# Artworks Recreating classic styles

Welcome to Artworks, the first tile collection created by Original Style back in 1986. Initially developed as a collection of tile sets for cast iron fireplaces, the range has now grown to incorporate beautiful glossy glazed wall tiles in different formats from field tiles to brick shapes, hand crafted decorated tiles and borders and recreated masterpieces inspired by art and architecture from many eras.

### PERFECTLY MATCHED

At 152mm (6") wide and with a thickness of 7mm/¼", most of the tiles are designed to be combined together. Find inspiration in the following pages and create your own stunning effects by teaming field tiles, mouldings and decorated tiles and borders together. Try interesting combinations of colours or keep it simple with just one colour.

### A REFLECTION OF QUALITY

Creating our own glazes ensures the translucence, intensity of colour and reflectivity seen on the field tiles. Our mouldings (which are made, hand finished and fired in our kilns) particularly show the depth and intensity of colour when the glazes pool in the detailing. Decorative tiles and borders are hand produced by skilled artisans in our Devon Factory.

### WORKS OF ART

We like to think each Artworks tile is a small work of art in its own right, to be admired for its depth of colour, shape, size or decoration. The inspiration and background behind some of the collection comes from as far back as ancient Greek or Roman architecture, to the decorative arts of the Victorians and Edwardians, and well-known artists from different eras.

# The story behind our tiles

Producing tiles and mouldings can be a messy business – after all, tiles are made from natural clay and their glazes are made from raw materials such as clays, flint, quartz, various minerals and water. Here are a few insights in to how they are made at our Exeter headquarters.

#### Down the line

Mouldings are made by pressing clay into moulds. They are then left to dry out before having their first firing. Liquid glaze is then applied to the pieces placed on a conveyor belt (the colour of the glaze 'slip' is very different to the final result for example this pink will become Burgundy when fired).

Burgundy after firing.

#### Earth and fire

Tiles and mouldings are loaded on to cranks to be fired in kilns that reach temperatures of over 1030-1080C. Such heat is required to drive out moisture content, melt and fix the glazes to the clay surface and produce the transparent and glossy end results.

“You begin with the possibilities of the material”

Robert Rauschenberg,  
painter and graphic artist

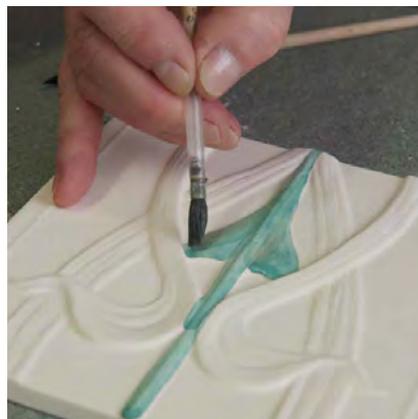

#### Achieving excellence

Tiles are checked several times during their journey through the production process to ensure a near perfect result.

#### Hand decorating

Designs with intricate details are screen printed in small batches.

#### Hand painting

It needs a great deal of skill and a steady hand to hand paint the fine details on our relief moulded, raised-line and tube lined single tiles (see pages 76-81 for more details)

#### A perfect finish

Smooth and glossy tiles finish their passage through the production process and are ready to be given a new home.

# Whites & Creams

These are the most popular of our Artworks colours, and it's easy to understand why. Just like any good paint chart, you'll find different shades of white and cream in our Collection

“White resonates, like a silence that  
can suddenly be understood”

Wassily Kandinsky

White tiles will provide a crisp, clean look in bathrooms and kitchens. An all-white bathroom won't look either clinical or cold with harmonising accessories or hints of other colours for contrast.

Choose creams and off whites for a warmer mood. Whites and creams look good on their own and white in particular is the perfect companion for most other colours too.

**There are several whites and creams to choose from:**

**Brilliant White** – bright and clean and works well with all the other colours, especially the greys and Jet Black for a classic pairing.

IM-0005530 Brilliant White Field Tiles and IM-0020174 Half Tiles with Platinum IM-0023012 Sigma and IM-0002012 Omega Mouldings

IM-0005330 County White Field Tile with IM-0018763 Astragal, IM-0000180 Albert and IM-0003895 Windflower

**Vintage White** – has warmer tones than Brilliant White.

**County White** – a traditional soft and creamy white.

IM-0021571 Vintage White Half Tiles with IM-0012104 Scroll & IM-0001680 Omega Mouldings

IM-0014477 Palladian Beige Field Tiles

Glossy tiles in cream are good for rooms that face north as they help to reflect the light

**Ivory** – an elegant cool cream with the slightest tint of grey. It partners well with greys, blues and greens as well as **Palladian Beige**.

**County White** – a traditional soft and creamy white which teams well with **Victorian Green** and **Burgundy**.

**Palladian Beige** – Perhaps more of a neutral shade than a cream, **Palladian Beige** is a warm pale caramel which goes very well alongside **County White** and **Ivory**.

IM-0004756 County White Brick, IM-0022065 Victorian Green Brick, bespoke printing for 'Refresh' (see page 107).

PERRIN & ROWE  
MADE IN ENGLAND

# Adding Colour

Introducing a colour or two into your scheme is like adding seasoning to a recipe – you can be as subtle or as bold as you like

There are so many gorgeous colour options in Artworks you might find it hard to choose just one. Some colours are just meant for each other and if you experiment you might find some interesting combinations that work for your particular room. Introduce some contrast or marry two shades of the same colour together for a harmonious blend.

**NEW** **Ochre** – With its warm, golden tones, **Ochre** is a brilliant choice for those looking to add character and depth to a space. **Ochre** features mustard yellow hues, inspired by natural earth toned pigments.

Ochre IM-0030115 Field Tiles, IM-0030116 Half Tile, IM-0030120 Dentil, IM-0030118 Astragal and IM-0030128 Skirting Moulding with IM-0019941 Basketweave Black Floor Mosaics

# Brilliant blues

Is it true that blue is the most popular colour?  
If it's yours, there are four to choose from in the range

IM-0021189 Royal blue Metro Tiles, with IM-0021624 Victoria, IM-0020837 Sigma and IM-0002962 Omega Mouldings

#### Windsor Blue

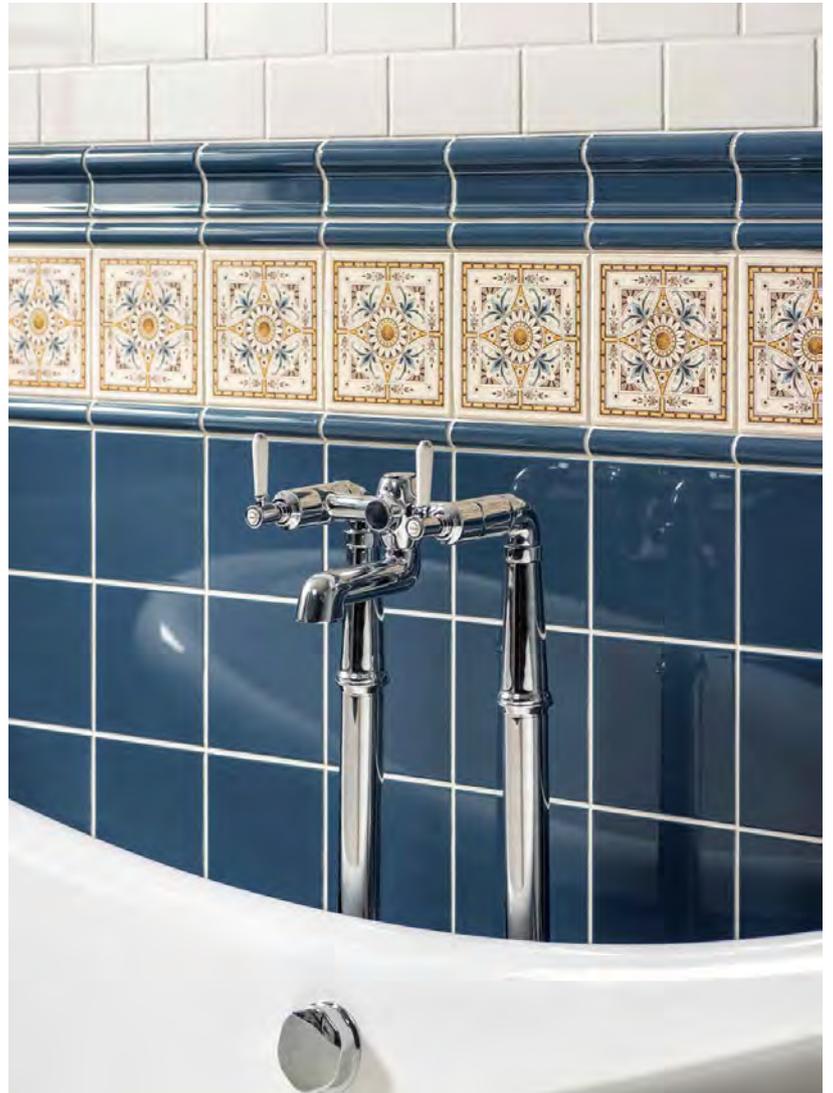

This is a true patriotic blue that's perfect for bathrooms whatever style you want to achieve, from classic and traditional to a less formal coastal look.

#### Royal Blue

A deep indigo that looks beautiful next to **Brilliant White** and **Vintage White**. It will also compliment many of the decorative tiles, especially the designs which include blue, green and grey – try it next to the **Peacock Border** or **Shell Frieze** (see pages 84 and 85).

IM-0008416 Baroque Blue Half Tiles with IM-0002932 Omega and IM-0022882 Egg & Dart Mouldings

IM-0030079 Ascot Blue Field Tiles, IM-0030094 Sigma and IM-0030096 Victoria Mouldings with IM-0021571 Vintage White Half Tiles and IM-0011183 Symmetrical Classical Pattern Single Tiles

**NEW** **Ascot Blue** offers a vivid yet contemporary shade of blue, whilst still maintaining the rich feel all of our Artworks tiles embody. With grey undertones, **Ascot Blue** offers a cooler tone, perfect for those looking to create a traditional scheme with a modern twist.

**Baroque Blue** has a slight hint of green for a rich blue that looks good against dark opulent colours and textures, as well as **County White** and **Ivory**. It also combines well with **Westminster Grey** and the other Artworks greys.

◀ Windsor Blue IM-0005268 Half Tiles, IM-0014527 Sigma, IM-0011105 Rope, IM-0003379 Albert, and IM-0000638 Skirting Mouldings with IM-0027234 Marmi Nero Honed Floor Tiles

“A colour is as strong as the impression it creates.”

Ivan Albright, artist, 1897-1983

#### Palm Green

A pale leafy spring-time green that looks really fresh with **Brilliant White**.

#### Pavilion Green

Recalling the intense green of well kept cricket pitches and bowling greens, Pavillion is a rich grassy green with lots of character. Like all the greens you can successfully combine it with the whites, creams, other greens and blues.

IM-0005447 Palm Green Half Tile, IM-0003557 Palm Green Astragal, IM-0007624 Pavilion Green Field Tile

# Prime Green

IM-0009564 Jade Breeze Field Tile, with IM-0012458 Omega and IM-0008839 Sigma Mouldings with IM-0022478 Acanthus and IM-0005530 Brilliant White Field Tiles

**Jade Breeze**

This soft green tint looks good alongside the other greens as well as Whites and Creams. Jade and minty greens were much loved in the Art Deco era, and set off black, silver and gold beautifully. A great combination would be **Jade Breeze** and **Brilliant White!**

Left to Right: IM-0015535 Victorian Green Half Tile, IM-0008839 Jade Breeze Sigma

Victorian Green IM-0008299 Field Tiles, Jet black IM-0007741 Albert and IM-0019961 Skirting Moulding, IM-0026233 Wildflower Gold with Scarborough Pattern in Regency Bath from the Victorian Floor Tile collection

# Victorian Green

## Uncompromising beauty

Intense and rich, **Victorian Green** is a stunning legacy from the Victorians. It is very similar to the Permanent Green from an artist's paint palette. Our mouldings and trims in this colour in particular show how the translucent glaze pools creating areas of dense colour with rich, lustrous reflection.

### THE BEAUTY BEHIND VICTORIAN GREEN

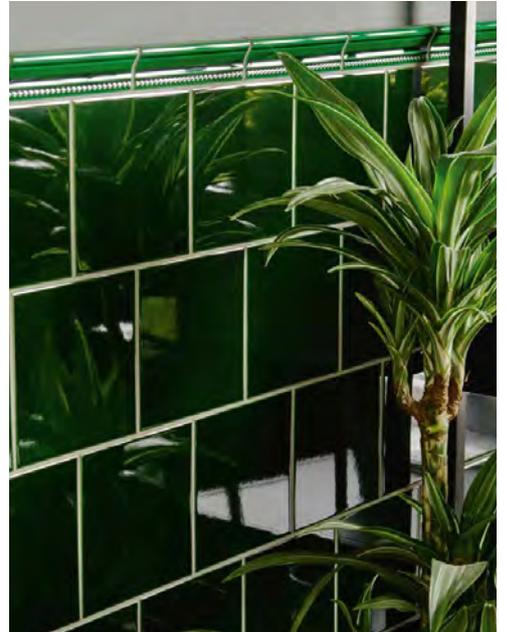

Our Victorian Green glaze is created using an authentic soft, delicate recipe that contain pigments of copper oxides.

Copper is an active metal that reacts with oxygen making it sensitive to oxidation. Copper oxides are used to produce a wide range of colours in glazes. The traditional and desired 'Victorian Green' shade is difficult to achieve and finding the perfect balance of ingredients can be complicated and challenging. This is why there are so few manufacturers still using these heritage recipes and ingredients loyal to the original. We pride ourselves on using these authentic elements in our glaze recipes with an emphasis on continuing to create gorgeous glazed tiles with a wonderfully genuine appeal.

#### Caring for heritage tiles

Like all beautiful things, Victorian Green Artworks tiles need to be treated with care, and, if they are looked after correctly their beauty will reward you for years to come. The Victorian Green Glaze is perfectly translucent thanks to its copper properties; over time the copper can react to acidity creating its rustic charm, adding a soft patina and lustre to the surface of the glaze. This in no way compromises the integrity of these tiles. Highly glazed ceramic tiles and copper-based glazes in particular may craze with time, this is perfectly normal and true to the characteristics of these tiles and is an inherent part of our hand finished tiles.

NB. Victorian Green should not be used in wet areas, see Edwardian Green (opposite) for a wet area suitable alternative.

IM-0001518 Victorian Green Hogarth, IM-0008299 Victorian Green Field Tile, IM-0006148 Victorian Green Skirting. Floor Tiles are IM-0021664 Viano White Polished Marble and IM-0014987 Nero Black Polished Marble from our Earthworks Natural Stone Collection

# Edwardian Green

Versatile elegance

Developed specifically for use in wet areas, such as showers, bathrooms and behind sinks, **Edwardian Green** offers a dark green glaze, perfect for adding drama and style. **Edwardian Green** tiles offer a slightly more muted glaze, they are still glossy and gorgeous but don't use the same lustrous, copper glaze as our iconic **Victorian Green** tiles (opposite), which at first glance look very similar.

IM-0010357 Vintage White Hogarth, IM-0021571 Vintage White Half Tile, IM-0026191 Edwardian Green Albert, IM-0025926 Edwardian Green Half Tile, IM-0026194 Edwardian Green Skirting. Floor Tiles are IM-0013872 Porcelain Black & White Hexagon Mosaics (see page 105).

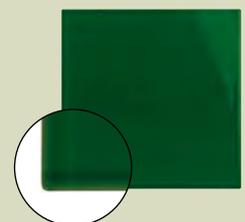

## PICKING YOUR GREENS

Edwardian Green tiles were created as an option for those looking to install a heritage green tile in a bathroom setting or behind a sink, with a more hardwearing glaze. While Victorian Green and Edwardian Green tiles may look alike, there are differences in their appearance and functionality, with Edwardian Green providing a more subdued green tone (note the flatter colour in the examples here) and the benefit of being suitable for areas where Victorian Green is not.

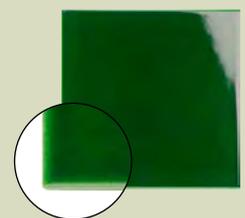

If you're not sure which tile is right for you, take your time to consider both options. Taking samples home and seeing them together, in different lights throughout the day, is a great way to help make the decision.

Tiles can look completely different day to night, in different settings and surroundings, so we always recommend taking your time throughout the tile selecting process.

