish gives a distinctive feel to the bathing area, as well as a pleasant to the touch and more anti-slip safety.

راك-كلاود ل أحواض الاستحمام مصنوعة من مادة متينة تتكون من خليط من المعادن الطبيعية والراتنجات. يمنحك اللون الأبيض اللامع الأنثيق مظهراً مميزاً لمنطقة الاستحمام، بالإضافة إلى الشعور بالملمس اللطيف والمزيد من شروط السلامة المقاومة للانزلاق..

RAK-FEELING SHOWER TRAYS

RAK-**Feeling** is made of RAKSOLID, a durable material composed of a mixture of natural minerals and resins. The elegant matte finish with stone effect gives a distinctive feel to the shower area, as well as a pleasant to the touch and more anti-slip safety.

VERSATILE INSTALLATION

RAK-Feeling shower trays can be installed flush to floor, semi-recessed or directly onto the floor.. RAK-Feeling products are ideal for both new buildings and renovations, thanks to the minimum dimensions of 5.8 cm required under the shower tray for the waste.

يمكن تركيب أحواض استحمام راك-فيلينك في مواجهة الباب أو في تجويف يشكل جزئي أو قبالة الباب مباشرةً. ونعد منتجات راك-فيلينك متالية لمباني الجديدة والمحاد تجديدها على حد سواء. بفضل الأبعاد الصغيرة البالغة ٥.٨ سم واللازم توافرها أسفل حوض الاستحمام لتجميع النفايات.

RESISTANT TO CHEMICAL PRODUCTS

GLAZED ON 4 SIDES

REPAIR

RAK-Feeling is only 3cm thin and its surface inhibits the growth of bacteria and fungi to ensure greater safety and hygiene. All the shower trays feature excellent resistance to chemical products. This is confirmed by the strictest chemical resistance tests required by the EN 14527 standard. They are not affected by exposure to light. This is confirmed by xenon arc lamp tests, which simulate sunlight on shower trays and verify the effects of ageing (EN ISO 4892 standard). Our RAKSOLID material meets the highest safety standards, being classified in DIN 51097 Class C (the highest achievable level of slip resistance). It prevents slipping on surfaces with an inclination angle of more than 24°. In the event of chips and scratches, shower trays can be restored to their original condition using a special repair kit.

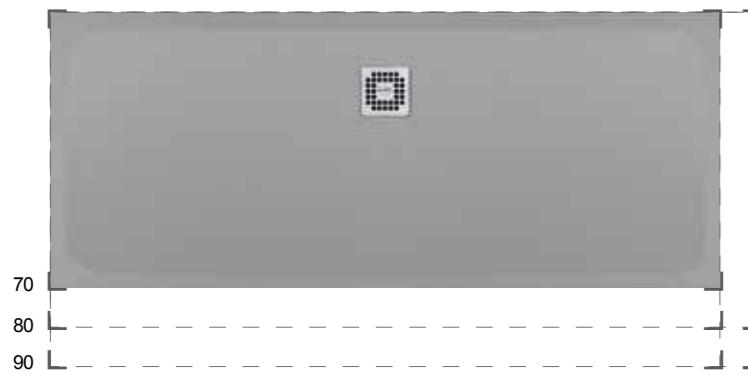

يبلغ سمك راك-فيليغ ٣ سم وسطه مقاوم لنمو البكتيريا والفطريات لضمان مزيد من الصحة والسلامة. جميع أحواض الاستحمام مزودة بطبقة مقاومة للماء الكيميائية. ويتأكد ذلك من خلال اختبارات المقاومة الصارمة للمواد الكيميائية التي يتطلبها معيار EN ٤٥٧. ولا تتأثر بتأثيرها على الضوء. حيث يتأكد ذلك من خلال اختبارات مصايب الرizinون القوسية، التي تتحقق على أحواض الشميس مع التحقق من آثار القدم (معيار ISO ٤٨٩٦ EN).

**FLUSHING
SYSTEMS**
أنظمة التنظيف

Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern.

Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

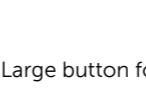

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

DUAL FLUSHING:

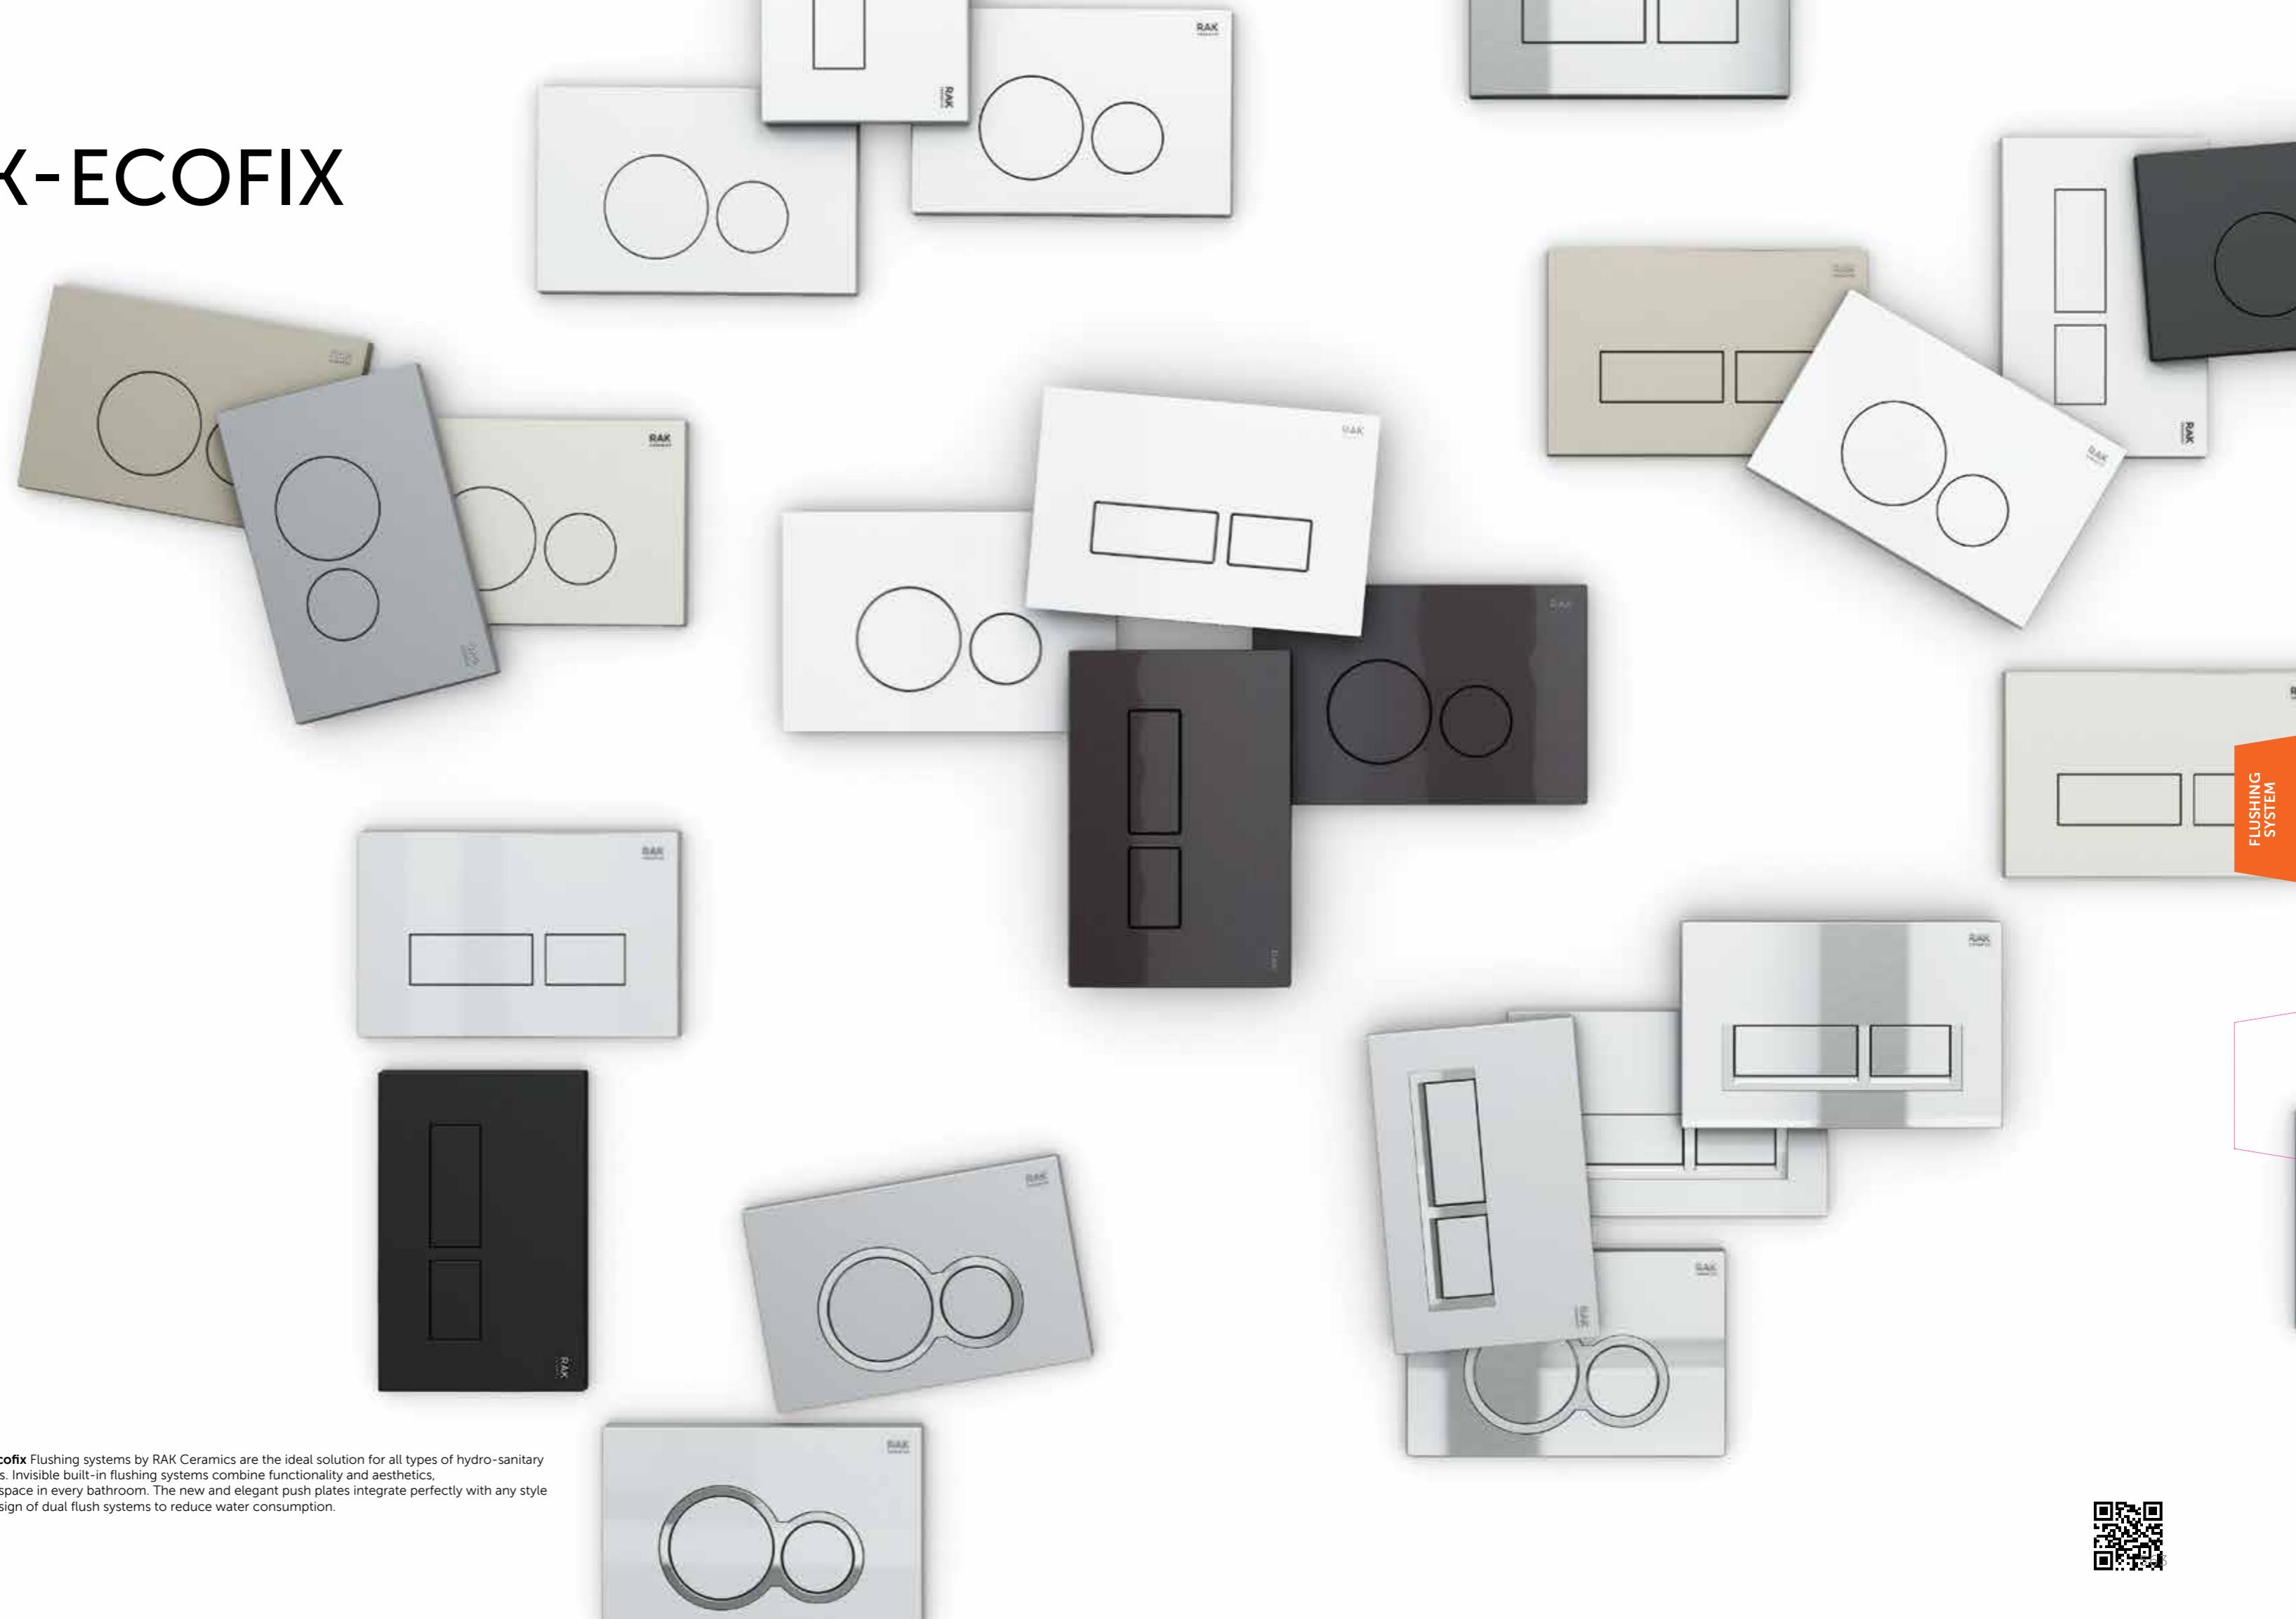

Large button for full flush.

Small button for half flush.

