LIFESTYLE

We design and create from Valencia, with the light and magic of the Mediterranean.
We inspire new, memorable sensations that transform environments and make you feel life. Why in the end, it is always about this, living with passion and making you feel.
We do this by designing and manufacturing 3D wall decoration pieces, hand-made in a human factory.

Diseñamos y creamos desde Valencia, con la luz y la magia del Mediterráneo. Inspiramos sensaciones nuevas, memorables, que transforman los ambientes y hacen sentir la vida. Por qué al final, siempre se trata de esto, de vivir con pasión y hacer sentir. Lo hacemos diseñando y fabricando piezas de decoración 3D para paredes, realizadas a mano en una fábrica sostenible.

CONCEPT

To be capable of creating a new language using our resources is a fascinating challenge that we confront daily.
Elements that in themselves or combined together outline a personality and add a new dimension to the design of luxury commercial spaces and exclusive homes.

Ser capaces de crear un nuevo lenguaje con nuestras piezas es el reto fascinante al que nos enfrentamos todos los días.
Piezas que por sí solas o combinadas entre ellas marquen la personalidad y aporten una nueva dimensión en el diseño de espacios comerciales de lujo y en hogares exclusivos.

“A new way,
a new decoration”

MATERIAL

Okiun has decided to invest in new types of materials never before used in the concrete sector, with the belief, that combined with a new generation of coatings we can discover and create unique pieces. All pieces are manufactured with an innovative concrete formula patented by Okiun that provides excellent qualities of hardness, strength and durability. It is an ecological material, as it can be 100% recycled. It can be reprocessed and used again in its production.

Okiun ha decidido apostar por nuevos tipos de materiales nunca antes utilizados en el sector del hormigón, con la creencia, de que combinados con una nueva generación de recubrimientos podemos descubrir y crear piezas únicas. Todas las piezas están fabricadas con una innovadora fórmula de hormigón patentada por Okiun que le aporta excelentes cualidades de dureza, resistencia y durabilidad. Es un material ecológico, ya que puede reciclarse el 100%. Puede ser reprocesado y utilizado de nuevo en su ciclo de producción.

100% Ecofriendly & Recyclable
It can be reprocessed and used again in its production cycle.

Fire resistant
The composition with high concentration of natural minerals gives it the best characteristics against fire

High durability
The materials used in the production of the pieces are of the highest quality and the development of each piece has been thought to guarantee a long life.

Easy Installation
No construction work is required, installation is quick and easy.

Easy Cleaning and Maintenance
It requires no maintenance and is very easy to clean.

Easy to repair
The repair is very simple, with the replacement of parts without any work.

Atmospheric conditions resistance
Outside Optimal behaviour of the parts outside.

Sunlight resistant
Optimal behaviour, no alteration of the aesthetic appearance

Soundproofing
Its exclusive composition and volumetric shapes make it, together with its mass, a solution that improves the acoustic insulation of the places where it is installed. In addition, Okiun's 3D design improves reverberation.

3D Light Effect
Ideal material for use in environments with a play of light and shadow due to its volume and 3D effect

Custom Pieces/Logos
Possibility to customize logos and images drawn on the pieces

Rehabilitation
Thanks to its characteristics, it is a very appropriate solution for aesthetic rehabilitations without building work.

HANDMADE

The human element is present and involved in every step of manufacturing.

All okiun pieces are handmade and pass a minimum of 10 times through the hands of a craftsman. Each piece is unique and has been made with passion so that it is able to transmit that authenticity in the history of decoration that will become part of it.

El elemento humano está presente e implicado en cada paso de la fabricación.

Todas las piezas de okiun estan realizadas a mano y pasan un minimo de 10 veces por las manos de un artesano. Cada pieza es singular y ha sido elaborada con pasión para que luego sea capaz de transmitir esa autenticidad en la historia de decoración que pasará a formar parte.

HANDMADE

HANDMADE

Everything from the intimacy of a craft dimension in a sustainable factory.

Todo desde la intimidad de una dimension artesanal en una fábrica sostenible.