Edwardian Green Glaze

Victorian Green Glaze

Teapot Brown IM-0030131 Half Tiles with IM-0030143 Sigma and IM-0030136 Egg & Dart Mouldings

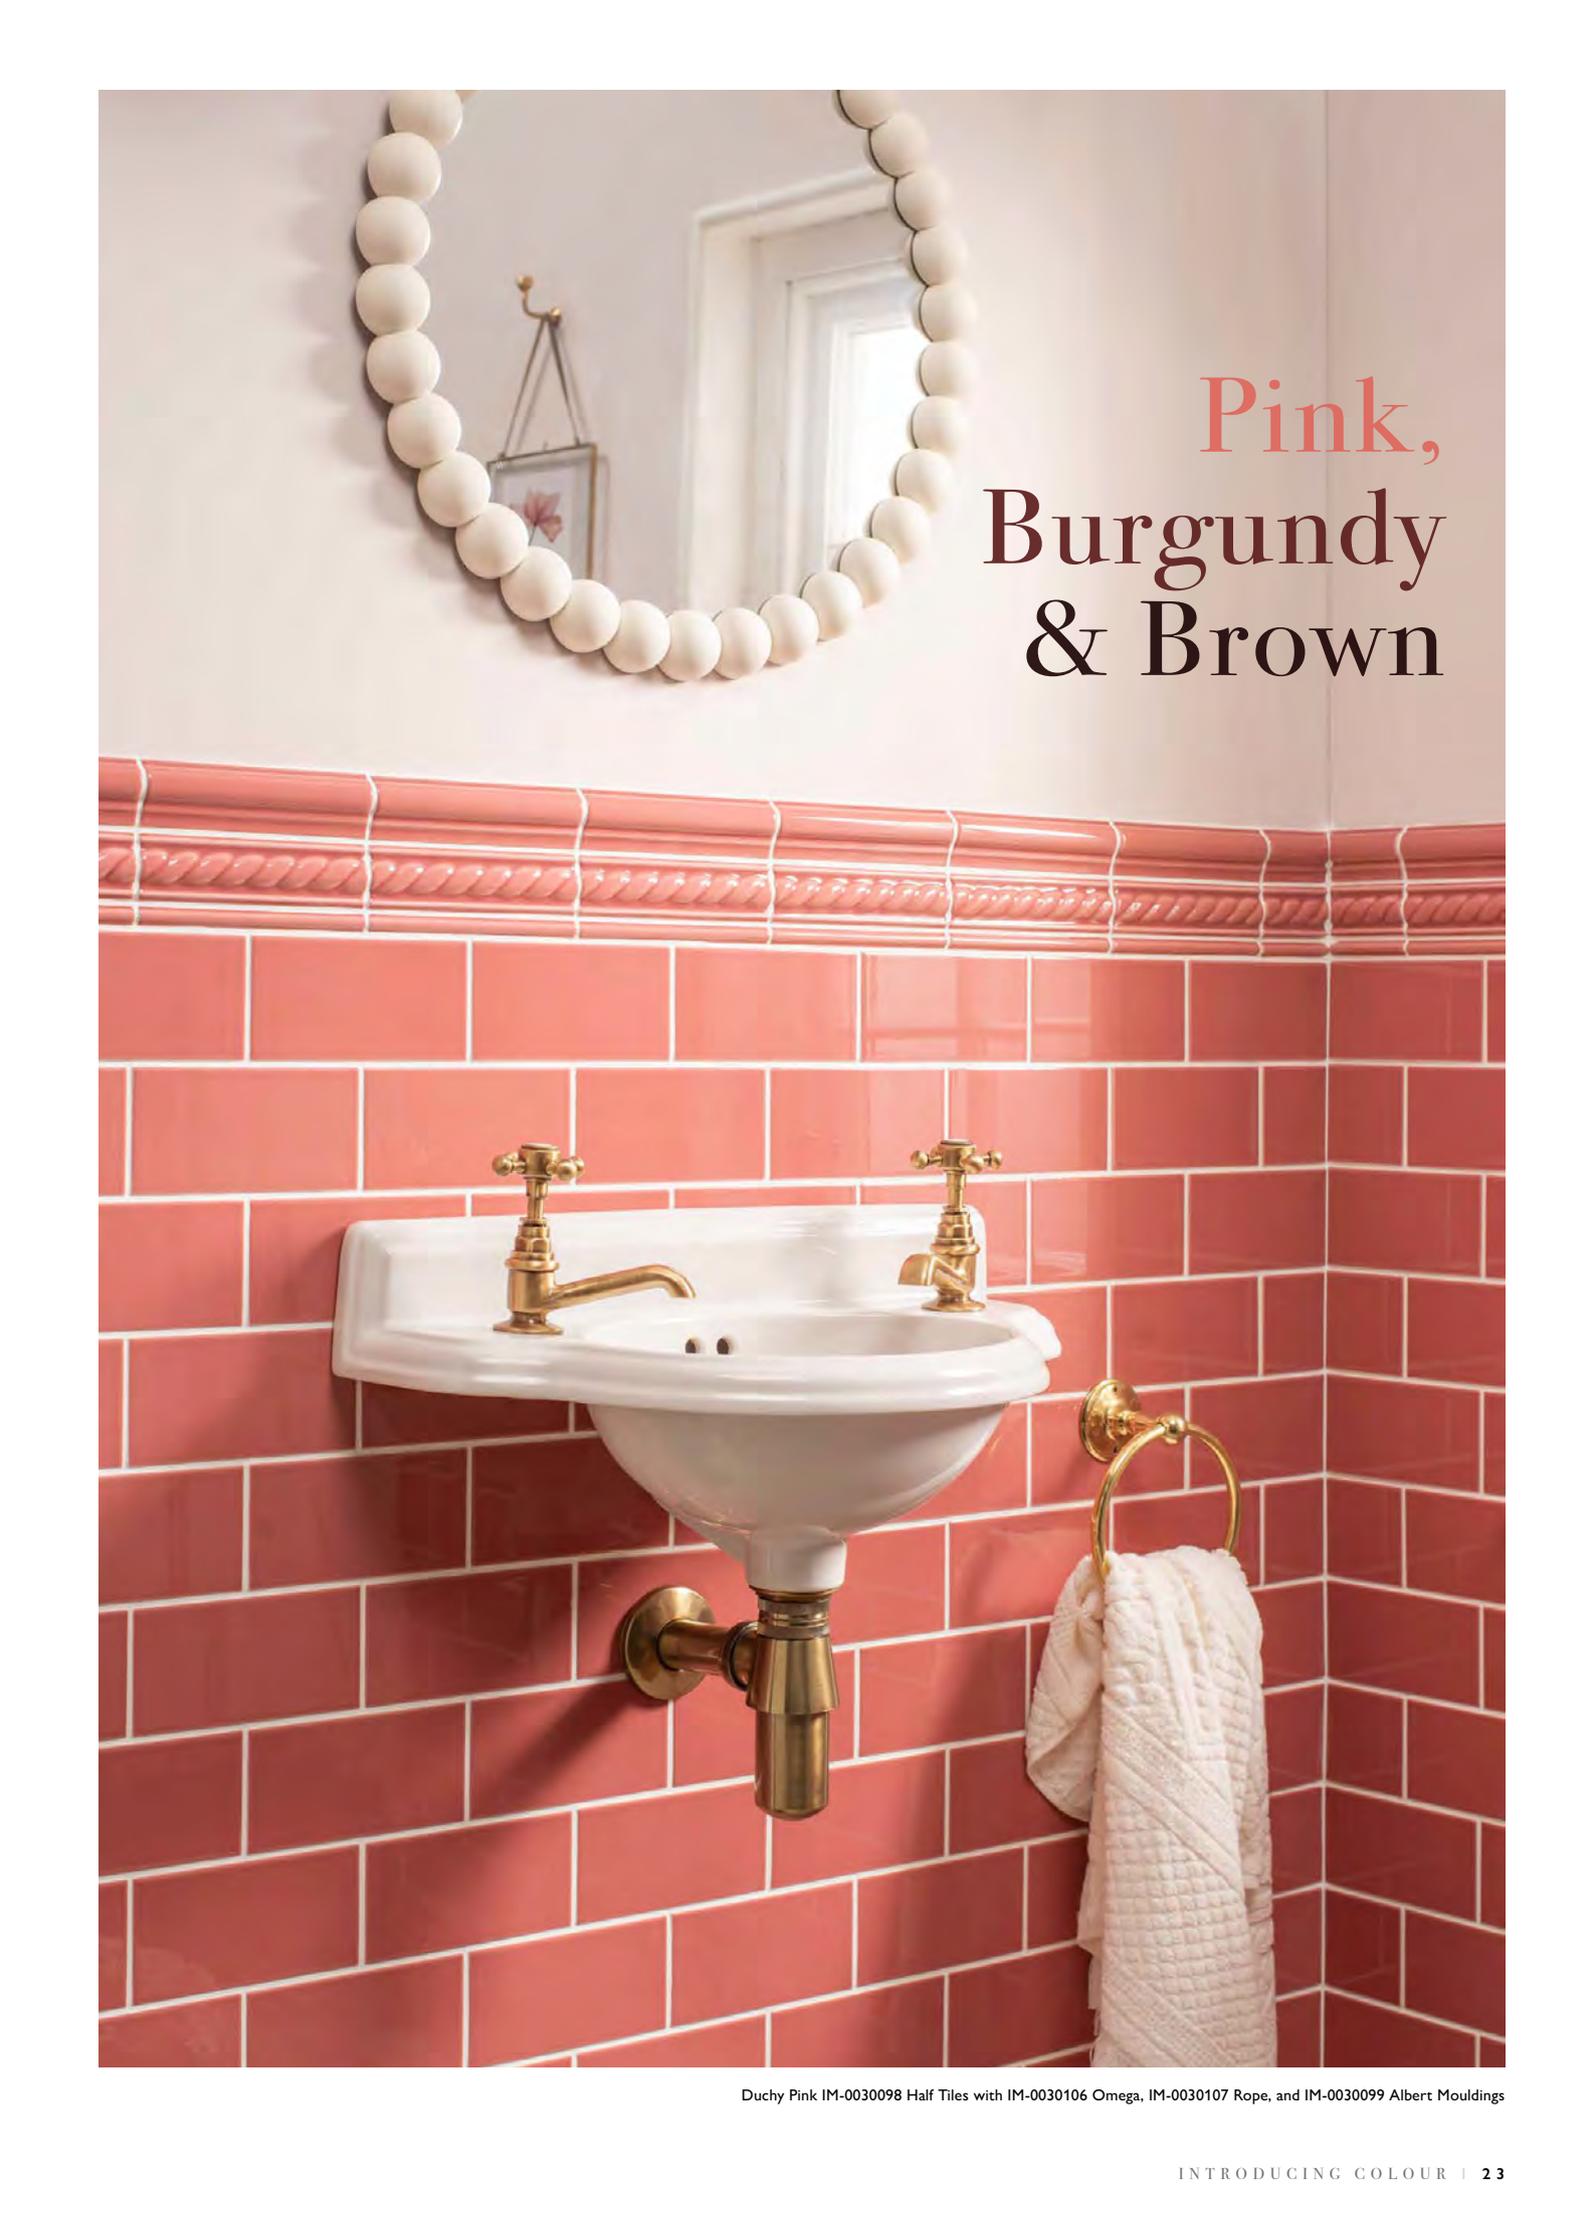

**NEW** **Duchy Pink** - Featuring rich pink tones **Duchy Pink** has a warm, vintage rose appeal, perfect for those looking to create a traditional scheme with a gentle pop of colour.

**Burgundy** also looks great with many of our decorative borders and tile sets to complement some of the colours used in the designs.

**NEW** **Teapot Brown** - The revival of rich, heritage tones inspired us to create the **Teapot brown** glaze. Traditional in feel this colour is a great choice for those looking to restore period properties to their former glory.

IM-0005330 County White Field Tile, IM-0018378 Burgundy Half Tiles, IM-0016342 Astragal, IM-0020195 Scroll and IM-0023299 Skirting Mouldings. Floor is Oxford 106mm pattern and Kingsley border in Dover White and Black from our Victorian Floor Tile Collection

# Pink, Burgundy & Brown

Duchy Pink IM-0030098 Half Tiles with IM-0030106 Omega, IM-0030107 Rope, and IM-0030099 Albert Mouldings

# Grey to black

Grey has become a popular colour in interiors, probably because it has a calming and relaxing influence

IM-0004649 Chancel Grey Large Brick

IM-0020675 Westminster Grey Large Brick with IM-0026276 South Beach Ocean from Living

#### London Stone

A versatile grey which can look both classic and contemporary. This depends on the style of the room, and of course other colours, materials and textures used around it. Try these bricks in a herringbone format for a contemporary feel or add mouldings for a classic style.

#### Chancel Grey

A soft and very pale, almost white with a hint of grey. Use it instead of white and it will go well with most of the colours in the range, including the other greys and of course black.

#### Westminster Grey

Another pale grey for both modern and classic styles. Create a calm and harmonious bathroom with Westminster Grey and blue.

IM-0011264 Large Jet Black Bricks

“Have nothing in your house that you do not know to be useful, or believe to be beautiful.”