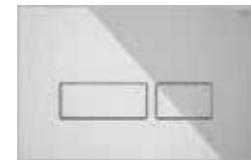

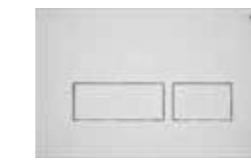

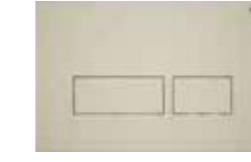

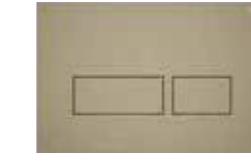

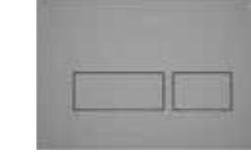

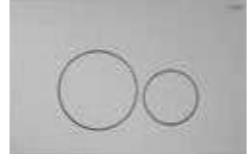

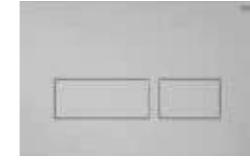

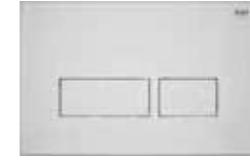

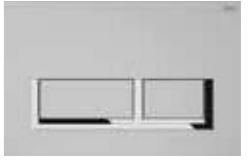

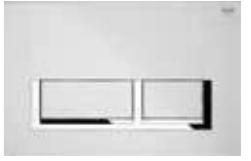

RAK-ECOFIX

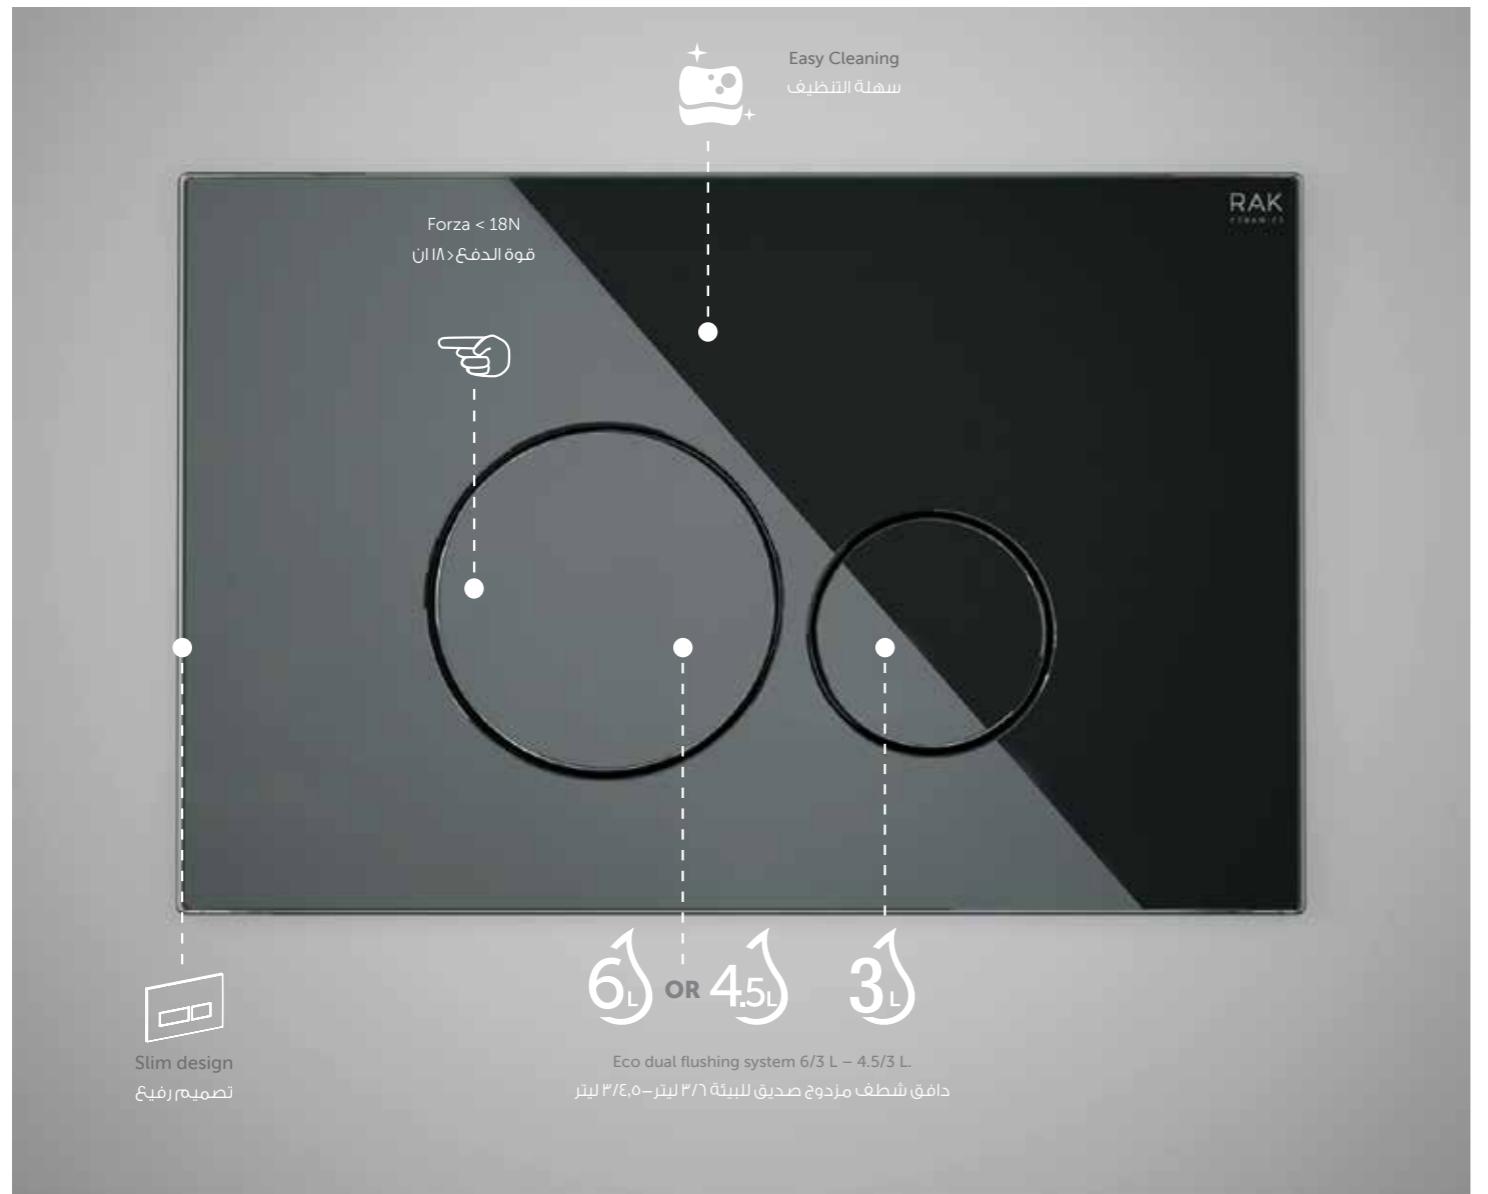

RAK-Ecofix Flushing systems by RAK Ceramics are the ideal solution for all types of hydro-sanitary systems. Invisible built-in flushing systems combine functionality and aesthetics, saving space in every bathroom. The new and elegant push plates integrate perfectly with any style and design of dual flush systems to reduce water consumption.

الأبعاد .. ٥ مليميتر × ٣٧ مليميتر × ٦ مليميتر

- مفعود وغطاء مختلف على النمط الأوروبي
 - تصميم رفيع بسمك ٦ مليمتر فقط
 - جمبع خصائص الخسبي بالشطفة ممكنة
 - يمكن تدوير رافعة دافق الشطف لضبط الخسبي والتحكم فيه
 - نمط الزر الواحد وسرعة التدفق وعملية تركيب سهلة ومرحية
 - مجموعة ثنيت المفعود: ثنيت المفعود، = ٤٥٢ / ٢٠٣ ملم.

Dimension: 500 mm x 370 mm x 60 mm

- European Style Wrap over seat and cover
 - Slim design, with thickness of only 60mm
 - Both functions of bidet wash enabled
 - Flush lever can be rotated to adjust and control wash
 - One-button style quick-release and installation function, easy and convenient
 - Seat mounting range:
A=452/22mm;
B=155/19mm/203/19mm
 - Adjustable flush volume mechanism
 - Top / Bottom mounted, slow close and noise free
 - Self-cleaning Nozzle
 - Universal hinge applied, wide adaptability enabled
