AQUALISA

DREAM™ CONCEALED MIXER  
SHOWERS AND BATH FILLS

DRENCH  
BATH  
SPRAY

How many ways do you recognise Aqualisa quality?  
Maybe when you see it, perhaps when you touch it,  
but certainly when you experience it.

For the New Dream™ shower, sheer versatility sets it apart - be it an  
immersive drenching, a relaxing soak in the bath or a refreshing spray  
sensation. One valve but all the options for the modern, family bathroom.

**CHOOSE YOUR**

Contemporary square dials or a more classic round design, backed by an ultra-low profile wall plate, will fully complement a brassware style motif throughout the bathroom.

A complete range of single, dual and triple outlet showers simply means a choice of shower and bath fill combinations, depending on available space, family needs and your personal preference.

BATHE

Dream thermostatic technology ensures an accurate and consistent blended water temperature, instantly adjusting to any variations in water supply.

A pre-set maximum temperature stop gives an additional guarantee of safe showering.

## SINGLE OUTLET SHOWERS

Four shower only configurations feature either an adjustable handset and rail or a wall fixed drencher head, both in round or square styling.

Single outlet models can be installed in dedicated showering areas or over the bath and deliver excellent water flow rates from all types of water system.

# DUAL OUTLET SHOWERS AND BATH FILLS

Six configurations, including the popular slim wand handset, feature various combinations of shower and bath systems, both in round or square styling.

Dual outlet models can be installed in a dedicated showering area or over the bath and deliver excellent water flow rates from all types of water system.

From the high-grade polished chrome finish to the one piece solid brass valve, the Dream range shouts quality from front to back.

Smooth turn dials and different shower modes all add to a premium shower experience.

Concealed mixer valves are built-in behind the wall, enabling the shower controls to sit flush on the tiles.

This sleek, minimalist style in the shower area gives a greater sense of space as well as a superb look for your bathroom.

## TRIPLE OUTLET SHOWERS AND BATH FILLS

Two system configurations feature the ultimate combination of two shower outlets and a bath fill, in either round or square styling.

Triple outlet models must be installed over or adjacent to the bath and deliver excellent water flow rates from all types of water system.

## ROBUST, RELIABLE, DESIGN

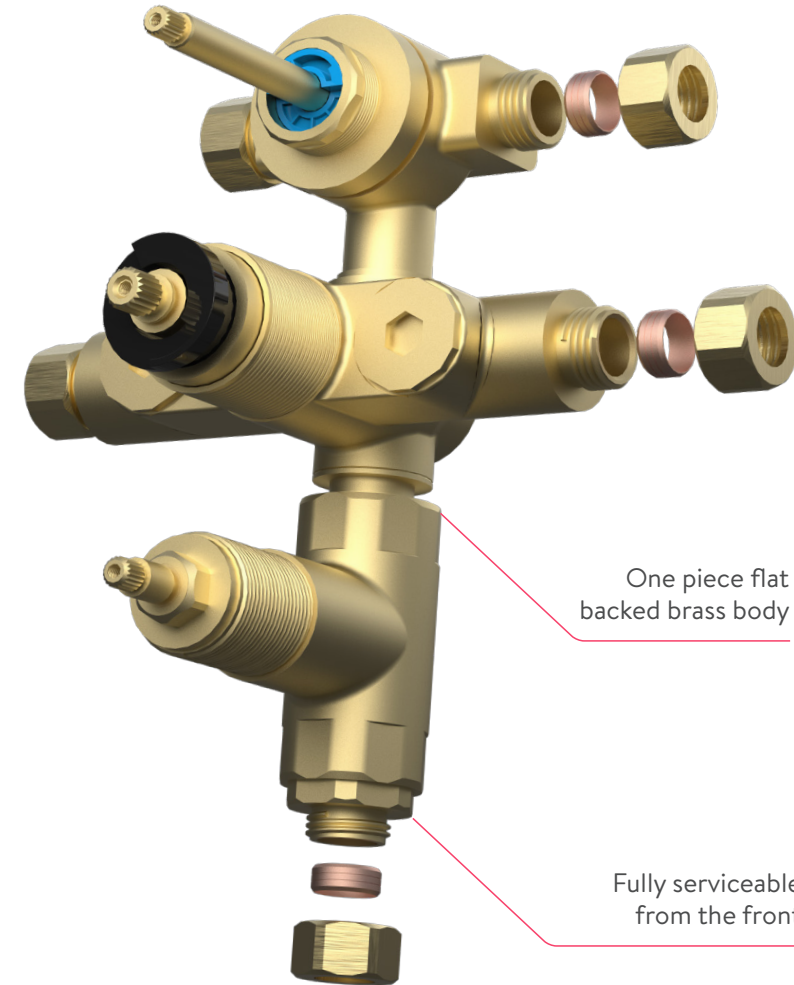

Easily assembled control shrouds and dials with a simple pushfit wall plate makes Dream easy to fit and service.

Designed and engineered for durability and high performance, the Dream product warranty extends up to 5 years when registered at the time of purchase.

## FROM FRONT TO BACK

Dream's flat back design is easy to position behind a stud wall and a variable concealing depth between 69mm and 90mm ensures that fixing is always straight forward and secure.

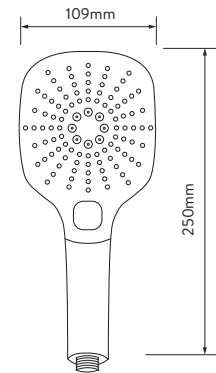

Every Dream shower is supplied with mortar guards with markings to denote installation depths and all 15mm pipework connections included.