William Morris, artist, designer and writer 1834 - 1896

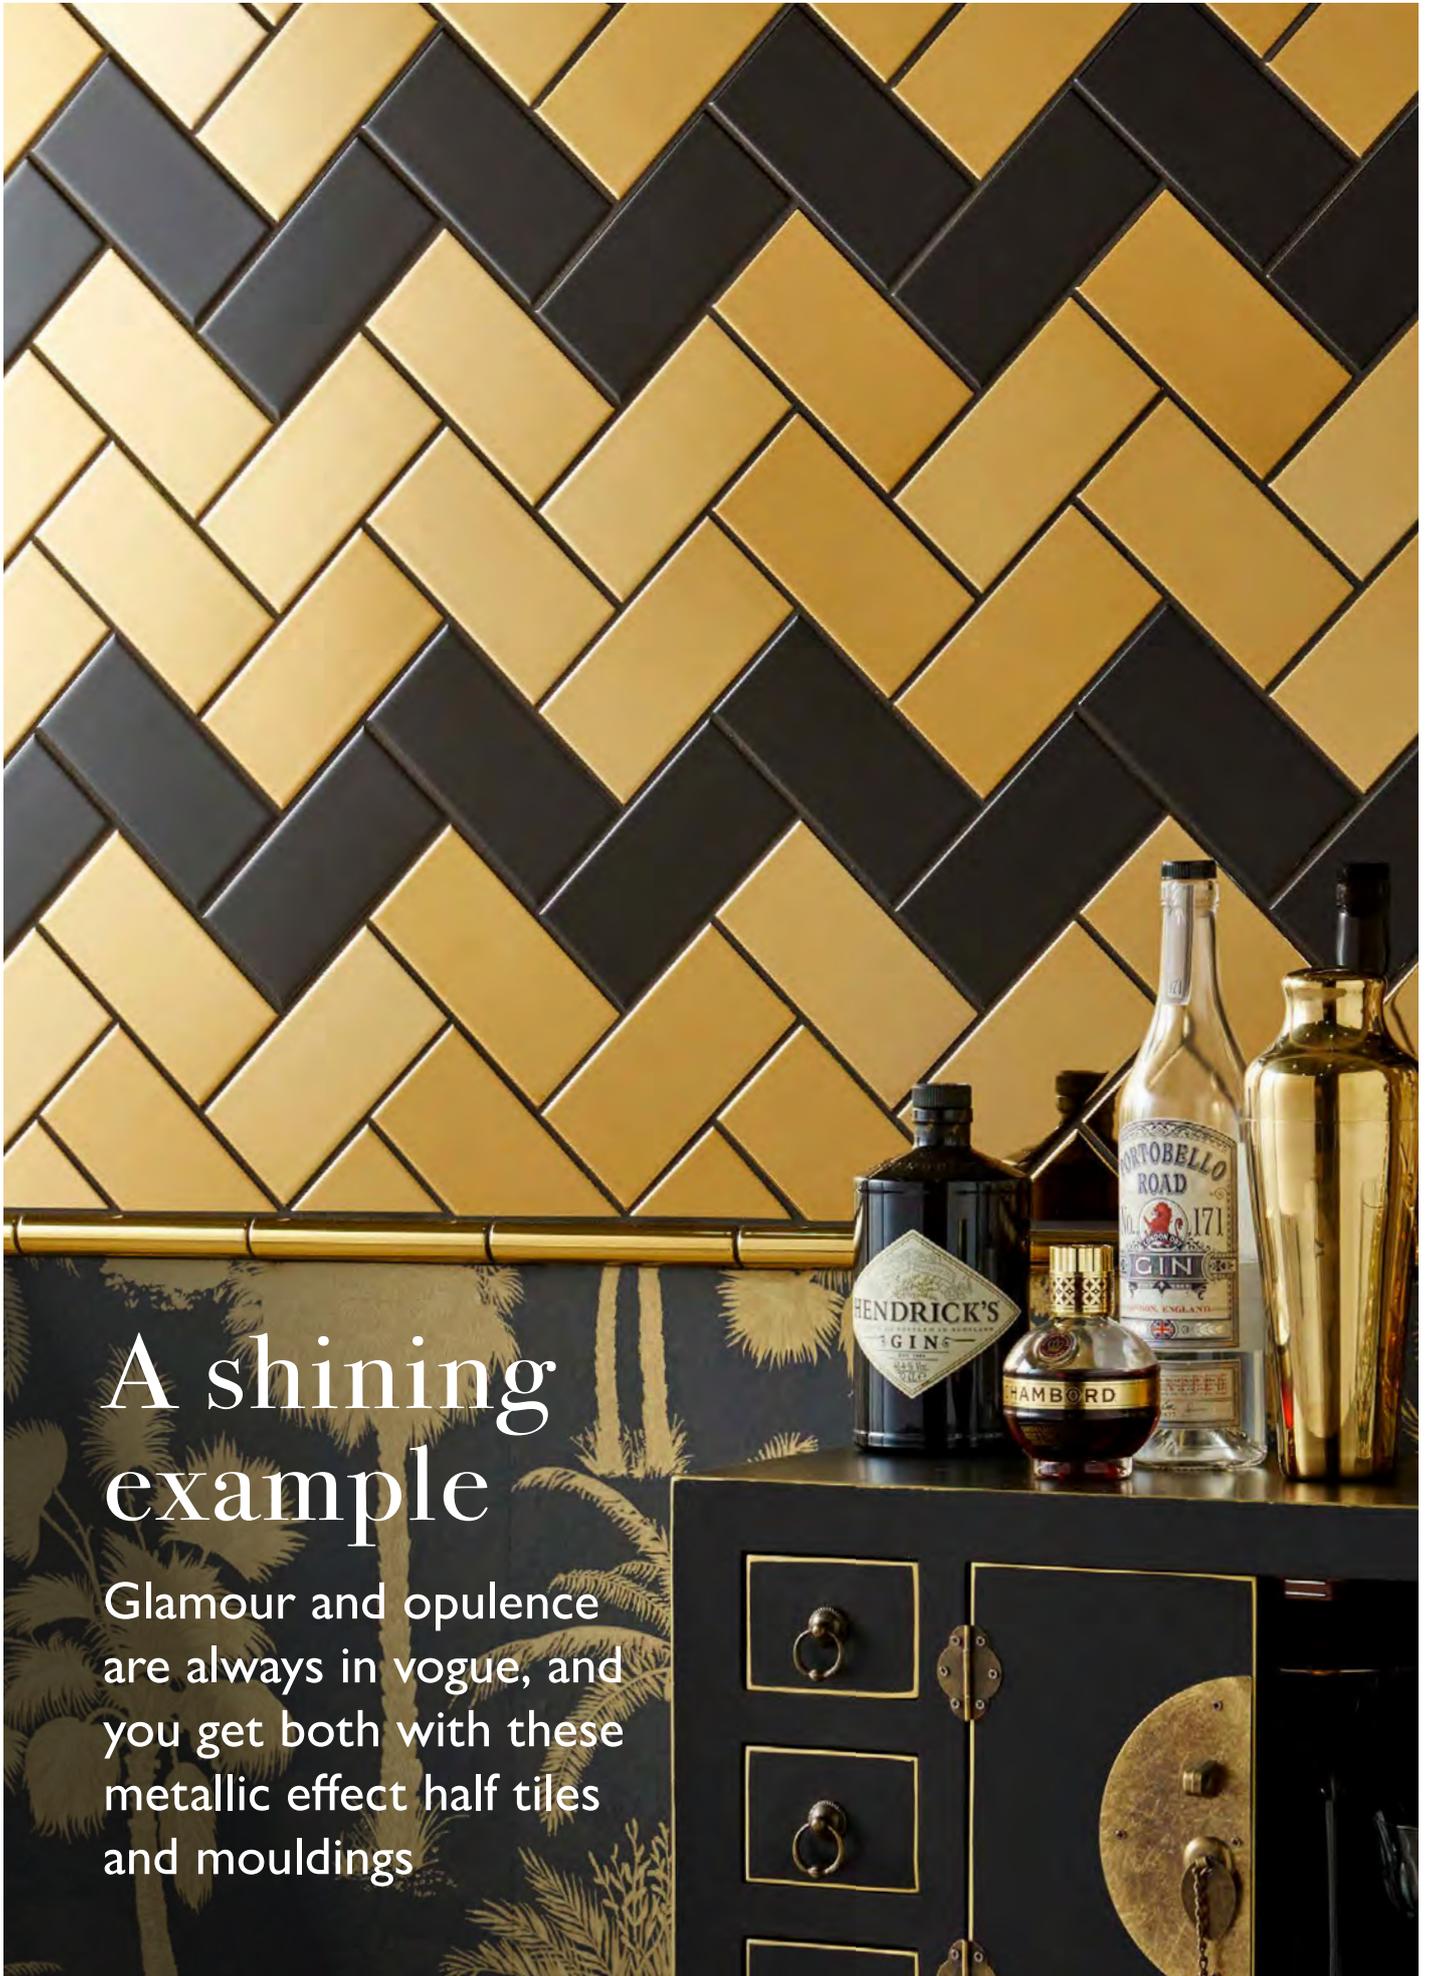

IM-0013963 Fabergé Pearl Trellis, IM-0000253 Fabergé Cartouche with Sovereign Crown, IM-0019195 Charcoal Grey Skirting. Flooring is IM-0011740 Empire on White from our Odyssey Collection and IM-0020525 Plymouth Border on White, IM-0006379 Black Rectangle and IM-0001507 White Rectangle from our Victorian Floor Tile Collection.

### Charcoal Grey

Dark and almost black in some lights, **Charcoal Grey** was originally created to co-ordinate with the Fabergé Collection (see pages 94 and 97), however you can combine it successfully with many of the other colours in the range and some of the other decorated tiles too. It's a good choice if you want something less dense than **Jet Black**.

### Jet Black

Solid and intensely black. The translucent glaze perfectly highlights the textures and edges of **Jet Black** tile and moulding pieces. The obvious pairing is with **Brilliant White**, however it looks dramatic and stunning with other dark colours such as **Victorian Green**, **Burgundy** and **Royal Blue**.

# A shining example

Glamour and opulence are always in vogue, and you get both with these metallic effect half tiles and mouldings

IM-0012553 Jet Black Half Tile, IM-0008424 Gold Half Tile, IM-0001573 Gold Sigma

IM-0023012 Platinum Sigma, IM-0002012 Platinum Omega,  
IM-0001573 Gold Sigma, IM-0015354 Gold Omega

IM-0008424 Gold Half Tile and IM-0020262 Skirting Moulding

IM-0002012 Platinum Omega Moulding, IM-0022257 Platinum Half Tile

It's hard to believe that these **Gold** and **Platinum** tiles and mouldings are ceramic, just like all the other tiles in this brochure. The secret is in the dazzlingly reflective glazing.

**Gold** is simply gorgeous on its own and also lends itself to mixing with other colours, such as **Jet Black** for added drama.

Highly reflective **Platinum** will provide an extra dimension wherever it's installed – in a kitchen it will bounce light around and make the room look much bigger.

“Fashions fade,  
style is eternal.”

Yves Saint Laurent

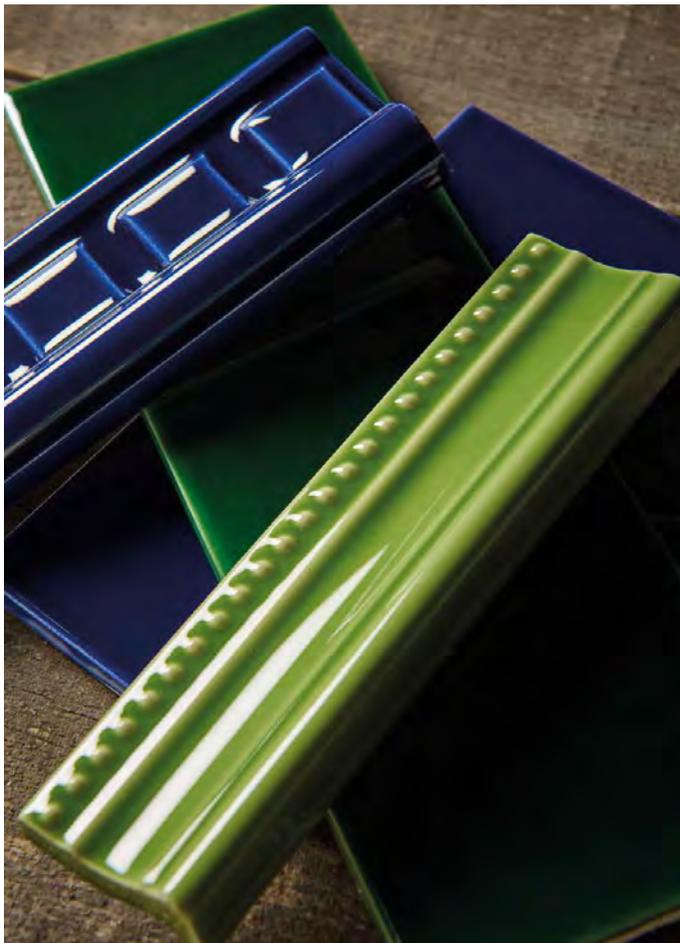

# Add interest with mouldings

These decorative pieces introduce texture and definition to your walls

Mouldings and trims are available in all of the colours to enhance your installation, by introducing a co-ordinating or contrasting colour, to define and separate different areas and as finishing pieces. There are many different ways to arrange them, from the simple to the outright extravagant. Here are a few ideas to inspire you.

## DID YOU KNOW?

Grand houses in the **Georgian era** (1714 -1837) would be generously adorned with decoration including ornate cornices and mouldings often made from plaster. Classically-inspired motifs included egg and dart, swags, ribbons and garlands. Walls were often wood-panelled up to dado height.

Although styles and fashions changed during the long **Victorian period** (1837-1901), adornments and decorations including mouldings were still used – generally the more the embellishment the higher the status of the householder!

IM-0013836 Jet Black Omega, IM-0020128 Jet Black Rectangle, IM-0012553 Jet Black Half Tile

IM-0011417 County White Victoria, IM-0001630 County White Half Tile, IM-0019312 County White Skirting

