LUX

The geometry of shadows • La geometría de las sombras

16.14 in x 13.8 in x 1.2 in • 41 cm x 35 cm x 3 cm

Lux's versatility is one of its great secrets, capable of providing infinite geometrical patterns, be they in minimalist environments, or Baroque ones

Its geometry invites you to play with the various combinations to find the different and unique aesthetics possible within the same project.

La versatilidad de Lux es uno de sus grandes secretos, es capaz de crear infinitas geometrías tanto en ambientes minimalistas como en ambientes más barrocos.

La geometría de la pieza invita a jugar con ella y conseguir estéticas únicas y diferentes que se pueden combinar en un mismo proyecto.

Finishes . Acabados

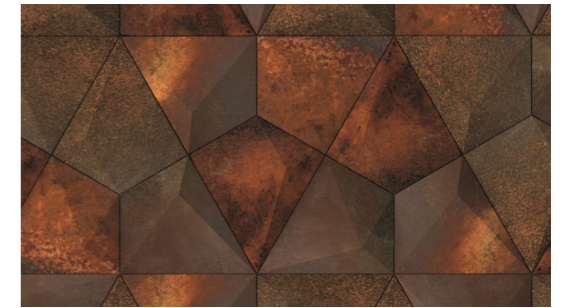

To create a collection is to give a unique character to the designs, is to give each piece an infinite number of expressions, of tactile and visual perceptions, that transmit, that are capable of generating memorable moments, in short, that make us live, because in the end it is about this, to live feeling, to enjoy the character.

Crear una colección es dotar de carácter único a los diseños, es dar a cada pieza un número infinito de expresiones, de percepciones táctiles y visuales, que transmitan, que sean capaces de generar momentos memorables, en definitiva, que nos hagan vivir, porque al final se trata de esto, de vivir sintiendo, de disfrutar del carácter.
