# Finishes . Acabados

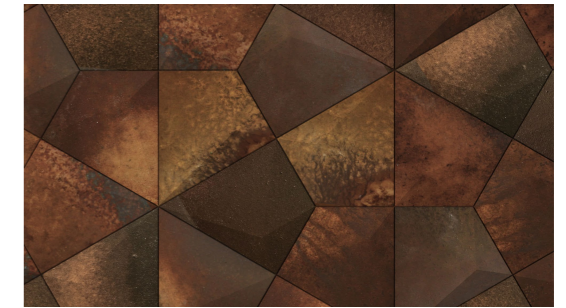

To create a collection is to give a unique character to the designs, is to give each piece an infinite number of expressions, of tactile and visual perceptions, that transmit, that are capable of generating memorable moments, in short, that make us live, because in the end it is about this, to live feeling, to enjoy the character.

Crear una colección es dotar de carácter único a los diseños, es dar a cada pieza un número infinito de expresiones, de percepciones táctiles y visuales, que transmitan, que sean capaces de generar momentos memorables, en definitiva, que nos hagan vivir, porque al final se trata de esto, de vivir sintiendo, de disfrutar del carácter.