#### Dado or chair rail

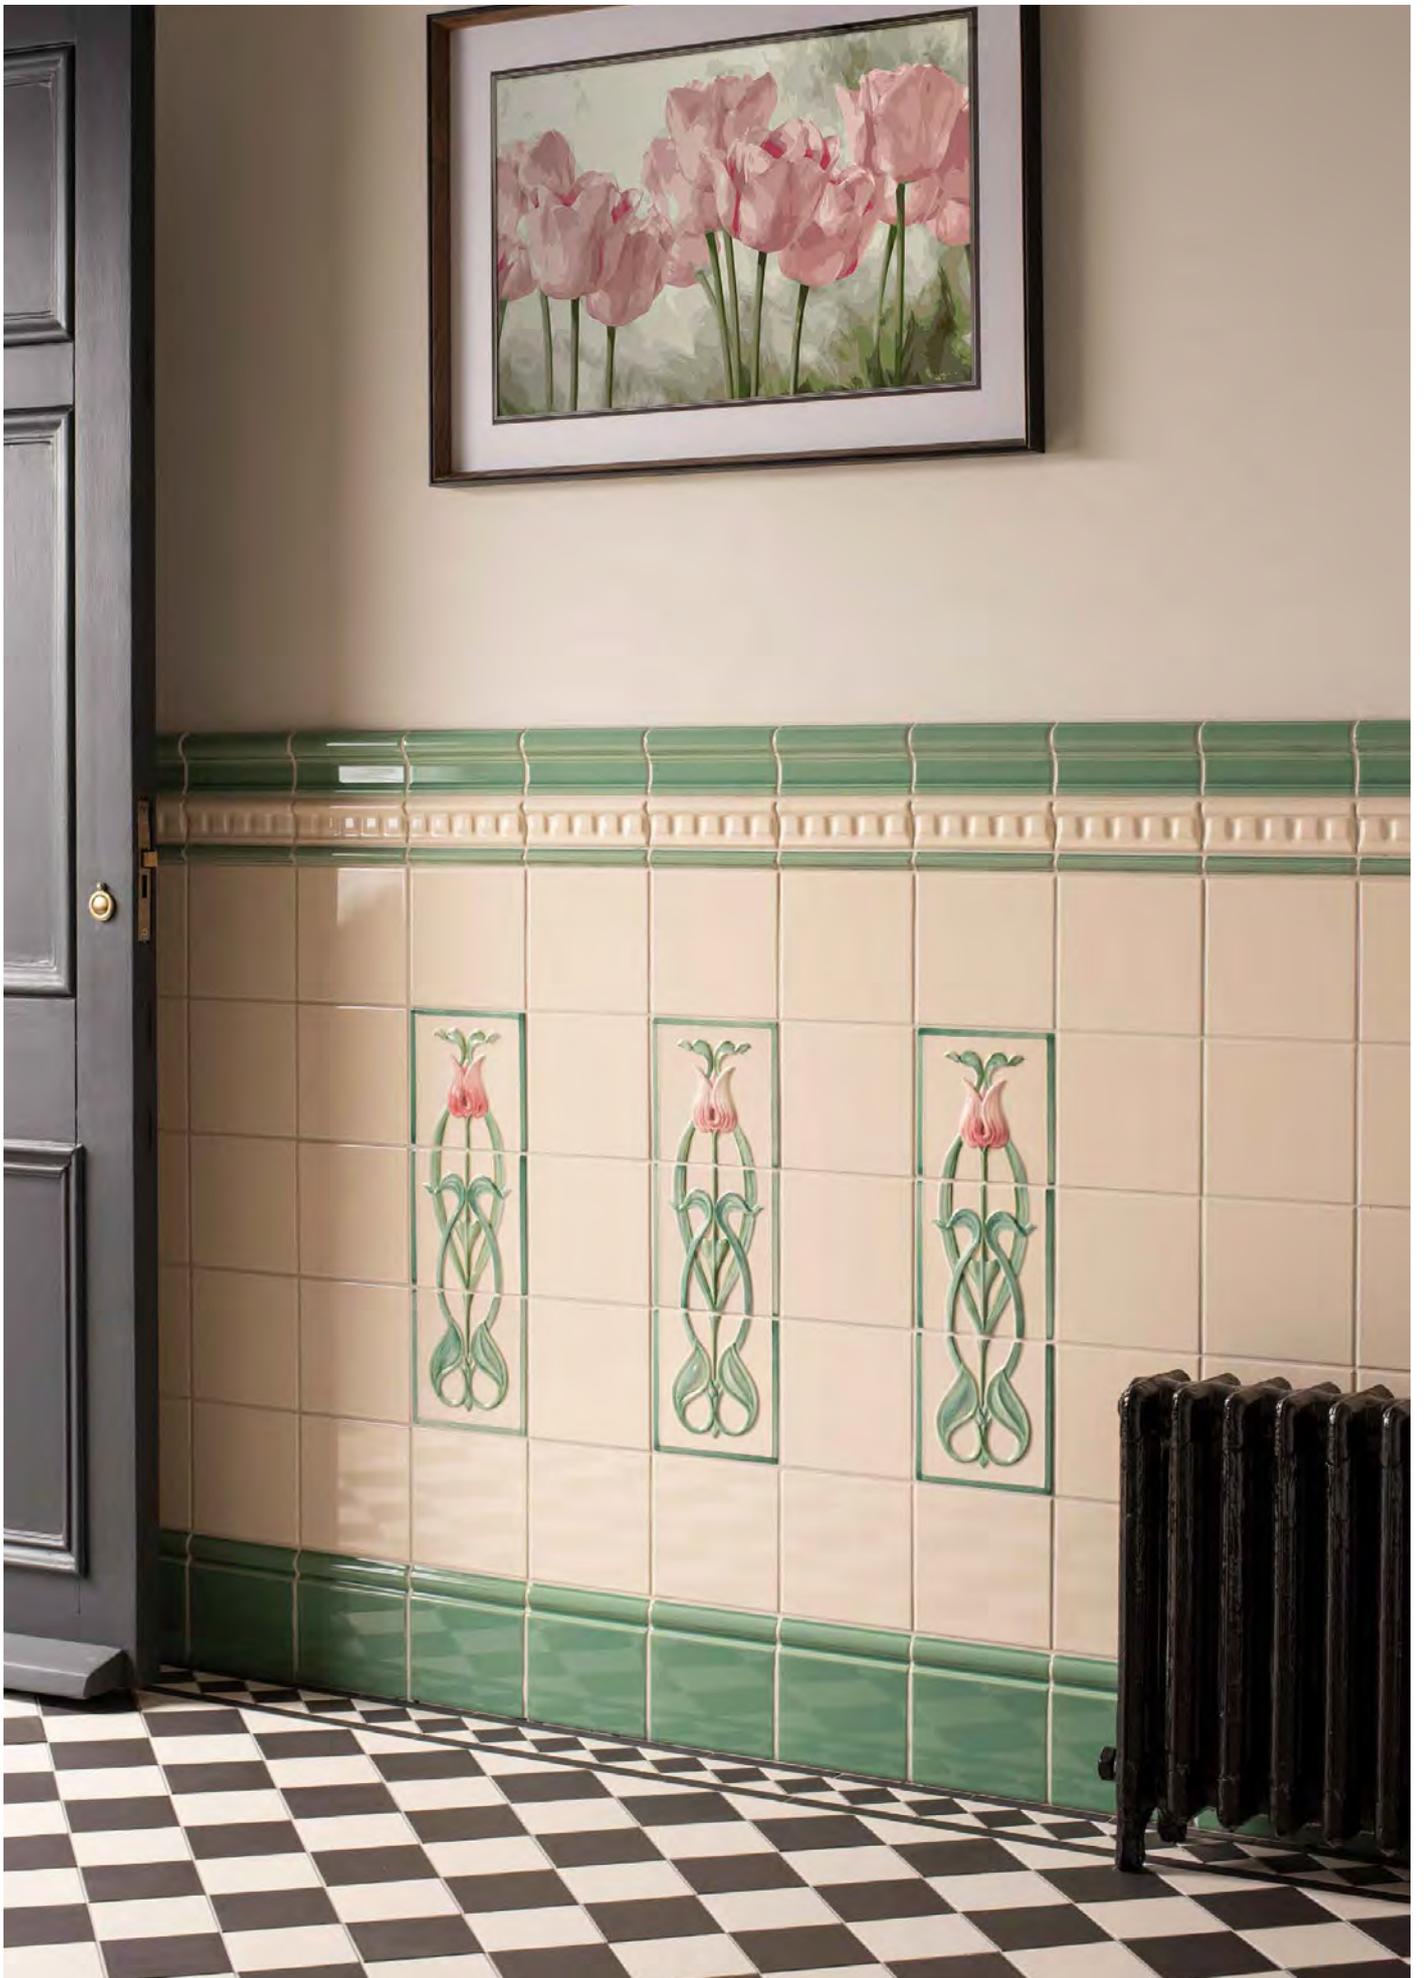

The dado or chair rail was originally used to protect wall surfaces from chairs that were pushed back against the wall after use, later becoming just decorative pieces. From the 1870s porches were tiled to dado height for visitors to admire before admittance. The dado can be used to top off a field of tiling, or for breaking two areas of tiling with contrasting colours and/or shapes. A deep run of differently shaped pieces can look fabulous and opulent. There's no hard rule for dado height anymore, unless you are replicating a particular style. It's more likely to be dictated by how many rows of tiles, the height of tiles and skirtings, or height of bath or sink if in a bathroom.

#### Rectangle

Very useful as a filler between a row or rows of more ornate mouldings or decorative tiles and borders. Achieve a contemporary style by mixing with half tiles.

#### Hogarth, Victoria and Albert

These can be used on their own at dado height, (see left), or in combination with other shapes such as Astragal and Dentil, (see right).

Jade breeze IM-0011777 Astragal, IM-0013283 Victoria and IM-0017198 Skirting Mouldings, County White IM-0005330 Field Tiles and IM-0010876 Dentil Mouldings, with IM-0017324 Angelina Pink Tulip 3 Tile set and Oxford 106mm pattern in Black and Dover White from the Victorian Floor Tile collection

IM-0020174 Brilliant White Half Tiles with IM-0013856 Brilliant White Astragal Moulding

IM-0000775 Jet Black Metro, IM-0000750 Jet Black Victoria, IM-0019839 Jet Black Sigma, IM-0013836 Jet Black Omega

#### Egg & Dart, Dentil, Rope and Scroll

These add extra interest and decoration. The designs for egg and dart and dentil go back to ancient Greek and Roman architecture – egg and dart represents shields and spears, the dentil used for its symmetrical shape in Greek temples ('dentil' is from 'dens', Latin for tooth).

#### Sigma, Astragal and Omega

These slimmer pieces are really versatile – for introducing a line or two of colour in a field of white or cream, for contrast, for outlining and highlighting or to neatly finish off a row of tiles.

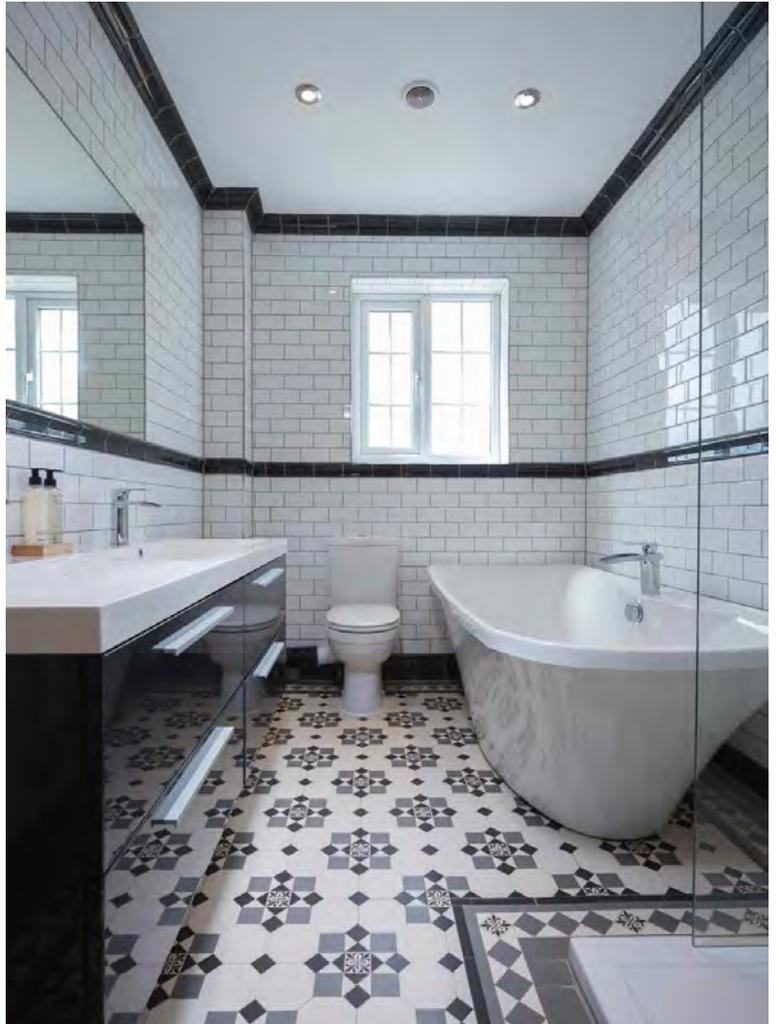

IM-0022882 Baroque Blue Egg & Dart, IM-0013097 Baroque Blue Astragal, IM-0008416 Baroque Blue Half Tile

#### Plain Cornice

Use at the juxtaposition between wall and ceiling, either solely or with other pieces.

#### Skirting

Skirting boards were originally made from wood and hid the messy bottom edge of plastered walls, also protecting them from damage from heavy foot traffic and brooms. Our skirtings are more decorative than functional, adding an attractive transition from wall to floor surface.

IM-0020174 Brilliant White Half Tile, IM-0012137 Jet Black Cornice, IM-0000750 Jet Black Victoria, IM-0019961 Jet Black Skirting. Flooring is Tenby pattern with a Kingsley border from our Victorian Floor Tiles Collection

IM-0021571 Vintage White Half Tile

# Tile formats

## Field Tile

The archetypal tile shape and size. It comes in 23 gloss colours and co-ordinates with all of the Artworks mouldings and the Half Tile. Install it straight or offset.

## Half Tile

Called a 'subway tile' in America as tiles this shape appeared in New York City's subterranean train stations in the early 1900s – and it has to be said, they have graced our own London underground stations for just as long. The Half Tile is available in all the gloss colours. It is also available in shimmering metallic **Gold** and **Platinum**. It's incredibly versatile as it can be installed in many different layouts, and it co-ordinates with the field tile and all the mouldings.

## Large Brick

Available in 13 gloss colours. The brick is a popular shape for the same reason as the half tile – it works in different layouts. Laid horizontally it can make a room feel wider, placed vertically it makes a wall appear higher, whilst the herringbone pattern is a real classic.

## Metro and Metro Finishing Piece

Still popular in today's contemporary living spaces, bevelled tiles like these have been used in the Paris Metro since 1903. They typify its iconic Art Nouveau style. The Finishing Piece or corner can be used as part of a design and also to ensure neat edges and minimal cutting.

IM-0019839 Jet Black Sigma, IM-0012553 Jet Black Half Tile, IM-0002581 Palladian Beige Half Tile, IM-0002469 Vintage White Large Brick

<sup>†</sup> These items can be made to order in all gloss finishes. Please consult your Original Style stockist.

A photograph of a bathroom wall featuring decorative tiles. The wall is covered in white subway-style tiles. A decorative border runs horizontally across the middle, consisting of a row of tiles with a colorful floral and bird pattern. Below this border is a row of solid red tiles. In the foreground, a wicker basket holds several umbrellas with wooden handles. A framed mirror with a dark frame and gold inner border is visible in the upper left corner.

# Decorative Tiles

Although inspiration for our decorative tiles can be traced back to art and architecture from the past, the designs, patterns and colours still look fresh and distinctive for 21st century interiors. You can recreate classic styles or give tradition a twist for a contemporary look.

IM-0019796 Poppies Scroll Border, IM-0008078 Sweetbriar, IM-0011183 Symmetrical Classic Pattern, IM-0010976 Poppies Floral Border, all Single Tiles

## Say it with flowers

The Victorians loved flowers and adorned almost everything with floral decoration. There was even a language of flowers! Each had a meaning and exchanging flowers was a way of sending secret messages between sweethearts – much more romantic than a text. Make your own statement by adding some of these pretty floral tiles to your bathroom, cloakroom or kitchen.

### STYLING TIP

Why not pick out one of the colours in the pattern of your chosen tile and match it up with one of the gloss colours for your moulding and field tile? You could team **Burgundy** with the reds and pinks within Apple Blossom, Poppies and Sweetbriar, **Royal Blue** with Blue Poppies and Peony, and **Victorian Green** with Floral Trellis. Their background colour is **County White** so you could just keep it simple and choose this creamy shade to frame and emphasise the patterns themselves.

IM-0003221 Blue Iris 5-Tile Set, IM-0005530 Brilliant White Field Tile, IM-0013546 Pavilion Green Victoria, IM-0007247 Blue Iris Half Size Border, IM-0020150 Pavilion Green Albert, IM-0020174 Brilliant White Half Tile

# Our five-tile sets

Our five-set sets are replicas of 19th century tile designs originally intended for flanking the grate in cast iron fireplaces. They also happen to look beautiful in showers and bathrooms, either with or without the matching decorative borders.

## Blue Iris

Both the 5-tile set and 6-tile panel are richly decorated with a tapestry-like effect. It can be matched with many of the gloss colours, from **Brilliant White** and **Pavilion Green**, as shown here to **Royal Blue** and even **Charcoal Grey** for a dramatic look.

Turn the page for more tile sets including **Plant & Urn**, **Poppy & Wheatsheaf**, **Cameo Carousel** and **Birds & Butterfly**.

See our Victorian Floor Tiles brochure for similar patterns

## ART NOUVEAU AT A GLANCE

- A movement that swept through the decorative arts and architecture in the late 19th and early 20th centuries throughout Europe and beyond.
- Inspiration came from the natural world of flowers, plants, birds and insects which were highly stylised.
- Key figures: Charles Rennie Mackintosh (see pages 86-87), Aubrey Beardsley (illustrator), Tiffany (lighting), René Lalique (glass and jewellery).
- Where to see it: Prague; Glasgow School of Art; the Paris metro; Art Nouveau Museum, Riga.
- How to recreate it: our tube lined tiles (see pages 78-81) are also classic Art Nouveau designs; include Tiffany lamps, curvy shaped furniture, peacock feathers and stained glass.

Mucha's posters and illustrations include motifs such as flowers, sinuously twinning stems and romantic female figures with flowing hair. We've reproduced some of his fine designs on tile panels with co-ordinating borders and individual tiles so you can bring some Art Nouveau style into your bathroom.

# Relief Tiles

Raised line, relief mouldings and tube lined tiles were—and still are—all hand crafted with a great deal of skill

**Raised-line:** a technique developed in the 19th century and used extensively during the Arts and Crafts and Art Nouveau periods. The outline of the pattern was embossed on to the tile body and different coloured glazes were applied to the 'walled' sections created.

**Tube Lined Single Tiles:** (above, top) look closely and you'll see that these tiles and borders are exquisite works of art in a range of authentic colours.

**Relief moulded:** (left) each tile is slip cast in sculptured moulds and then dry fired before being individually hand painted by one of our skilled artists. They are then glazed and a further fired in a high temperature kiln.

Turn to the next page to see how our tiles are decorated

1. Hand decorating tube lined tiles

# Hand decorating, in detail

These tiles are decorated with care and skill

As you can see from the steps shown here, there is real craft involved in producing every hand decorated tile.

Tube lined tiles and matching borders go through several processes before they reach their finished state, with their jewel like translucent colours and graceful flowing designs.

Relief moulded tiles are coloured using swift brush strokes to create the subtle shaded effects.

2. The pattern is stencilled onto the blank tile biscuit (this one is Liberty). A thin line of slip is carefully piped following the stencil lines – just like icing a cake

3. When the piped outline has dried, coloured glazes are hand painted in separate areas within the lines. As you can see, the glaze colour does not resemble the finished tile

4. When all the colours have been applied, the tile is inspected, loaded into a crank and then left to dry, before being fired in the kiln

5. Once the tiles are fired the glazes are rich and translucent

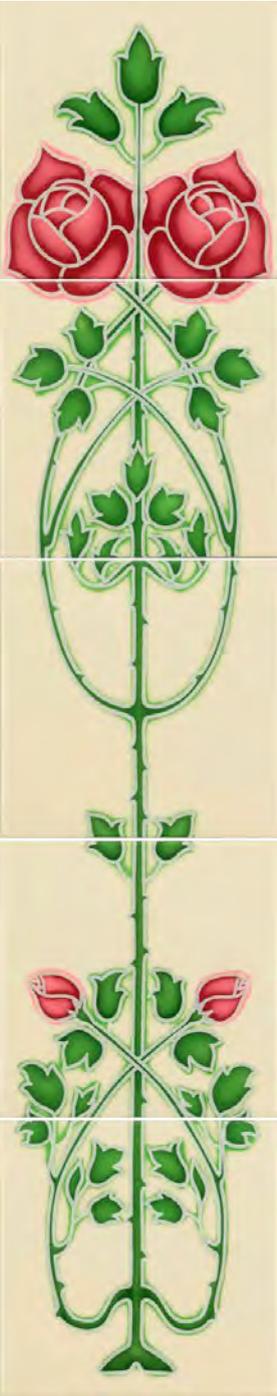

6. Hand painting relief moulded tiles

7. Hand painted Henrietta tiles now ready for firing

# Get the Victorian look

Here are a few ideas to give your bathroom a traditionally Victorian look, whether you want just a hint or to immerse yourself in authenticity

## Strong colours and painted walls

These were the height of fashion during the early-mid Victorian period, especially dark greens and reds. There are lots of heritage paint colours on the market with authentic colours from the Victorian period and now the paints themselves are made from safe ingredients (unlike original paints which could have contained lead or arsenic!).

