SIGNA

The relativity of the contour • La relatividad del contorno

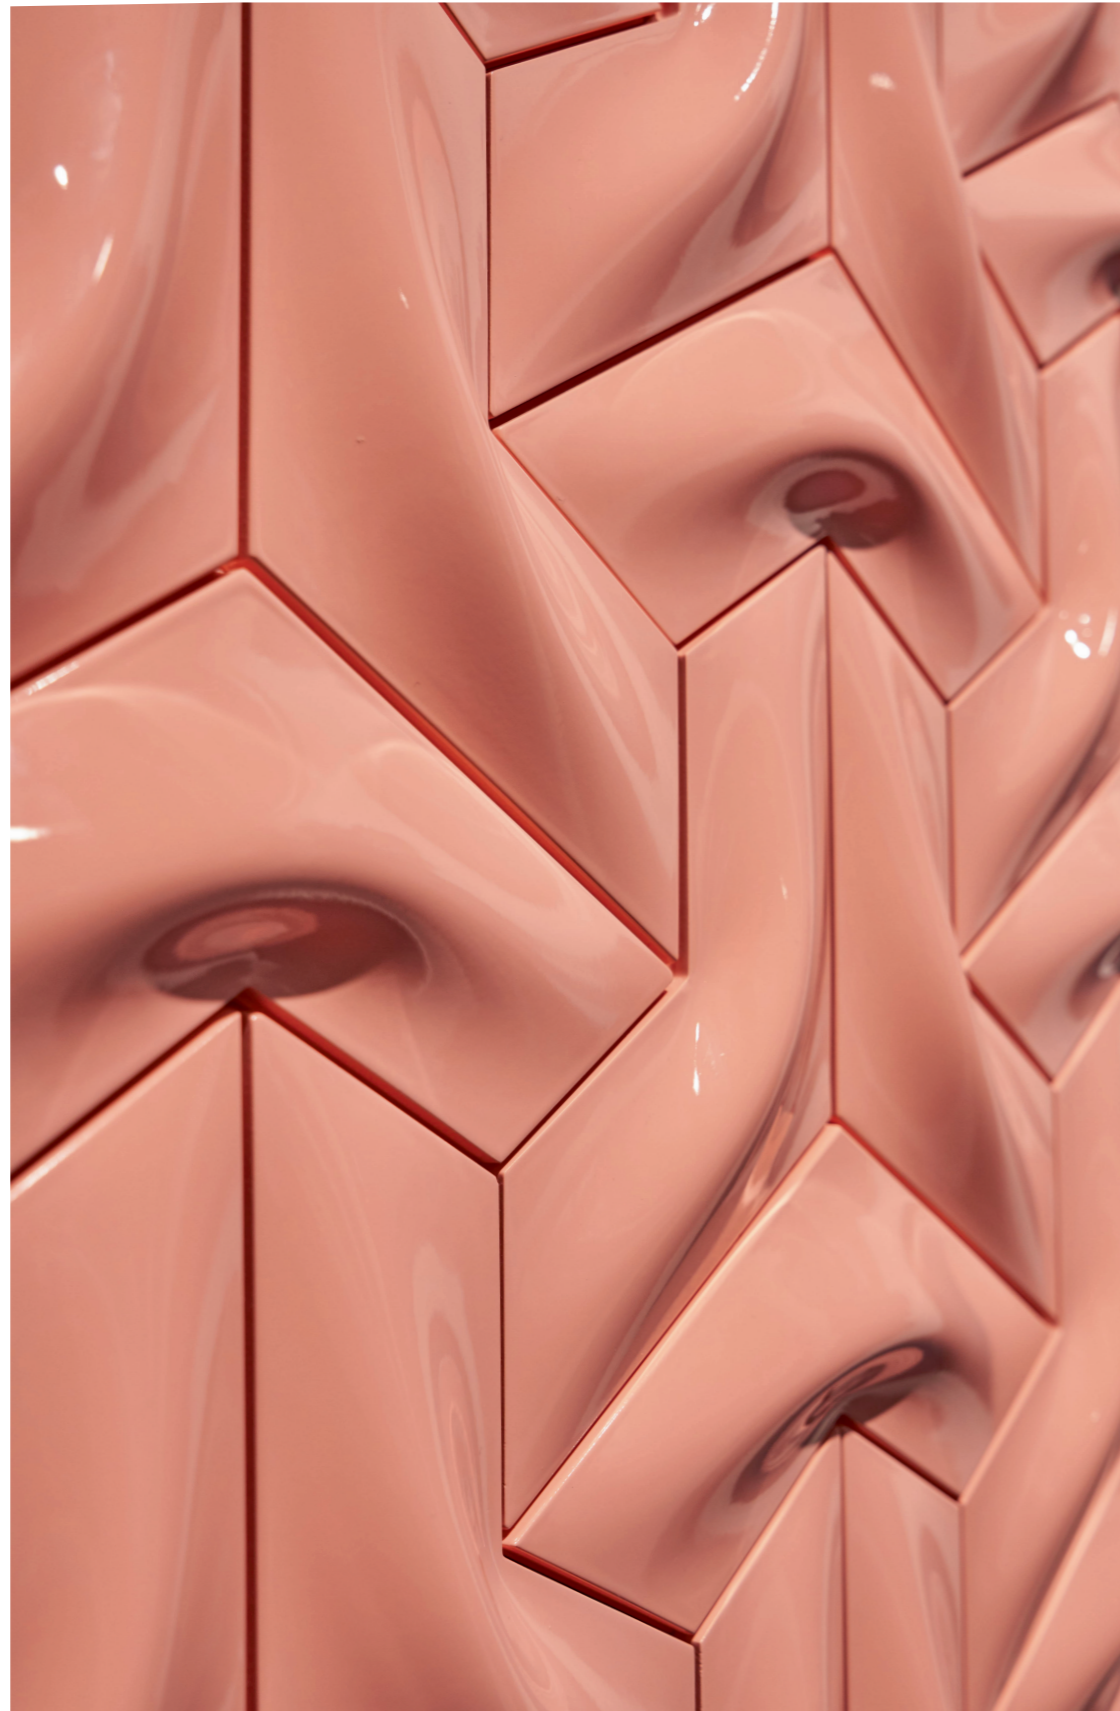

10.6 in x 10.6 in x 1.2 in • 27 cm x 27 cm X 3 cm

This piece is different from other similar pieces due to its volume. Light reflected from its curved sides generate infinite visual arts to the viewer.

Pieza que se diferencia de otras piezas similares por su superficie curva.

La luz se refleja en sus lados en curva para generar a la vista del observador infinitas aristas visuales.

To create a collection is to give a unique character to the designs, is to give each piece an infinite number of expressions, of tactile and visual perceptions, that transmit, that are capable of generating memorable moments, in short, that make us live, because in the end it is about this, to live feeling, to enjoy the character.

Crear una colección es dotar de carácter único a los diseños, es dar a cada pieza un número infinito de expresiones, de percepciones táctiles y visuales, que transmitan, que sean capaces de generar momentos memorables, en definitiva, que nos hagan vivir, porque al final se trata de esto, de vivir sintiendo, de disfrutar del carácter.
