INNOVATIVE FLUSH TECHNOLOGY
Geberit Rimfree® toilets are equipped with a specially developed and patented flush guide which ensures a targeted and hygienic flush every time.

Rimfree®

CLEANLINESS
EASY TO CLEAN
RIMFREE®

Keeping the bathroom spotless is a must, because cleanliness and hygiene are important, especially in the bathroom. Cleaning should not become a hassle where one has to deal with tricky corners and difficult to reach places. Most people would also rather avoid handling harsh cleaners. Modern bathrooms are neat and orderly so it comes as no surprise that this trend also applies to the toilets with the introduction of Rimfree®.

Geberit has introduced a completely new and patented flush technology. The flow of water is controlled just before it reaches the ceramic pan. A flush guide sends the water stream along both sides to the exact area where it is needed for a clean and thorough flush.

www.geberit.co.uk

↑
Common toilet pans depend on a flush rim which cannot easily be cleaned. Dirt and bacteria accumulate in this difficult to reach place resulting in unpleasant odours.

↑
With the Geberit Rimfree® technology however, there is no rim. The smooth inner surface of a Geberit Rimfree® toilet pan is cleaned with one swipe. And best of all, you can immediately see if all dirt has been removed.

COMFORT

CLEANLINESS AT THE TOUCH OF A BUTTON

Geberit has spent the past 40 years continuously fine tuning the shower function and spray, the centrepiece of any shower toilet. At the same time, we have invested in developing innovative technology and comfort functions, making our shower toilets the market leader. Depending on the model, a host of features make for a truly pampering experience.

GEBERIT

DUOFRESH

MODULE

UNPLEASANT ODOURS IN THE TOILET ARE A THING OF THE PAST

It is completely normal to have an extractor fan over a hob in the kitchen to remove unpleasant odours and now the same principle is available in the bathroom. The Geberit DuoFresh module removes the bad air directly from the toilet ceramic appliance, purifies it using a ceramic honeycomb filter and then returns it to the room. This is extremely effective, as it prevents unpleasant odours from spreading throughout the bathroom in the first place, rendering air fresheners, lighting matches, opening windows and the like completely unnecessary. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down on the toilet. Therefore, the odour extraction is a great idea for guest toilets. Benefit from additional comfort thanks to an LED orientation light and the insert for in-cistern sticks. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any flush plate from the Sigma range.

QUIET

GEBERIT SELNOVA SQUARE

Geberit Selnova Square's modern, yet classic designs, blend harmoniously into any bathroom. This is in addition to many clever solutions for special requirements, making it very easy to turn an old bathroom into a modern space. **Corners and edges, new highlights.**

GEBERIT SELNOVA SQUARE NEW HIGHLIGHTS

A CLEAN-LINED CONCEPT

The washbasins taper downwards to form a connection with the cabinets underneath, which are set noticeably further back. This approach enhances the slimline, light weight appearance of the bathroom series. The integrated, delicately curving profile handles mimic the curves formed by the fronts of the washbasin, emphasising the impression of lightness.

Modular side cabinets are available in a variety of shapes and sizes and with corresponding mirror cabinets for extra storage. The furniture is delivered fully preassembled, and available as either white high gloss or lava matt.

SUITABLE TOILETS FOR EVERY CONSTRUCTION SITUATION

The Geberit Selnova Square design language follows through to the WC and bidet options. The wide ranging of both wall-hung and floor-standing WCs offers a solution for every bathroom – including for cost-effective modernisations without complex structural modifications.

1 Corresponding mirror cabinets add extra storage options. **2** Floor-standing and Wall-hung WC and bidets available. **3** The profile handles mimics the gentle curving of the washbasin's front edge.

2 Lay-on washbasins with clean rectangular geometric shape, with deck mounted taps on base panel.

GEBERIT VARIFORM MODERN WASHBASINS

THE LATEST DESIGN TRENDS MADE VERSATILE AND ERGONOMIC

The streamlined rims of Geberit VariForm washbasins are the perfect match for cutting edge bathroom designs. The countertop and lay-on washbasins are available both with and without a tap hole bench. The tap can be installed as a deck mounted tap on the ceramic, or the base panel,

or alternatively, as a wall mounted tap on the prewall installation. All Geberit VariForm models feature a generous basin depth to ensure freedom of movement in ergonomic conditions. Made from high quality sanitary ceramic, the washbasins are scratchproof and resistant to cracks, as well as easy to care for.

1 An ornate black edging provides for a striking visual effect on the narrow shelf surfaces. **2** The L-shaped washbasin cabinet offers even more storage space. **3** The interior can be used to its full potential thanks to drawers without a trap cut out.

GEBERIT VARIFORM WASHBASIN CABINETS FOR LAY-ON WASHBASINS

FOR WASHBASIN AREAS WITH STYLE AND STORAGE SPACE

The calm, understated design of the Geberit VariForm washbasin cabinets gives the washbasin area a sense of lightness and perfectly complements the lean, modern design of the washbasins. The modular system permits flexible planning tailored to the space. The narrow washbasin cabinet is available in widths of 75 and 90cm, each with one drawer. The elements are additionally available as a set with a low cabinet of

the same construction height, or in an L-shape with a larger low cabinet. If more storage space or two washbasins are required in the bathroom, different combinations can be connected with each other according to preference. The furniture comes in a wide range of design colours; white high-gloss coated, lava matt and hickory which blends in harmoniously with a wide range of styles.