## Cast iron radiators

Modern equivalents look really authentic but are heat efficient and cost effective to run.

## Floor tiles

Installing authentic Victorian Floor Tiles doesn't mean you have to miss out on modern comforts, as all our floor ranges are suitable to use with underfloor heating systems. Floor mosaics in octagon dot and honeycomb patterns are also classics. See our range on pages 104-105. Visit [www.originalstyle.com/victorian-floor-tiles/](http://www.originalstyle.com/victorian-floor-tiles/)

## Stand-alone baths with claw feet

The epitome of a luxurious bathroom.

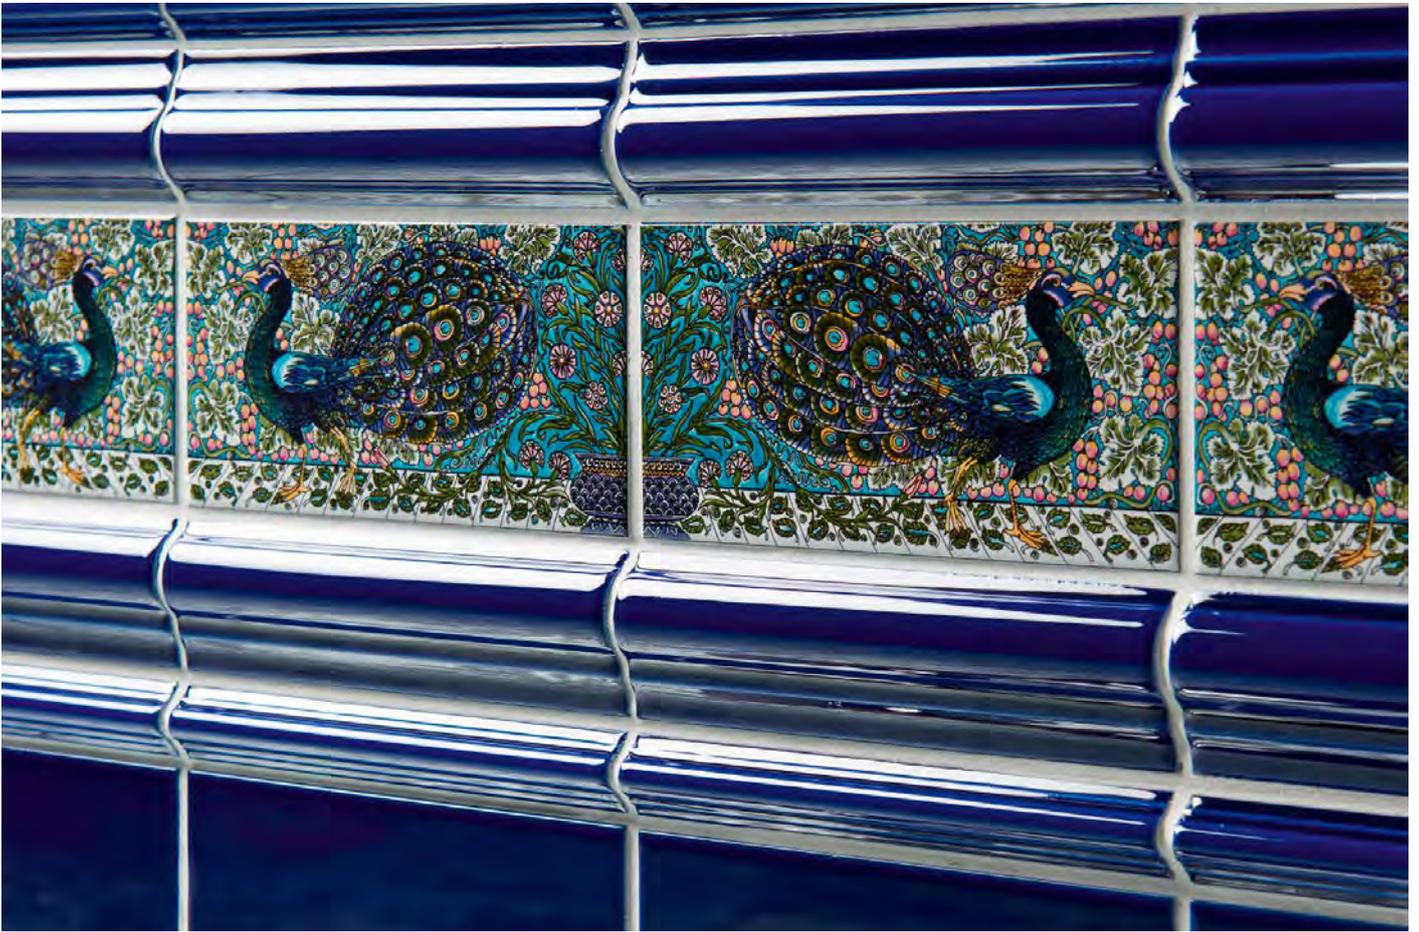

## Decorative touches

As well as decorated tiles and mouldings, add fancy taps and shower heads, ornate mirrors and light fittings to complete the look.

## BE INSPIRED

Create your own Pinterest boards (and visit our pages via [www.originalstyle.com](http://www.originalstyle.com)) and explore the web for inspiring images and information.

The Victoria and Albert Museum in London is a treasure trove of all things Victorian and well worth a visit, [www.vam.ac.uk](http://www.vam.ac.uk)

# Arts & Crafts

For beautiful objects and a simpler way of life

This influential movement began in Britain around 1880, with artists, designers and architects pioneering new approaches in a reaction against mass industrialisation. Traditional and handmade crafts were embraced, and medieval styles revived. Two of the key figures were William Morris and John Ruskin.

## William De Morgan

William De Morgan (1839-1917) was one of the foremost English tile designers of the late Victorian and Edwardian period. A lifelong friend of William Morris, he was precisely the kind of designer-craftsman that the movement admired. Although trained as an artist, De Morgan also inherited a love of science from his father and became an expert on the chemistry of ceramic glazes. Through painstaking research he achieved distinctive, lustrous colours to complement his lively designs, many of which were inspired by Persian art, including the Peacock border featured here.

152 x 152 x 7mm (6" x 6" x ¼")

Mackintosh believed  
artists should turn to  
nature for their inspiration

By the end of the 19th Century the Glasgow School of Art was one of the leading academies in Europe and at the very heart of this success was the talented artist and architect Charles Rennie Mackintosh. His Glasgow Rose is the inspiration for our three-tile set and it evokes the essence of his distinctive style.

# Art Deco Style

Art Deco was one of the most celebrated design movements in the 20th century

Bold, daring and modernist, the clean lines and precise symmetry of Art Deco style are still loved today. Designers of the day created the eclectic style from influences such as avant garde art, urban imagery of the exciting new machine age, stylised geometric patterns and recently discovered ancient Egyptian treasures.

# Get the look... Art Deco Style

It's easy to adapt this style for your bathroom

## Mirrors

Here we've used our Antique Mirror Glassworks tiles on the wall. Mirrors in fan or other angular shapes are readily available, try searching in antique shops for similar styles.

## Gloss for glamour

Chrome and gold fittings, shiny fabrics, metallic surfaces and glass light fittings all add to the look.

## Images

Posters from the era such as ocean liners, luxury cars, travel destinations and film stars will all look fabulous.

## Geometrics

Introduce stepped profiles, chevrons, angular shapes and geometric patterns. For walls and floors include tiles such as these Art Deco decorative tiles and metallic finishes (see pages 28-29) and patterns from our Victorian Floor Tile range and Floor Mosaics (see pages 104-105).

## Colour

Bold and dramatic with silver, black, chrome, yellow and reds, or more subtle combinations of cream, oyster, beige and green, especially eau-de-nil.

# Classical Style

The Fleur de Lis has been used for decoration for thousands of years

It was found in Ancient Greece, used as the heraldic emblem of the Tudor dynasty and it is still in use today for coats of arms. Our Fleur de Lis is in gold and platinum on backgrounds of Brilliant White, Black and County White, giving an almost three dimensional effect. Team with gold or platinum Omega (see page 45) for a grand effect. Fleur de Lis is also available in Royal Blue or Burgundy on County White, teamed with Regency-style stripes in either colour.

# Fabergé Collection

The legendary Fabergé Easter eggs were the creation of Carl Fabergé, goldsmith to the Crown of Russia until 1917

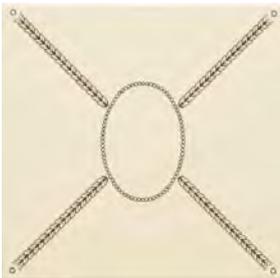

Fabergé and his company were commissioned to create sumptuous eggs and other intricate jewellery and gifts. Elements such as fleur de lis, wreaths and crowns were frequently used in his objects d'art. Our Fabergé Collection was inspired by his creations, echoing their classic elements. The designs are traced in Charcoal Grey on a County White background.

## Co-ordinating tiles

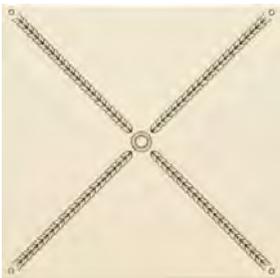

Charcoal Grey is a rich, deep grey and is perfect for harmonising with your Fabergé tiles (see pages 96-97 for all the formats available). All the tiles and mouldings are suitable for use on walls in kitchens and bathrooms, but can also be placed in dining rooms, hallways, conservatories – the choice is yours.

## Works of art, replicated on a tile

We have chosen some iconic masterpieces and replicated them on our glazed ceramic tiles. As these tiles are larger and thicker than our normal tiles, we have developed two versions for different types of display. Each Masterpiece tile can be installed within a field of tiles, framed with matching frame sets (see above right). The other option is to hang them as ceramic plaques. You can install or hang your chosen Masterpiece in rooms such as bathrooms and conservatories where steam, strong sunlight or UV light could damage conventional prints or poster reproductions of these paintings.

Klimt: The Kiss, Österreichische Galerie Belvedere, Vienna

## Gustav Klimt

(1862-1918)

Klimt was a prominent contributor to the blossoming Art Nouveau movement and a founding member of the Vienna Secession. He was inspired and influenced by Byzantine mosaics and art from the ancient Egyptian and Minoan civilizations. His most famous work is The Kiss (1907). The dazzling original has a three dimensional effect, and to create an accurate replica, we have crafted the image onto a tile using pure gold, platinum and silver (just like the original), in addition to ceramic colours. We have also designed a coordinating border and corner.

**IM-0004980**

**Picture Tile only:**

600 x 600 x 10mm (23<sup>5</sup>/<sub>8</sub>" x 23<sup>5</sup>/<sub>8</sub>" x 3<sup>7</sup>/<sub>8</sub>")

**With Frame:**

670 x 670 x 10mm (26<sup>3</sup>/<sub>8</sub>" x 26<sup>3</sup>/<sub>8</sub>" x 3<sup>7</sup>/<sub>8</sub>")

## Borders and corners

Made to match 'The Kiss', the border and corner also contain pure gold and platinum. You can place the border within a dado or use as a frame. Different effects can be created when the border is inverted and the corners rotated.

**Klimt Border • IM-0012297**  
152 x 51 x 7mm (2" x 6" x 1/4")

**Klimt Corner • IM-0018426**

**IM-0006133**

All wall tiles above are suitable for wet and dry walls except those marked \*  
\* Only suitable for dry areas. Please see Important Information pages 108-119.

Raphael: Galatea (1511-12), Villa Farnesina, Rome

## Raffaello Sanzio, known as Raphael (1483-1520)

Raphael was commissioned by Pope Julius II in 1508 after which his work was in great demand from wealthy Roman merchants and noblemen. He became one of the great Classical artists of the High Renaissance. Galatea (1511-12) was a fresco commissioned by Agostino Chigi, to decorate his riverside villa. It shows the nymph, Galatea, dramatically surrounded by "amorini, mermen, hippocamps and nereids" and still survives today.

**Matching Frame Sets also available:**

IM-0014834 Brilliant White, IM-0023525 County White, IM-0013047 Jet Black

## Sandro Botticelli (1444-1510)

Botticelli worked in Florence where he attracted the patronage of the powerful Medici family and now widely acknowledged as one of the greatest Italian Renaissance painters. He drew his inspiration from a multitude of sources, classical and Biblical as well as contemporary. The Birth of Venus (c.1481), perhaps his best known work, was commissioned for one of the many Medici villas and is now in the Uffizi Gallery.

**IM-0020945** - plain back to install in a field of tiles\*

**Picture Tile only:** 360 x 560mm x 10mm (14" x 22" x ½")

Botticelli: Birth of Venus (c.1481), Uffizi Gallery, Florence.

## Claude Monet

(1840-1926)

Monet was the master of the Impressionist movement in late 19th century France. His passion was depicting the effects of light, particularly on water. He lived at Argenteuil on the River Seine and later bought a house near the village of Giverny. Its large garden is where many of his greatest masterpieces were painted. The Water-Lily Pond (1899) is one of a series featuring Monet's own water garden and Japanese footbridge at Giverny in which his use of colour and light is at its most exquisite.

## Sir Laurence Alma-Tadema

(1836-1912)

Although he was Dutch by birth, Alma-Tadema spent most of his working life in England. He was particularly noted for his paintings of elegant female figures in classical Greek and Roman settings, and was described by Punch as a “marvellous artist” for his skill in depicting marble.

**Dimensions for all 4 Alma-Tadema tiles**

### TL0113 45° Angle Block 90mm/3½"

This handy 45° Angle Block is invaluable for cutting the internal and external 45° angle corners of the Plain Cornice moulding thus ensuring a professional finish. It needs to be used with an electric tile cutting machine with a minimum cutting depth of 75mm, or a carbide tile saw and mitre block (the Cornice moulding sits on top of the angle block, then cut with the carbide tile saw). Please note that, as the angle block is made from Plaster of Paris it is water soluble and likely to only last for one or two installations. Always seek professional advice when using cutting equipment. For more details refer to the Fixing Guide at [www.originalstyle.com](http://www.originalstyle.com)

### TL0113 Bloc d'angle 45° 90mm

Ce bloc d'angle pratique s'avère indispensable pour découper les coins d'angles internes et externes à 45° des moulures Plain Cornice, garantissant ainsi une finition professionnelle. Il doit être utilisé avec un coupe-carreaux électrique d'une profondeur minimum de coupe de 75 mm, ou une scie à carreaux au carbure et une boîte à onglet (placez les moulures Cornice sur le bloc d'angle et à l'intérieur de la boîte à onglet, puis découpez avec la scie à carreaux au carbure). Veuillez noter que, comme le bloc d'angle est en plâtre de Paris, il est soluble dans l'eau et ne vous servira que pour une ou deux installations. Consultez toujours l'avis d'un professionnel lorsque vous utilisez du matériel de découpage. Pour de plus amples informations, veuillez vous reporter au Guide d'Installation sur [www.originalstyle.com](http://www.originalstyle.com)

### TL0113 45° Winkelblock 90mm

Dieser handliche Winkelblock ist von unschätzbarem Wert, um beim Schneiden von 45°-Innen- und Außenecken für die Einfassung Plain Cornice einen professionellen Abschluss zu gewährleisten. Zur Verwendung ist eine elektrische Fliesenschneidemaschine mit einer Mindestschneidtiefe von 77 mm oder eine Karbid-Fliesensäge mit Gehrungsblok nötig (der Cornice-Randleiste sitzt auf dem Winkelblock und wird in dem Gehrungsblok platziert und anschließend mit der Karbid-Fliesensäge geschnitten). Bitte beachten Sie, dass der Winkelblock, da er aus Gipsmörtel besteht, wasserlöslich und wahrscheinlich nur für eine oder zwei Installationen verwendbar ist. Fragen Sie stets einen Fachmann, wenn Sie Schneidinstrumente verwenden. Weitere Informationen finden Sie in der Installationsanweisung unter [www.originalstyle.com](http://www.originalstyle.com)

### TL0113 45° Angle Block 90mm

Dit handige hoekblok is van onschatbare waarde bij het zagen van binnen- en buitenhoeken van 45° voor Plain Cornice-randen en zorgt voor een professionele afwerking. Het blok moet worden gebruikt in combinatie met een elektrische tegelsnijmachine met een minimale zaagdiepte van 75 mm of een hardmetaal tegelzaag en een verstekbak. (De lijst wordt geplaatst op het hoekblok dat in de verstekbak is gezet en dan in verstek gezaagd met de hardmetaal tegelzaag.) Het hoekblok is gemaakt van kalkmortel. Het is oplosbaar in water en gaat waarschijnlijk slechts een of twee klussen mee. Vraag altijd om professioneel advies bij het gebruik van zaagapparatuur. Raadpleeg de Fixing Guide [www.originalstyle.com](http://www.originalstyle.com)

### Bespoke projects and personalising Fabergé tiles

What if you can't find what you are looking for in this brochure? If you would like something unique, such as a name or image printed onto a number of tiles (see above), we are here to help. Simply visit your nearest Original Style Artworks retailer to personalise Fabergé tiles, more information on getting bespoke designs and to discuss your ideas and specific requirements.