#OkiunHandmade

CONTRACT DECOR

We specialize in professional projects. We inspire and create new experiences never seen before for the contract sector. Each project is unique, different from all the previous ones, are limited series. The geometry is chosen to shape the project, after the finish to give it its personality and finally the color to fill it with nuances that will transform everything.

Somos especialistas en proyectos profesionales. Inspiramos y creamos experiencias nuevas nunca antes vistas en el sector contract. Cada proyecto es único, diferente a todos los anteriores, son series limitadas. Se elige la geometría para darle forma al proyecto, después el acabado para dotarlo de su personalidad y por último el color para llenarlo de matices que transformaran su estancia.

HOME DECOR

Interior design pieces that transform homes into spaces full of elegance and exclusivity.
Each home is unique, Okiun pieces give it a world of new sensations.

Piezas de interiorismo que transforman los hogares en espacios llenos de elegancia y exclusividad.
Cada hogar es unico, las piezas Okiun lo dotan de un mundo de sensaciones nuevas.

#OkiunHomeDecor

GARDEN DECOR

Elements that make each garden unique, that generate an intimate relationship between those who live in it and nature.

The Okiun pieces are integrated into the decoration of gardens to give them nuances that make you feel nature more intensely.

Elementos que hacen cada jardín único, que generan una relación íntima entre quien lo habita y la naturaleza. Las piezas Okiun se integran en la decoración de jardines para darles matices que hacen sentir más intensamente la naturaleza.

The Collection

#OkunThe Collection

THE COLLECTION

To create a collection is to give a unique character to the designs, to give each piece an infinite number of expressions, of tactile and visual perceptions, that transmit, that are capable of generating memorable moments, in short, that make us live, because in the end it is about this, to live feeling, to enjoy the character.

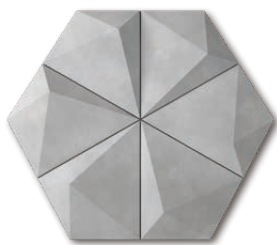

Crear una colección es dotar de carácter único a los diseños, es dar a cada pieza un número infinito de expresiones, de percepciones táctiles y visuales, que transmitan, que sean capaces de generar momentos memorables, en definitiva, que nos hagan vivir, porque al final se trata de esto, de vivir sintiendo, de disfrutar del carácter.

Finishes/Acabados

Cement

Cement is a warm and natural texture, full of nuances, naturally de-tuned. All the pieces are pigmented in their entire mass.

Cement es una textura cálida y natural, llena de matices, destonificada de forma natural. Todas las piezas están pigmentadas en toda su masa.

FullColor

Fullcolor transmits the strength of the colour on the surface, being able to combine an infinite number of chromatic palettes of the same colour.

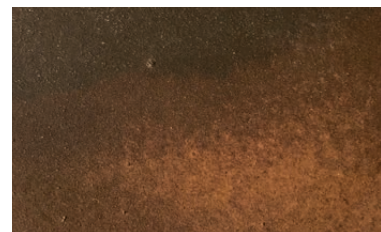

Fullcolor transmite la fuerza del color sobre la superficie, pudiendo combinar un infinito de paletas cromáticas del mismo color.

Metallic

The brightness and the reflection of the light illuminate the spaces decorated with metallic pieces, in materials such as gold, silver or titanium.

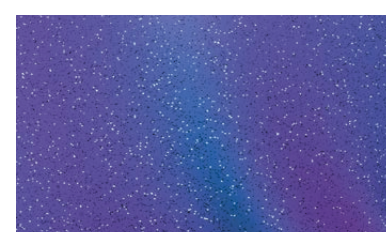

El brillo y el reflejo de la luz iluminan los espacios decorados con piezas metalizadas, en materiales como el oro, la plata o el titanio.

Oxide

Real oxide, worked slowly to achieve fascinating, contrasting, full of nuances, strong and intense tones.

