EASIER TO CLEAN & KEEP CLEAN

Glass protection is now an important feature of a shower enclosure. A good glass protection system will create a long lasting barrier which will never discolour, peel or crack. Following extensive research, we chose to use the Clean & Clear™ Easy Clean Glass Treatment, a market leading treatment which we trust to protect all our Aquadart enclosures.

Our Clean & Clear™ glass protection system is both innovative and highly beneficial. It creates a protective barrier which is applied to all Aquadart enclosures and screens as standard. The 'non-stick' surface resists lime scale build-up and water spots, which hinders bacteria growth for a more hygienic environment, whilst reducing the need to clean by half.

ROLLA 8 SLIDING DOOR

Smart design, precision geometry and versatility define Rolla 8. This exciting frameless range has the minimalistic look of a wetroom yet incorporates the practical, functionality of an enclosure. Beautifully engineered rollers, soft stop buffer and new **CLEAR⁺SEALS** together have created a revolutionary, flexible product. Use with a contemporary slimline tray or wetroom installation.

ROLLA 8 NEW FEATURES

Corner Post allows the door to close against a wall or window.

The **Matt Black** finish is anodised for increased durability which is integrated with the substrate rather than applied to the surface for superior quality and longevity.

Striking **Eyelet Handle** echoes the contemporary design of the rollers.

Closing seal creates an enhanced watertight seal without the need for an additional wall profile.

ROLLA 8

SLIDING WETROOM

Achieve a striking and contrasting look with our New Rolla 8 black option. Use as a wetroom - clean, simple lines with the added advantage of a water guard.

PRODUCT INFORMATION

SHOWER ENCLOSURES

All products are manufactured in accordance with ISO 9001 and ISO 14001. All glass fully conforms to the relevant EN standards for toughened safety glass. All aluminium sections are extruded from alloys which comply with relevant EN standards. Doors and enclosures are tested in accordance with the relevant EN standards and are suitable for use with modern power showers. Profiles are adjustable to compensate for out-of-true walls, please see specific product details for levels of adjustment. Products are supplied with full installation instructions and fixings.

GUARANTEE INFORMATION

Aquadart guarantees cover all manufacturing defects. This guarantee does not cover damage during fitting or misuse. The guarantee applies only to the original purchasers of the product and is not transferable. To register your guarantee visit www.aquadart.co.uk where you will also find our terms and conditions.

SHOWER ENCLOSURES

All shower enclosures carry a lifetime guarantee when fitted with an Aquadart shower tray. A 10 year guarantee will be given when fitted with any other manufacturer's tray. Wetroom panel guarantee applies as above. When panels are installed without a tray, a lifetime guarantee applies.

SHOWER TRAYS

All shower trays carry a lifetime guarantee.

PRICES

The prices included within this brochure supersede all previous publications with goods being invoiced at prices ruling on date of dispatch. Prices are subject to alteration without notice.

ERRORS & OMISSIONS

In the interest of continuing design and development and product improvement, Aquadart reserve the right to change colour, designs and product specifications without prior notice. All colours in this brochure are as accurate as the printing process will allow.

MEASUREMENTS

All dimensions are in millimetres and are nominal, they are provided as guidance only. *Please note:* measurements are not suitable as template for mosaic tiles/bespoke wetroom floors.

CLEANING INSTRUCTIONS

It is important to clean your Aquadart shower enclosure after every use. Please wipe down all the glass and metal parts with a clean soft cloth. Ensure that all residual water on the glass is removed after every use.

CLEAN AND CLEAR™

Clean and Clear™ glass can be cleaned with any suitable non-abrasive glass cleaner - with PH value of between 3-11; the coating will not be damaged. Avoid surfactants and heavily perfumed products. Vinegar and water based products are very effective. Do not use abrasive scrubbing cleaners or equipment for cleaning. Install your enclosure in a well ventilated area.

USAGE

For reliable, watertight performance from your Aquadart enclosure your shower head should not be positioned so that the shower sprays directly onto the enclosure door. Failure to comply with this may cause the shower to leak. Outward opening doors may cause water to drip onto the floor, please ensure that the floor covering immediately outside the enclosures will not be affected by water.