### Projets sur mesure et personnalisation des carreaux Fabergé

Et si vous n'arrivez pas à trouver ce qu'il vous faut dans cette brochure? Si vous voulez quelque chose d'unique, comme un nom ou une image imprimé sur un certain nombre de carreaux (voir ci-dessus), nous sommes là pour vous aider. Rendez-vous simplement dans votre revendeur Original Style Artworks pour personnaliser vos carreaux Fabergé, pour obtenir plus d'informations sur les projets sur mesure et pour discuter de vos idées et de vos exigences.

### Maßgeschneiderte Projekte und individualisierte Fabergé Fliesen

Was tun, wenn Sie in dieser Broschüre das gewünschte Produkt nicht finden? Wenn Sie etwas ganz Individuelles brauchen, z. B. eine Reihe von Fliesen mit aufgedrucktem Namen oder Bild (siehe oben), helfen wir Ihnen gerne weiter. Besuchen Sie einfach einen Original Style Artworks Einzelhändler in Ihrer Nähe, um individuell gestaltete Fabergé Fliesen, Sonderanfertigungen und Ihre Ideen und spezifischen Anforderungen zu besprechen.

### Op maat gemaakte projecten en personalisering Fabergé tegels

Wat als je wat je nodig hebt niet kunt vinden in deze brochure? Als je iets unieks wilt, zoals een naam of een foto op een aantal tegels geprint (zie hierboven), kunnen we altijd helpen. Bezoek simpelweg uw dichtstbijzijnde Original Style Artworks verkooppunt om Fabergé tegels te personaliseren, voor meer informatie over een op maat gemaakt ontwerp en om uw ideeën en specifieke behoeftes te bespreken.

# Important Information

## Shade Variation

Shade variation is an inherent feature of the manufacturing process of Artworks wall tiles. We recommend that tiles are loosely laid out and blended prior to fixing to achieve the most pleasing distribution of shades. Differences between batches can be more marked, so for this reason we recommend that you buy all the tiles at one time. No liability for shading issues can be accepted after installation.

## Nominal Dimensions

Throughout this brochure we quote nominal dimensions which are subject to slight variation within internationally accepted standards. Please note that as the mouldings are slip-cast not dust-pressed, the dimensions may vary. Where applicable, Original Style tiles are manufactured and tested to BS EN14411.

## Scratching

As with all glazed surfaces, some wearing or scratching may occur over time. Care should therefore be taken to select the proper tile for a given use. The wall tiles shown in this brochure are not recommended for surfaces subject to heavy wear.

## Suitability

### Wall Tiles

Artworks wall tiles are not suitable for steam rooms, saunas, work surfaces, floors or external use. They are suitable for interior walls only. Most are suitable for walls in wet rooms and showers, with the following exceptions:

**Victorian Green** tiles are only suitable for dry walls. They have a copper-based glaze which is prone to discolouration by very mild acids often found in the home. To avoid such discolouration they should be cleaned only with pure water and should always be wiped dry immediately after cleaning. These tiles should never be used in wet areas such as showers, bath surrounds or basin splashbacks.

**Gold and Platinum Tiles and Mouldings and Art Deco tiles and borders** are only suitable for dry walls and should not be used in wet areas such as showers.

### Crazing and Crackle Glaze Tiles

Highly glazed ceramic tiles may craze with time, and no guarantee can be given against this occurrence. **Victorian Green, Teapot Brown** and **Ochre** are particularly prone to crazing. Crackle glaze Metro and Finishing Pieces will need sealing. Crackle glaze tiles are not recommended for use near power showers. Please refer to the Fixing Guide at [www.originalstyle.com/guides](http://www.originalstyle.com/guides)

Due to their shape **Albert and Victoria mouldings** are not recommended for use in areas subject to wall movement. It is also imperative that care is taken when grouting these mouldings to ensure moisture cannot get into the back of them as this may cause the moulding to crack. Completely fill the back of the moulding with adhesive on fixing.

The reverse sides of mouldings are prone to variance. This does not affect fixing. We cannot guarantee that glaze will cover the side edges of the profiles on page 45.

### Victorian Floor Tiles, Odyssey Floor Tiles, Tileworks Collection and Earthworks Collection

Various other tile floors have been featured in the brochure. Please see full details, suitability and fixing information on our website [www.originalstyle.com](http://www.originalstyle.com)

## Installation, Adhesives and Grouts

It is important to use the correct adhesive to match the substrate. We recommend D1 or D2 wall tile adhesives for Artworks tiles and mouldings which are placed on plasterboard or plaster walls. For all other substrate a flexible cement-based adhesive may be required. Please consult your tile stockist or adhesive manufacturer for their advice. Always use high quality adhesives and grouts following manufacturers' recommendations for their use and suitability for the type of tile, the application and the substrate being tiled. In all installations, seal joints with an impervious grout. If joints are not completely watertight, moisture can be absorbed into the tile body causing stains to show through the glaze. Use an average grout space of at least 2mm to allow for variations in tile dimensions. When installing in power showers, Epoxy grout must be used.

Do not install Original Style tiles directly into wet cement or sand and cement.

It is imperative to follow grout and adhesive manufacturers' instructions regarding their suitability with our products. If in doubt please consult the grout/adhesive stockist from whom you purchased the products. Original Style makes no representations as to the fitness for purpose of third party adhesives and grouts.

### Sealing Joints

In all installations, especially shower cubicles, joints should be sealed with an impervious grout or an epoxy type. Joints between tiles and shower trays should be sealed with silicone sealant. If joints are not completely watertight moisture can be absorbed into the tile body causing stains to show through the translucent glaze. Silicone expansion joints should be incorporated under Victorian dados.

## Steam Cleaning

We do not recommend steam cleaners or steam mops to clean our tiles. Steam cleaning may remove or render ineffective any sealer that has been applied, leaving the tiles unprotected.

## Fixing Moulded Tiles to Outside Corners

To fix cornice and other moulded tiles to an outside corner one end of the tile must be carefully mitred at 45° with carborundum or a diamond edged saw. This has the effect of shortening the surface of the tile in contact with the wall.

## Victoria Mouldings

Victoria mouldings should not be used on any wooden surfaces due to thermal expansion of the wood which may crack the moulding.

## How Many Tiles Will You Need?

| Nominal Tile Size*  | per m <sup>2</sup>  | per ft <sup>2</sup>  |
|---|---------------------|----------------------|
| Field Tile 152 x 152mm (6" x 6")  | 43                  | 4                    |
| Half Tile 152 x 76mm (3" x 6")  | 86                  | 8                    |
| Large Brick 228 x 75mm (3" x 9")  | 58.3                | 5.3                  |
| Metro Tile 152 x 75mm (3" x 6")   | 86                  | 8                    |
| <b>Floor Mosaics</b>  |                     |                      |
| 271 x 281mm / 11 <sup>1</sup> / <sub>8</sub> " x 10 <sup>5</sup> / <sub>8</sub> " | 13.1                | 1.2                  |
| 292 x 292mm / 11 <sup>1</sup> / <sub>2</sub> " x 11 <sup>1</sup> / <sub>2</sub> " | 11.7                | 1.09                 |
| 292 x 310mm / 11 <sup>1</sup> / <sub>2</sub> " x 12 <sup>1</sup> / <sub>4</sub> " | 11                  | 1                    |
| 295 x 295mm / 11 <sup>5</sup> / <sub>8</sub> " x 11 <sup>5</sup> / <sub>8</sub> " | 11                  | 1                    |
| 297 x 257mm / 10 <sup>5</sup> / <sub>8</sub> " x 11 <sup>1</sup> / <sub>4</sub> " | 13.1                | 1.2                  |
| 297 x 297mm / 11 <sup>3</sup> / <sub>4</sub> " x 11 <sup>3</sup> / <sub>4</sub> " | 11.3                | 1.04                 |
| <b>Nominal Tile Moulding Length*</b>  | <b>per linear m</b> | <b>per linear ft</b> |
| 152mm (6")  | 6.6                 | 2                    |

\*Based on a 2mm/1/8" grout gap. Please allow 5 per cent extra for wastage.

## Gold and Platinum Tiles and Mouldings

Care must be taken when fixing and grouting tiles and mouldings including those with a precious metal finish.

**NB Please refer to the fixing instructions at [www.originalstyle.com](http://www.originalstyle.com) before the installation of any tiles/mouldings with a precious metal finish.**

Please note, we do not recommend the use of acid based cleaning products as they may cause some tiles to react and change in character. We only recommend a pH neutral cleaner. Do not use abrasive cleaners or materials on any tiles or mouldings including those with a precious metal finish.

## Masterpiece Tiles

Masterpiece tiles are available in two options:

- with brackets fixed to the back
- with a plain back

### With Brackets

The brackets makes the Masterpiece tiles suitable for hanging from a wall like a picture, which means that they can be placed in rooms such as bathrooms, kitchens, conservatories and over fireplaces, unlike conventional pictures, which could be damaged by steam, humidity, heat and ultra violet light.

### Plain Back

The plain backed option makes the Masterpieces suitable for installation within a field of tiles. There are matching frames in Brilliant White, County White and Black for the Alma-Tadema, Raphael, Botticelli and Monet Masterpieces, and matching Vienna Frames and Corners in Gold, Antique Gold, Platinum and Black for the Klimt Masterpiece. The frame sets including the Vienna frames and corners have been specially designed to match Masterpiece tiles and bridge the differences in thickness between these and field tiles ranging from 5-12mm ( $7/8'' \times 15/16''$ ).

### Fixing Masterpiece Tiles and Frames

We strongly recommended that Original Style Masterpiece tiles and frames are installed by an experienced professional tiler. Masterpiece tiles should be handled with extreme care at all times. Masterpiece tiles can each weigh up to 7kg (15.4lb) and could cause personal injury if dropped. Masterpiece tiles have a water absorption capacity of less than 3 per cent. It is important to follow the adhesive and grout manufacturers' instructions at all times.

**NB Please refer to the fixing instructions at [www.originalstyle.com](http://www.originalstyle.com) before installation of any Masterpiece tiles.**

### Cleaning

Original Style Masterpiece tiles should be rinsed with clean water and wiped off with a soft, dry cloth in exactly the same way as normal glazed wall tiles.

For full fixing instructions, please refer to the Masterpiece Tiles and Frames section in the Original Style Fixing Guide at [www.originalstyle.com](http://www.originalstyle.com)

In the USA please follow the recommendations of reputable product manufacturers in conjunction with our Fixing Guide at [www.originalstyle.com](http://www.originalstyle.com) and always comply with American National Standards Institution (ANSI) specifications as set out in the Handbook for Ceramic Tile Installation published by the Tile Council of America. Useful links: [ctcoa.org](http://ctcoa.org), [tileusa.com](http://tileusa.com)

## Photography

Owing to variations in studio lighting and printing inks, the tile colours shown in this brochure may differ slightly from those of the actual tiles. It is always advisable to ask your Original Style supplier to show you a sample.

## Limits of Liability

Original Style accepts no liability for the faulty installation of its products. In the case of any claim relating to the tiles themselves, Original Style's liability, to the extent permitted by law, is limited to either the replacement of the product or a refund of the cost of the product, and does not extend to cover any consequential loss. Claims must be reported within seven working days from receipt of the tiles. Tiles must be inspected prior to installation and claims cannot be considered after the tiles have been installed.

Please be advised that installation constitutes acceptance of the quality, colour, size, texture and shade of the tiles. Original Style warrants that its tiles conform to their description and are fit for their purpose. Original Style makes no other express or implied warranty as to fitness or suitability of the products for particular installations. We extend no guarantees, express or implied, as to wear resistance or maintenance procedures.

Please note the use of certain acid based cleaning products may cause some of the tiles to react and change in character.

## Acknowledgements

# Informations Essentielles

## Variation de teinte

La variation de teinte est une caractéristique inhérente au processus de fabrication du carrelage mural Artworks. Nous vous recommandons d'étaler les carreaux et de les agencer avant de les fixer, afin de répartir les différentes teintes de la manière la plus harmonieuse. Les différences sont plus marquées d'un lot à l'autre, ainsi nous vous recommandons vivement d'acheter tous les carreaux en une seule fois. Nous n'accepterons aucune responsabilité pour les problèmes liés à la teinte une fois les carreaux installés.

## Dimensions nominales

Tout au long de cette brochure, nous indiquons les dimensions nominales qui peuvent être sujettes à de légères variations, mais toujours dans la limite des normes internationales en vigueur. Veuillez noter que, comme les moules sont coulés en barbotine et non pressés à sec, les dimensions pourront présenter des variations. Lorsque cela est possible, les carreaux Original Style sont fabriqués et testés selon la norme européenne EN14411.

## Rayures

Comme pour toutes les surfaces vitrifiées, les carreaux peuvent s'user ou se rayer avec le temps. Soyez donc vigilants de choisir les carreaux qui correspondent le mieux à l'usage que vous en ferez. Les carrelages muraux présentés dans cette brochure ne conviennent pas à des surfaces sujettes à une usure intense.

## Usage

### Carrelages muraux

Les carrelages muraux Artworks ne conviennent pas aux hammams, aux saunas, aux surfaces de travail, aux sols ni aux usages en extérieur. Ils conviennent uniquement à une pose murale en intérieur. La plupart convient aux salles de bain et aux douches avec les exceptions suivantes:

Les carreaux **Victorian Green** ne conviennent qu'aux murs secs. Leur émail à base de cuivre est susceptible aux décolorations sous l'effet d'acides couramment utilisés dans les maisons. Pour éviter toute décoloration, ces carreaux doivent être lavés à l'eau pure uniquement et doivent toujours être séchés immédiatement après lavage. Ces carreaux ne doivent jamais être posés dans des endroits humides, dans une douche, autour d'une baignoire ou comme dossier d'évier.

Les carrelages **Gold et Platinum** ainsi que les moules et l'**Art Deco** ne conviennent qu'aux murs secs et ne doivent pas être utilisés dans des zones humides comme des douches.

### Craquelures et Carrelage avec Effet Craquelé

Tout carrelage avec un émail épais peut se craqueler avec le temps et aucune garantie ne peut être donnée pour éviter cela.

L'émail **ictorian Green, Teapot Brown** et **Ochre** est particulièrement sujet aux craquelures. Tout carrelage avec un émail à effet craquelé doit être imperméabilisé. Les demi-carreaux et les carreaux métro à émail craquelé ne sont pas prévus pour une utilisation dans les douches à haute pression.

A cause de leur forme, les moules **Albert** et **Victoria** ne sont pas recommandées pour une utilisation dans des emplacements où les parois sont susceptibles de bouger. Il est aussi impératif, lors du jointement de ces moules, de s'assurer que l'humidité ne pourra s'infiltrer par derrière, sinon les moules risquent de se lézarder au fil du temps. Veuillez à complètement remplir l'arrière des moules avec de l'adhésif lors de la pose.

Le dos des moules est susceptible de varier. Cela n'affecte en rien la pose. Notez que nous ne pouvons garantir que les bords latéraux des profils illustrés en page 45 seront émaillés.