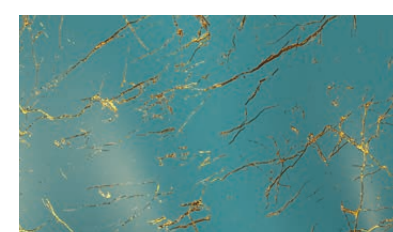

Oxido real, trabajado lentamente para conseguir tonos fascinantes, contrastados, llenos de matices, fuertes e intensos.

Chameleon

Combine two colours in the same piece, look and see an infinite number of metallic shades in movement. Funny and daring at the same time

Combinar dos colores en la misma pieza, mirar y ver un infinito de matices metálicos en movimiento. Divertido y atrevido a la vez

MarbleStone

Colours, shapes, veins all contrasted in the same piece. An exclusive touch, determined but dreamy, that marks the personality of the space.

Colores, formas, veteados todo contrastado en la misma pieza. Un toque exclusivo, decidido pero soñador, que marca la personalidad del espacio.

Leather Cement

The warmth of the Leather concept with more natural shades, gently contrasted full of nuances and shadows.

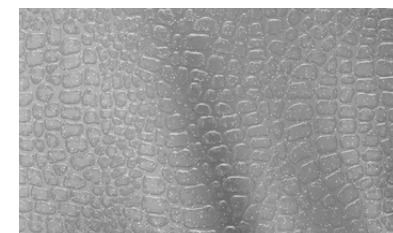

La calidez del concepto Leather con tonos más naturales, contrastados suavemente llenos de matices y de sombras.

Leather FullColor

Draw and feel with realistic details this concept Leather, which makes us dream with finishes impossible in other materials.

Dibujar y sentir con detalles realistas de este concepto Leather, que nos hace soñar con acabados imposibles en otros materiales.

Leather Metallic

A further leap towards exclusive finishes transporting the Leather concept to premium metallics.

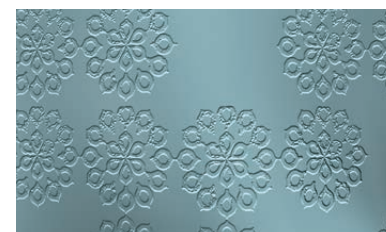

Un salto más hacia acabados exclusivos transportando el concepto Leather a los metalizados premium.

Decor Decape

Slowly wear down the upper skin in an irregular way to achieve a vintage look.

Desgastar lentamente la piel superior de forma irregular para conseguir una estética vintage.

Decor Engraved

Carve shades and drawings on the pieces to then cover each relief of the piece with colour and give it its own character.

Tallar sobre las piezas matices y dibujos para luego cubrir con color cada relieve de la pieza y dotarlas de carácter propio.

MAGNA

Technical Department

TECHNICAL OFFICE / OFICINA TECNICA
BESPOKE / HECHO A MEDIDA

Technical Office

In Okiun we accompany the professionals to take forward your projects and for that we share our experience and we offer our clients two services.

Technical advice to professionals, to solve the doubts that might arise regarding how, when and where you can apply each of the pieces of Okiun.

Aesthetic Advice: Okiun offers through its technical team a direct service of renderings so that the professional can more realistically anticipate how you can have your project with the chosen element.

Oficina Técnica

En Okiun acompañamos a los profesionales a llevar adelante sus proyectos y para eso compartimos nuestra experiencia y ofrecemos a nuestros clientes dos servicios.

Asesoramiento Técnico a los profesionales, para resolver las dudas que pudieran surgir respecto a cómo, cuándo y dónde se pueden aplicar cada una de las piezas de Okiun.

