Important Information

Photography

All images are for indicative purposes only. Due to differing lighting and printing inks the colours shown throughout this brochure may differ slightly from actual tiles. It is recommended that a sample tile from the current batch be ordered for a more accurate colour representation.

Shade Variation

Shade variation is an inherent feature of porcelain and ceramic tiles we therefore recommend that a satisfactory blend is achieved prior to fixing. It is also recommended that sufficient tiles are purchased at one time as there may be a shade variation between batches. No liability for shade issues will be accepted after fixing.

Dimensions

Nominal dimension are shown throughout this brochure, these are subject to minor variation within international standards.

Please refer to our Terms & Conditions of Sale for further information.