### Carrelage pour sol

Les mosaïques pour sol aux pages 104-105 ne conviennent qu'aux sols dans des zones sèches et intérieures uniquement. Veuillez vous référer au guide d'installation sur [www.originalstyle.com](http://www.originalstyle.com)

## Carrelage des collections Victorian Floor Tiles, Odyssey, Tileworks et Earthworks

Différents carrelages pour sol sont présentés dans cette brochure. Veuillez vous référer à notre site [www.originalstyle.com](http://www.originalstyle.com) pour obtenir tous les détails et conseils d'installation et trouvez le guide correspondant à votre produit ici [www.originalstyle.com/fr/guides-de-fixation/](http://www.originalstyle.com/fr/guides-de-fixation/)

## Installation, colles et joints

Il est important d'utiliser une colle appropriée qui correspondra au subjectile. Nous recommandons des colles D1 ou D2 pour carreaux muraux pour les carreaux et les moules Artworks qui seront appliqués sur des murs en plâtre ou Placoplatre. Pour tout autre subjectile, une colle flexible à base de ciment sera probablement nécessaire. Veuillez demander conseil auprès de votre revendeur de carreaux ou fabricant de colles. Veillez à toujours utiliser une colle et un ciment-joint de haute qualité et à suivre les recommandations du fabricant concernant leur utilisation, le type de carreaux auquel ils sont adaptés, leur application et le subjectile sur lequel les carreaux seront installés. Pour toute installation, assurez-vous de poser des joints étanches. Si les joints ne sont pas complètement étanches, les carreaux risqueront d'absorber l'humidité, ce qui fera apparaître des taches à travers l'émail. Veillez à ce que l'écart de joint soit de 2 mm en moyenne, au cas où la dimension des carreaux présente de légères variations. Si les carreaux sont installés dans une douche multi-jets, vous devez utiliser un joint Époxy.

N'installez pas les carreaux Original Style directement sur du ciment frais ou un mélange de sable et de ciment frais.

Il est impératif de suivre les instructions des fabricants de colles et de ciments-joints afin d'en vérifier la compatibilité avec nos produits. En cas de doute, consultez le revendeur qui vous aura fourni la colle ou le ciment-joint. Original Style n'assumera aucune responsabilité en ce qui concerne la compatibilité ou l'usage de colles et de ciments-joints tiers.

## Joints d'étanchéité

Dans toutes les installations, et en particulier dans les cabines de douche, il est recommandé d'étanchéiser les joints avec un enduit étanche ou un enduit de type Epoxy. Pour les joints entre les carreaux et le bac à douche, il est conseillé d'utiliser un agent d'étanchéité à base de silicone. Si les joints ne sont pas complètement étanches, les carreaux risqueront d'absorber l'humidité, ce qui fera apparaître des taches à travers l'émail translucide. Enfin, des joints de dilatation en silicone doivent être incorporés sous les plinthes Victorian.

## Nettoyage à la vapeur

Nous ne recommandons pas les nettoyeurs à vapeur ou les vadrouilles à vapeur pour nettoyer nos carreaux. Le nettoyage à la vapeur peut éliminer/ rendre inefficace tout scellant qui a été appliqué, laissant les carreaux sans protection.

## De combien de carreaux aurez-vous besoin ?

| Taille nominale du carreau*                       | par mètre carré |
|---|-----------------|
| Carreau entier 152 x 152mm                        | 43              |
| Demi-carreau 152 x 76mm                           | 86              |
| Grand Brique 228 x 75mm                           | 58.3            |
| Metro-carreau 152 x 75mm                          | 86              |
| <b>Mosaïques pour sol</b>                         |                 |
| 271 x 281mm                                       | 13.1            |
| 292 x 292mm                                       | 11.7            |
| 292 x 310mm                                       | 11              |
| 295 x 295mm                                       | 11              |
| 297 x 257mm                                       | 13.1            |
| 297 x 297mm                                       | 11.3            |
| <b>Longueur nominale du moulage des carreaux*</b> |                 |
| 152mm   | 6.6             |

\*En prenant en compte un écart de joint de 2mm. Prévoyez 5% supplémentaires pour compte des pertes.

## Poser des carreaux moulés sur des angles saillants

Pour poser les corniches et autres carreaux moulés sur un angle saillant, l'une des extrémités du carreau devra être délicatement biseautée à 45° avec du carborundum ou une scie diamantée. Cela aura pour effet de réduire la surface du carreau en contact avec la paroi.

## Moulures Victoria

Il est fortement déconseillé de poser les moulures Victoria sur des surfaces en bois car l'expansion thermique du bois risque de craqueler les moulures.

## Carreaux et moulures en or et platine

Veillez prendre le plus grand soin lors de la pose et du jointoiment des carreaux et moulures, surtout si leur finition est en métal précieux.

**NB** Veuillez vous reporter aux instructions d'installation sur [www.originalstyle.com/fr/guides-de-fixation/guide-général-d'installation-de-carreaux/](http://www.originalstyle.com/fr/guides-de-fixation/guide-général-d'installation-de-carreaux/) avant d'installer tout carreau ou toute moulure avec une finition en métal précieux.

Veillez noter que l'utilisation de certains produits nettoyants à base d'acide peut provoquer des réactions sur certains carreaux et en modifier les caractéristiques. Nous recommandons uniquement l'usage d'un produit nettoyant au pH neutre. N'utilisez jamais de produits nettoyants ou de matériaux abrasifs sur les carreaux ou moulures, y compris sur ceux dont la finition est en métal précieux.

## Carreaux Chef d'œuvre

Les carreaux Chef-d'œuvre sont disponibles en deux versions :  
– avec appliques fixées au dos  
– avec dos nu

### Avec appliques

Les appliques permettent de pendre les carreaux Chef-d'œuvre à un mur comme un tableau, ce qui signifie que vous pouvez les poser dans des pièces telles qu'une salle de bain, une cuisine et un jardin d'hiver ou encore au-dessus d'une cheminée, au contraire des tableaux conventionnels que la vapeur, l'humidité, la chaleur et les rayons ultraviolets finiraient par endommager.

### Dos nu

La version des carreaux Chef-d'œuvre avec dos nu permet de les installer parmi un ensemble de carreaux. Des cadres assortis sont disponibles en Brilliant White, County White et Black pour les Chefs-d'œuvre d'Alma-Tadema, Raphael, Botticelli et Monet, de même que des cadres et angles viennois assortis en Gold, Antique Gold, Platinum et Black pour le Chef-d'œuvre de Klimt. Ces ensembles de cadres, y compris les cadres et angles viennois, ont été spécialement conçus pour être assortis aux carreaux Chef-d'œuvre et atténuer les différences d'épaisseur entre ces carreaux et les carreaux unis, qui varient de 5 à 12 mm.

### Installer les carreaux et cadres Chef-d'œuvre

Nous vous recommandons vivement de faire installer les carreaux et cadres Chef-d'œuvre d'Original Style par un carreleur professionnel et expérimenté. Les carreaux Chef-d'œuvre doivent toujours être manipulés avec le plus grand soin. Chaque carreau peut peser jusqu'à 7 kg. Si une personne fait tomber l'un de ces carreaux, elle risquera de se blesser. La capacité d'absorption d'eau des carreaux Chef-d'œuvre est inférieure à 3%. Il est impératif de suivre scrupuleusement les instructions de votre fabricant de colle et de mastic.

**NB** Veuillez vous référer au Guide d'installation sur [www.originalstyle.com](http://www.originalstyle.com) avant de procéder à l'installation des carreaux Chef-d'œuvre.

## Nettoyage

Les carreaux Original Style Masterpiece doivent être rincés à l'eau propre et séchés avec un chiffon doux et sec, de la même manière que les carreaux émaillés ordinaires.

Pour des instructions complètes concernant l'installation, veuillez vous reporter à la section Carreaux et Supports Masterpiece du Guide d'installation d'Original Style sur [www.originalstyle.com](http://www.originalstyle.com)

## Photographies

L'éclairage en studio et les encres utilisées pour l'impression peuvent affecter la couleur des carreaux présentés dans ce catalogue. Avant de passer commande, il est toujours préférable de vous procurer des échantillons auprès d'un revendeur Original Style.

## Limitation de responsabilité

Original Style dégage toute responsabilité en cas d'installation incorrecte de ses produits. En cas de réclamation relative aux carreaux eux-mêmes, la responsabilité d'Original Style sera confinée, dans la limite autorisée par la loi, au remplacement du produit ou au remboursement du prix du produit, et ne couvre pas les dommages indirects. Toute réclamation doit être effectuée dans les sept jours suivant la réception des carreaux. Les carreaux doivent être inspectés avant installation. Aucune réclamation ne sera prise en compte une fois les carreaux installés.

Notez que l'installation du carrelage constitue l'acceptation de la qualité, de la couleur, de la taille, de la texture et de la teinte des carreaux. Original Style garantit que ses carreaux sont conformes au descriptif fourni et qu'ils sont adaptés à l'usage pour lequel ils sont prévus. Original Style ne formule aucune garantie expresse ou implicite supplémentaire vis-à-vis de l'adéquation ou de la compatibilité de ses produits dans des installations spécifiques. Nous ne formulons aucune garantie, expresse ou implicite, vis-à-vis de la résistance à l'usure ou des procédures d'entretien.

Veillez noter que l'utilisation de certains produits nettoyants à base d'acide peut provoquer des réactions sur certains carreaux et en modifier les caractéristiques.

# Wichtige Informationen

## Schattenvariation

Schattenvariation ist eine Eigenschaft im Herstellungsprozess der Artworks-Wandfliesen. Wir empfehlen, die Fliesen vor der Anbringung lose auszulegen und so zu mischen, dass der angenehmste Schattenwurf entsteht. Unterschiede zwischen einzelnen Chargen können sogar noch deutlicher ausfallen. Aus diesem Grund empfehlen wir dringend, dass Sie alle Fliesen auf einmal kaufen. Wir können keine Haftung für eventuelle Farbprobleme nach der Installation übernehmen.

## Sollmasse

In dieser Broschüre geben wir Sollmaße an, die leichten Abweichungen innerhalb international anerkannter Normen unterliegen. Da unsere Formen per Schlickerguss und nicht durch Trockenpressen hergestellt werden, können die Maße leicht variieren. Sofern zutreffend, werden alle Original Style Fliesen gemäß der Europäischen Norm EN14411 hergestellt.

## Risse

Stark glasierte Keramikfliesen können mit der Zeit Risse bekommen und wir können in dieser Hinsicht keine Gewähr übernehmen.

## Eignung

### Wandfliesen

Artworks-Wandfliesen eignen sich nicht für Dampfbäder, Saunen, Arbeitsflächen, Böden oder den Außenbereich. Sie sind nur für Innenwände geeignet. Die Meisten sind mit folgenden Ausnahmen für Wänden in Feuchträumen und Duschen geeignet.

Die Fliesen in der Farbe **Victorian Green** sind nur für trockenen Wänden geeignet. Deren kupferbasierte Glasur kann durch die oft im Haushalt zu findenden milden Säuren ausgefärbt werden. Um eine derartige Ausfärbung zu vermeiden, sollten sie nur mit klarem Wasser gesäubert und nach dem Säubern sofort trockengewischt werden. Diese Fliesen sollten niemals in Nassbereichen wie Duschen, Badeaufbauten oder als Wischleiste verwendet werden.

**Gold- und Platinfliesen und Zierleisten und Art Deco Fliesen und Bordüren** eignen sich nur für trockenen Wänden und sollen nicht in Nassbereichen wie Duschen installiert werden.

Hochglasierte Fliesen können mit der Zeit Haarrisse bilden. Diese sind kein Reklamationsgrund. Die Farbe „**Victorian Green, Teapot Brown und Ochre**“ ist besonders anfällig für Haarrissbildung. Fliesen mit Haarrissbildung oder Craquelé müssen imprägniert werden. Fliesen mit Craquele oder Haarrissbildung sind nicht für Hochdruckduschen geeignet. Weitere Informationen entnehmen Sie bitte unserer Verlegeanleitung unter [www.originalstyle.com](http://www.originalstyle.com).

Aufgrund ihrer Form ist es nicht empfehlenswert, die Einfassungen **Albert und Victoria** in Bereichen mit Wandbewegung anzubringen. Außerdem ist beim Ausfügen dieser Einfassungen Vorsicht geboten, um sicherzustellen, dass keine Feuchtigkeit zurück in die Einfassung gelangt, da sie dadurch platzen kann. Füllen Sie die Rückseite der Leiste beim Installieren vollständig mit Kleber aus.

Die Rückseiten der Einfassungen können voneinander abweichen. Dies hat keine Auswirkung auf die Anbringung. Wir können nicht garantieren, dass die Glasur die Seitenkanten des auf Seite 45 gezeigten Profils abdeckt.

### Bodenfliesen

Die Bodenmosaike auf den Seiten 104-105 sind nur für trockenen Innenböden geeignet. Weitere Informationen finden Sie in der Installationsanweisung unter [www.originalstyle.com](http://www.originalstyle.com).

## Victorian Floor Tiles, Odyssey Floor Tiles, Tileworks Serien und Earthworks Serie

Fliesen aus anderen Serien sind in dieser Broschüre dargestellt. Ausführliche Details zu Eignung und Installationsanweisungen finden Sie auf unserer Webseite [www.originalstyle.com](http://www.originalstyle.com). Bitte nach Serie und entsprechenden Verlegungsanleitung unter [www.originalstyle.com](http://www.originalstyle.com).

## Installation, Kleber und Fugen

Es ist wichtig, den für den Bodenuntergrund passenden Fliesenkleber zu verwenden. Für Fliesen und Einfassungen von Artworks, die auf Gipskartonplatten oder Wandputz geklebt werden, empfehlen wir Wandfliesenkleber D1 oder D2. Für alle anderen Böden ist gegebenenfalls ein flexibler, zementbasierter Kleber erforderlich. Bitte fragen Sie Ihren Fliesenhändler oder Kleberhersteller um Rat. Verwenden Sie immer hochwertige Kleber und Fugenmasse. Folgen Sie den Anweisungen des Herstellers bezüglich Verwendung und Eignung für bestimmte Fliesenarten, Einsatzbereiche und Substrate. In jedem Fall sind die Fugen mit einer wasserdichten Fugenmasse abzudichten. Wenn die Fugen nicht vollständig wasserdicht sind, kann Feuchtigkeit in den Fliesenträger eindringen und Verfärbungen der Glasur verursachen. Die Fugenbreite muss mindestens 2mm betragen, um Unterschiede in den Fliesenabmessungen ausgleichen zu können. Bei der Installation in druckverstärkten Duschen ist Epoxid zu verwenden. Bringen Sie Fliesen von Original Style nicht direkt auf feuchtem Zement oder Sand und Zement an.

Es ist unerlässlich, die Anweisungen der Fugenmasse- und Fliesenkleberhersteller zur Eignung für unsere Produkte zu befolgen. Bitte wenden Sie sich im Zweifelsfall an den Fugenmasse-/Kleberhändler, bei dem Sie die Produkte gekauft haben. Original Style äußert sich nicht zur Gebrauchstauglichkeit von Klebern und Fugenmasse von Drittanbietern.

### Dichtungsfugen

Bei allen Installationen, besonders in Duschkabinen, sollten Fugen mit einer wasserdichten Fugenmasse, z.B. Epoxid verfügt werden. Fugen zwischen Fliesen und Duschwannen sollten mit Silikondichtmasse verfügt werden. Sind die Fugen nicht vollkommen wasserdicht, kann Feuchtigkeit in den Fliesenboden eindringen und auf den lichtdurchlässigen Fliesen Flecken verursachen. Unter den Victorian-Nuten sollten Silikondehnungsfugen angebracht werden.

## Dampfreinigung

Wir empfehlen keine Dampfreiniger oder Dampfmopps zur Reinigung unserer Fliesen. Die Dampfreinigung kann vorhandene Versiegelungen entfernen/unwirksam machen aufgebracht wurden, wodurch die Fliesen ungeschützt blieben.

## Wie viele fliesen brauchen Sie?

| Nennmaße der Fliese*               | pro Quadratmeter      |
|------------------------------------|-----------------------|
| Fliese (Field-Tile) 152 x 152mm    | 43                    |
| Halbfliese 152 x 76mm              | 86                    |
| Große Brickfliesen 228 x 75mm      | 58.3                  |
| Metro-fliesen 152 x 75mm           | 86                    |
| <b>Bodenmosaike</b>                |                       |
| 271 x 281mm                        | 13.1                  |
| 292 x 292mm                        | 11.7                  |
| 292 x 310mm                        | 11                    |
| 295 x 295mm                        | 11                    |
| 297 x 257mm                        | 13.1                  |
| 297 x 297mm                        | 11.3                  |
| <b>Genormte Länge der Bordüre*</b> | <b>pro lfd. Meter</b> |
| 152mm                              | 6.6                   |

\*Basierend auf einer Fugenbreite von 2mm. Bitte rechnen Sie 5 Prozent zusätzlich als Verbrauch ein.