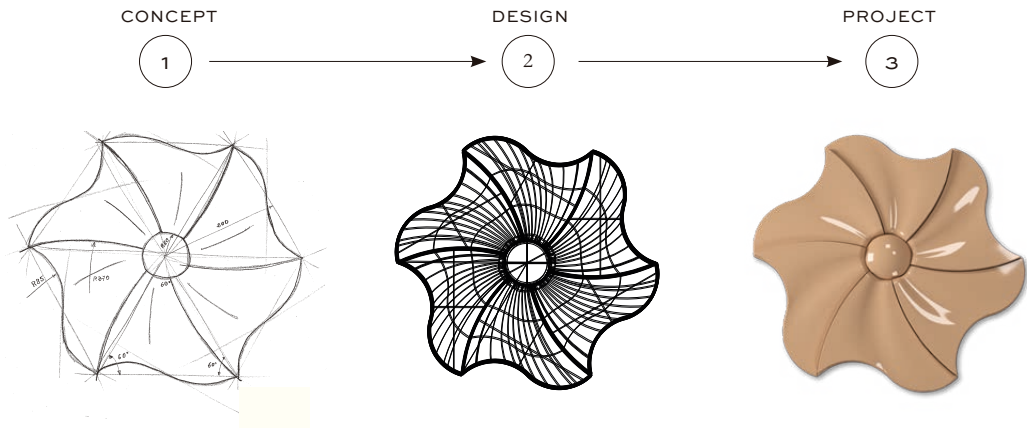

Asesoramiento Estético Okiun ofrece por medio de su equipo técnico un servicio directo de renders para que el profesional pueda anticiparse de forma más real a cómo puede quedar su proyecto con el elemento elegido.

Bespoke

OkiunLab is the specialized Okiun design studio in exclusive project developments that puts professionals available all their experience and facilities to carry on with the maximum detail developments of singular pieces, which convey sensations hitherto unknown. The technical department of Okiun is made available of creatives from anywhere in the world to transform and evolve the original idea into a product real. We bring order and technical process to development of the pieces, to enjoy with the professionals of the wonderful path of creating unique pieces that generate unique spaces, transmitting personality from the creator to each project where the piece is placed singular.

Hecho a medida

OkiunLab es el estudio de diseño de Okiun especializado en desarrollos de proyectos exclusivos que pone a disposición de los profesionales toda su experiencia e instalaciones para llevar adelante con el máximo detalle desarrollos de piezas singulares, que transmitan sensaciones hasta ese momento no conocidas. El departamento técnico de Okiun se pone a disposición de los creativos de cualquier parte del mundo para transformar y evolucionar la idea original en un producto real. Aportamos el orden y el proceso técnico al desarrollo de las piezas, para disfrutar con los profesionales del maravilloso camino de la creación de piezas únicas que generan espacios únicos, transmitiendo la personalidad del creador a cada proyecto donde se coloque la pieza singular.

Special Elements

General Instructions / Instrucciones Generales

1. The application of the Okiun parts is simple, if the correct steps are followed. It requires professionals with experience in fixing projects with other materials, such as ceramics or natural stone.

La aplicación de las piezas Okiun es sencilla si se siguen los pasos correctos. Requiere de profesionales con experiencia en proyectos de fijación con otros materiales como cerámica o piedra natural.

2. By calculating the total weight of the parts to be installed, check that the wall´s load capacity where the Okiun parts are going to be placed is correct. In the technical sheets of each piece you will be able to check the weights per m².

Comprobar que la capacidad de carga de la pared donde vamos a colocar las piezas Okiun es la correcta, calculando el peso total de las piezas a instalar. En las fichas técnicas de cada pieza se puede consultar los pesos por m².

3. The placement must be done at room temperatures of 8 - 32 °C / 48-88 °F.

La colocación debe realizarse con una temperatura ambiente entre 8 – 32 °C / 48-88 °F.

4. Before starting the installation, it is essential that the support is open to the air and completely dry for a minimum period of 6 weeks, whether of interior walls, or walls of brick or concrete.

Es muy importante que antes de empezar la colocación el soporte este perfectamente seco al aire un mínimo de 6 semanas para paredes o muros de ladrillo u hormigón.

Preparation/ Preparación

1. The wall or panel on which the Installation is to be made must be smooth, without any irregularities, and must be rigid without any flexing.

La pared o el panel sobre el que se va a realizar la instalación debe estar liso sin ninguna zona irregular y debe ser rígido sin apenas flexión.

2. Painting the support wall with the same colour as the Okiun pieces is recommended.

Se recomienda pintar la pared de soporte con el mismo color que las piezas Okiun.

3. In the event that an installation wall is able to absorb moisture, the application of a water-proofing layer with a dry mortar is recommended.

En el caso que la pared de instalación pueda absorber humedad se recomienda aplicar una capa de impermeabilización con un mortero dry.

4. The supports made with drywall panels of plaster are able to support large loads, but the paper layer may be detached, so the installation must start from the ground upwards, row by row, in order that the load is progressively transferred from the ground.

Los soportes realizados con paneles de yeso soportan grandes cargas, pero la capa de papel puede desprenderse por lo que se debe empezar la instalación desde el suelo, fila por fila para que la carga se transfiera desde el suelo.

Fixings And Adhesives / Fijación Y Adhesivos

OPTION 1 / OPCIÓN 1

Adhesive based on hybrid polymer smx (inside)

Adhesivo basado en polímero híbrido smx (interior)

The option of gluing with polymer putty is cleaner and faster. Adhesive should only be applied on the back of the piece to be installed, carefully leaving a width of 1-2 cm around the edges of the piece without adhesive, in order that when the piece is placed and pressed against the wall no adhesive overflows at the joins.

Should adhesive ooze from the joins, clean the excess adhesive from joins immediately, but never with abrasive or strong sponges. For cleaning always use cotton rags or other soft fabrics with clean water.

La opción de pegado con masilla de polímero es más limpia y más rápida. Se debe aplicar sólo adhesivo sobre la parte trasera de la pieza que se va instalar, dejando un ancho de 1-2 cm sin adhesivo alrededor del borde de la pieza para que cuando se coloque la pieza y se apriete contra la pared no rebose el adhesivo por las juntas.

Limpiar inmediatamente el adhesivo sobrante de las juntas, nunca con esponjas abrasivas o fuertes. Para la limpieza siempre use trapos de algodón u otras telas suaves con agua normal.

OPTION 2 / OPCIÓN 2

Adhesive based on cement mortar ce-c2e (inside-outside)

Adhesivo basado en mortero cementoso ce-c2e (interior-exterior)

Make the mixture according to the instructions recommended by the mortar manufacturer. Apply the mixture with a spatula on only the back of the piece to be installed, leaving a width of 1-2 cm around the edges of the piece without adhesive, in order that when the piece is placed and pressed against the wall no adhesive overflows at the joins. Should adhesive ooze from the joins, clean the excess adhesive from joins immediately, but never with abrasive or strong sponges. For cleaning always use cotton rags or other soft fabrics with clean water.

Realizar la mezcla según las instrucciones recomendadas por el fabricante del mortero. Aplicar la mezcla con una espátula sólo sobre la parte trasera de la pieza que se va a instalar dejando un ancho de 1-2 cm sin adhesivo alrededor del borde de la pieza para que cuando se coloque la pieza y se apriete contra la pared no rebose el adhesivo por las juntas. Limpiar inmediatamente el adhesivo sobrante de las juntas, nunca con esponjas abrasivas o fuertes. Para la limpieza siempre use algodón u otras telas suaves con agua normal.

Cutting /Cortado

Okiun pieces can be easily cut; however, the profile of the cut will be aesthetically different.

Las piezas de Okiun se pueden cortar fácilmente. El perfil del corte será estéticamente diferente.

Option 1 / Opcion 1

Angular grinder, with 1-2mm diamond disc at low speed, 4,000 RPM.

Amoladora angular, con disco de diamante de 1-2 mm a baja velocidad, 4.000 RPM.

Option 2 / Opcion 2

Ceramic water cutter.

Cortadora cerámica de agua.

Care & Maitenance / Cuidado Y Mantenimiento

1. Las piezas Okiun no requieren ningún mantenimiento especial. Para su limpieza simplemente utilice un paño de algodón con agua o un plumero para el polvo.

Okiun parts do not require any special maintenance. For cleaning, simply use a cotton cloth with water, or a duster.

2. Avoid contact with cleaning products that are acidic or corrosive.

Hay que evitar el contacto con productos de limpieza que sean ácidos o corrosivos.

3. Avoid hitting the pieces with hard or sharp elements.

Evitar golpear las piezas con elementos duros o afilados.