## Geformte Fliesen an Außenecken anbringen

Um Randleisten und andere geformte Fliesen an einer Außenecke anzubringen, muss ein Ende der Fliese sorgfältig mit einem Karborund oder einer Diamantsäge auf 45° gekehrt werden. Dadurch verkürzt sich die Oberfläche der Fliese, die Kontakt mit der Wand hat.

## Victoria-Einfassungen

Victoria-Einfassungen sollten nicht auf hölzernen Oberflächen verwendet werden, da die Einfassung aufgrund der Wärmeausdehnung des Holzes platzen kann.

## Einfassungen Gold und Platinum

Vorsicht beim Verlegen und Verfugen der Fliesen und Einfassungen, einschließlich derjenigen mit einem Edelmetalleffekt.

**Hinweis:** Bitte beachten Sie die Installationsanweisungen unter [www.originalstyle.com/de/verlegeanleitungen/allgemeine-verlegeanleitung-fuer-fliesen/](http://www.originalstyle.com/de/verlegeanleitungen/allgemeine-verlegeanleitung-fuer-fliesen/), bevor Sie mit dem Verlegen von Fliesen bzw. Einfassungen mit Edelmetalleffekt beginnen.

Beachten Sie bitte, dass die Fliesen bei Verwendung von säurebasierten Reinigungsmitteln reagieren und ihr Aussehen verändern können. Wir empfehlen ausschließlich einen pH-neutralen Reiniger. Verwenden Sie keine scheuernden Mittel oder Materialien auf Fliesen oder Einfassungen, einschließlich derjenigen mit Edelmetalleffekt.

## Masterpiece Fliesen

Masterpiece Fliesen sind in zwei Varianten erhältlich:

- Mit Haltern auf der Rückseite
- Mit einfacher Rückseite

### Mit Haltern

Mit Hilfe der Halter können die Masterpiece Fliesen wie ein Bild an der Wand aufgehängt werden, so dass sie in Räumen wie Badezimmer, Küchen, Wintergärten und über dem Kamin zur Geltung kommen – im Gegensatz zu normalen Bildern, die durch Dampf, Feuchtigkeit, Hitze und ultraviolettes Licht beschädigt werden könnten.

### Einfache Rückseite

Masterpiece Fliesen mit einfacher Rückseite können in eine Fliesenfläche integriert werden. Es gibt passende Rahmen in den Farben Brilliant White, County White und Black für die Masterpieces Alma-Tadema, Raphael, Botticelli und Monet, und passende Vienna Rahmen und Eckfliesen in Gold, Antique Gold, Platinum und Black für das Klimt Masterpiece. Die Rahmen-Sets einschließlich der Vienna Rahmen und Eckfliesen wurden speziell für die Masterpiece Fliesen entwickelt und überbrücken die Unterschiede in der Dicke zwischen diesen und den Grundfliesen von 5 bis 12 mm.

### Installation von Masterpiece Fliesen und Rahmen

Wir empfehlen dringend, Fliesen und Rahmen der Serie Original Style Masterpiece nur von einem erfahrenen Fliesenleger legen zu lassen. Masterpiece-Fliesen sollten jederzeit mit äußerster Sorgfalt behandelt werden. Einzelne Fliesen wiegen bis zu 7 kg. Sie können sich verletzen, wenn Sie eine Fliese fallen lassen. Masterpiece-Fliesen haben eine maximale Wasseraufnahmekapazität von weniger als 3 Prozent. Es ist wichtig, jederzeit die Anweisungen des Fliesenkleberherstellers zu befolgen.

**Hinweis:** Bitte beachten Sie die Installationsanweisungen unter [www.originalstyle.com/de/verlegeanleitungen/allgemeine-verlegeanleitung-fuer-fliesen/](http://www.originalstyle.com/de/verlegeanleitungen/allgemeine-verlegeanleitung-fuer-fliesen/), bevor Sie mit dem Verlegen von Masterpiece Fliesen beginnen.

## Reinigung

Original Style Masterpiece-Fliesen sollten wie normale glasierte Wandfliesen mit sauberem Wasser abgespült und mit einem weichen, trockenen Tuch abgewischt werden.

Ausführliche Installationsanweisungen finden Sie im Abschnitt Fliesen und Rahmen der Serie Masterpiece in der Installationsanweisung von Original Style unter [www.originalstyle.com](http://www.originalstyle.com)

## Fotografie

Aufgrund von Abweichungen bei der Studiobeleuchtung und Druckfarben, können die Fliesenfarben, die in dieser Broschüre dargestellt sind, leicht von den Farben der tatsächlichen Fliesen abweichen. Bevor Sie Ihre Auswahl treffen, sollten Sie zuvor immer einen Einzelhändler für Original Style nach Mustern fragen.

## Haftungsbeschränkungen

Original Style übernimmt für die fehlerhafte Installation seiner Fliesen keine Haftung. Sollte es Reklamationen bezüglich der Fliesen selbst geben, dann beschränkt sich die gesetzlich eingeräumte Haftung von Original Style lediglich auf den Artikelaustausch oder Kostenrückerstattung. Reklamationen müssen innerhalb von sieben Arbeitstagen nach Erhalt der Fliesen erfolgen. Fliesen müssen vor der Installation kontrolliert werden. Eine Reklamation nach der Installation ist nicht möglich.

Bitte beachten Sie, dass Sie mit der Installation die Qualität, Farbgebung, Textur oder Schattierung sowie das Format der Fliesen akzeptieren und keine Beanstandungen anzeigen. Original Style gewährleistet die Beschreibungs- und zweckgemäße Fabrikationsausführung der Fliesen. Original Style gibt keine weiteren ausdrücklichen oder impliziten Garantien hinsichtlich Eignung der Artikel für besondere Installationsarten. Wir geben weder ausdrücklich noch implizit eine Garantieverlängerung auf Abnutzungsverhalten oder Wartungsarbeiten.

Beachten Sie bitte, dass die Fliesen bei Verwendung von säurebasierten Reinigungsmitteln reagieren und ihr Aussehen verändern können.

# Belangrijke Informatie

## Kleurnuances

Uiteenlopende kleurnuances zijn een inherente eigenschap van het productieproces van Artworks-muurtegels. We raden aan dat de tegels losjes worden neergelegd en gemengd voordat ze worden aangebracht. Zo krijgt u de mooiste verdeling van de kleurnuances. De verschillen tussen partijen kunnen duidelijker zichtbaar zijn. We raden u daarom aan alle tegels tegelijk te bestellen. We zijn niet aansprakelijk voor problemen met de kleurnuanciering na het aanbrengen.

## Nominale afmetingen

In deze hele brochure vermelden we nominale afmetingen, die geringe variaties kunnen vertonen binnen internationaal geaccepteerde normen. Omdat de profielen zijn gegoten en niet geperst, kunnen de afmetingen verschillen. Voor zover van toepassing zijn alle tegels van Original Style geproduceerd in overeenstemming met Europese Richtlijn EN14411.

## Krassen en Slijtage

Zoals bij alle geglaazuurde oppervlakken, kunnen er na verloop van tijd slijtage en krassen ontstaan. Kies daarom zorgvuldig de juiste tegel voor een bepaalde toepassing. De muurtegels in deze brochure zijn niet aanbevolen voor oppervlakken die onderhevig zijn aan zware slijtage.

## Toepasselijkheid

### Muurtegels

Artworks-muurtegels zijn niet geschikt voor stoombaden, sauna's, werkoppervlakken, vloeren en buitengebruik. Ze zijn uitsluitend geschikt voor binnenmuren. De meeste zijn ook geschikt voor muren in natte ruimten en douches, met de onderstaande uitzonderingen.

**Victorian Green-tegels** zijn alleen geschikt voor droge muren. Deze tegels hebben een glazuur op koperbasis, waardoor ze kunnen verkleuren door huishoudmiddelen die lichte zuren bevatten. Om verkleuring te voorkomen, moeten ze uitsluitend worden gereinigd met zuiver water en direct na reiniging worden afgedroogd. Deze tegels mogen nooit worden gebruikt in natte ruimten, zoals douches, rondom het bad en achter het aanrecht.

**Gold en Platinum tegels en strippen en Art Deco tegels en borders** zijn alleen geschikt voor droge muren en kunnen niet in een natte ruimte gebruikt worden zoals de douche.

### Haarscheuren en Gecraqueleerde Tegels

In sterk geglaazuurde, keramische tegels kunnen na verloop van tijd haarscheurtjes ontstaan. Wij kunnen u dienaangaande geen enkele garantie bieden. Vooral **Victorian Green, Teapot Brown** en **Ochre** tegels kunnen mettertijd haarscheurtjes vertonen. Gecraqueleerde halve, metro en afwerktegels moeten worden geïmpregneerd.

Vanwege hun vorm zijn de profielen **Albert** en **Victoria** niet aanbevolen voor gebruik op muroppervlakken met speling. Deze profielen moeten ook beslist zorgvuldig worden gevoegd om ervoor te zorgen dat er geen water achter kan komen, waardoor de profielen zouden kunnen barsten. Vul de achterzijde van de sierstrip volledig met lijm tijdens de installatie.

De achterzijde van profielen kan vormvariatie vertonen. Dit is niet van invloed op het zetten. We kunnen niet garanderen dat de zijkanten van de profielen op pagina 45 met glazuur zijn bedekt.

### Vloertegels

De mozaïektegels voor op de vloer op pagina 104-105 zijn alleen geschikt voor droge binnenvloeren. Raadpleeg de Fixing Guide ([www.originalstyle.com](http://www.originalstyle.com)) voor meer informatie.

## Victorian Floor Tiles, Odyssey Vloertegels, Tileworks Collectie en Earthworks Collectie

Er staan verschillende betegelde vloeren in onze brochure. Raadpleeg onze website voor alle informatie, geschiktheid en tegelinstructies en vind de specifieke instructies voor een collectie op ([www.originalstyle.com](http://www.originalstyle.com))

## Aanbrengen, lijmen en voegmiddelen

Het is van belang dat u lijm gebruikt die geschikt is voor een bepaalde ondergrond. Voor het aanbrengen van Artworks-tegels en -profielen op muren van gipsplaat of gepleisterde muren raden we muurtegelijm van klasse D1 of D2 aan. Voor alle andere ondergronden kan een flexibele lijm op cementbasis vereist zijn. Vraag uw tegelspecialist of de lijmfabrikant om advies. Gebruik altijd lijm en voegmiddel van hoge kwaliteit en volg de richtlijnen van de fabrikant inzake gebruik en geschiktheid voor het type tegel, de toepassing en de ondergrond die wordt betegeld. Gebruik voor alle klussen een waterdicht voegmiddel. Indien de voegen niet volledig betegeld. Gebruik voor alle klussen een waterdicht voegmiddel. Indien de voegen niet volledig waterdicht zijn, kunnen de tegels vocht opzuigen en kunnen er vlekken achter het glazuur verschijnen. Gebruik een gemiddelde voegbreedte van minimaal 2mm om de verschillen in de afmetingen van de tegels op te vangen. Gebruik voor tegels in een power shower een voegmiddel op epoxybasis.

Breng Original Style-tegels nooit direct aan op nat cement of een natte mortel van zand en cement. Volg beslist de instructies van de fabrikanten van de voegmiddelen en lijmen op inzake hun geschiktheid voor onze producten. Raadpleeg in geval van twijfel de voegmiddelen- of lijmspecialist bij wie u de producten hebt gekocht. Original Style staat niet in voor de geschiktheid en doelmatigheid van lijmen en voegmiddelen van derden.

### Voegen

Gebruik voor alle klussen, en met name in douchecabines, een waterdicht voegmiddel of een voegmiddel op epoxybasis. De naden tussen tegels en douchebakken moeten worden afgedicht met siliconenkit. Indien de voegen niet volledig waterdicht zijn, kunnen de tegels vocht opzuigen en kunnen er vlekken achter het doorschijnende glazuur verschijnen. Onder Victorian-plinten moeten expansievoegen van siliconenkit worden aangebracht.

## Stoomreiniging

We raden geen stoomreinigers of stoomdweilen aan om onze tegels schoon te maken. Stoomreiniging kan elke sealer die dat heeft, verwijderen/ineffectief maken aangebracht, waardoor de tegels onbeschermd blijven.

## Hoeveel tegels heeft u nodig?

| Nominale tegelafmetingen*             | Per vierkante meter |
|---------------------------------------|---------------------|
| Fliese (Field-Tile) 152 x 152mm       | 43                  |
| Halbfliese 152 x 76mm                 | 86                  |
| Grote Brick 228 x 75mm                | 58.3                |
| Metro-carreau 152 x 75mm              | 86                  |
| <b>Mozaïektegels voor op de vloer</b> |                     |
| 271 x 281mm                           | 13.1                |
| 292 x 292mm                           | 11.7                |
| 292 x 310mm                           | 11                  |
| 295 x 295mm                           | 11                  |
| 297 x 257mm                           | 13.1                |
| 297 x 297mm                           | 11.3                |
| <b>Nominale lengte profieltegels*</b> |                     |
| per strekkende meter                  |                     |
| 152mm                                 | 6.6                 |

\*Gebaseerd op een voegbreedte van 2mm. Houdt u rekening met 5% snijverlies en breuk.

## Profieltegels op buitenhoeken aanbrengen

Om lijsttegels en andere profieltegels op een buitenhoek aan te brengen, moet een zijde van de tegel zorgvuldig in een hoek van 45° worden gezaagd met een carborundum- of diamantzaag. Hierdoor wordt het tegeloppervlak dat contact maakt met de muur korter.

## Victoria-profielen

Victoria-profielen moeten niet worden gebruikt op een houten oppervlak. De profielen kunnen barsten door het uitzetten en krimpen van het hout.

## Gouden en platina tegels en lijstwerk

Wees voorzichtig met het zetten en voegen van tegels en lijstwerk, waaronder die met een kostbare metalen afwerking.

**N.b.:** Raadpleeg de installatieaanwijzingen op [www.originalstyle.com/nl/installatiegidsen/algemene-installatiegids-voor-tegels/](http://www.originalstyle.com/nl/installatiegidsen/algemene-installatiegids-voor-tegels/) voorafgaand aan het zetten van tegels/lijstwerk met een kostbare metalen afwerking.

Wij raden aan geen zuurhoudende schoonmaakmiddelen te gebruiken aangezien sommige tegels daar op reageren en het karakter van de tegels veranderen. We raden alleen het gebruik van een pH-neutraal reinigingsmiddel aan. Gebruik geen bijtende schoonmaakmiddelen of -materialen op tegels of lijstwerk, waaronder die met een kostbare metalen afwerking.

## Masterpiece tegels

Masterpiece tegels zijn verkrijgbaar in twee opties:

- met haakjes aan de achterkant
- met een gladde achterkant

### Met haakjes

Dankzij de haakjes kunnen de Masterpiece tegels aan een muur worden opgehangen, net als een foto. Dit betekent dat ze op plekken als badkamers, keukens, kasten en boven openhaarden kunnen worden gebruikt, in tegenstelling tot normale ingelijste foto's, die beschadigd kunnen raken door stoom, vochtigheid, warmte of ultraviolet licht.

### Gladde achterkant

De optie met een gladde achterkant betekent dat de Masterpiece tegels geschikt zijn voor installatie samen met andere tegels. Er zijn bijpassende frames in Brilliant White, County White en Black voor de Masterpieces van Alma-Tadema, Rafael, Botticelli en Monet, en bijpassende Weense frames en hoeken in Gold, Antique Gold, Platinum en Black voor het Masterpiece van Klimt. De framesets bestaan uit de Weense frames en hoeken, die speciaal zijn ontworpen om aan te sluiten op de Masterpiece tegels en die de verschillen in diktes tussen deze en de veldtegels van 5-12mm overbruggen.

### Masterpiece tegels en -frames zetten

We raden ten eerste aan dat de Masterpiece tegels en -frames van Original Style worden geïnstalleerd door een ervaren tegelzetter. Masterpiece tegels moeten altijd met de grootste voorzichtigheid worden gehanteerd. Masterpiece tegels kunnen per stuk tot aan 7kg wegen en persoonlijk letsel veroorzaken als ze vallen. Masterpiece tegels hebben een absorptiecapaciteit voor water van minder dan 3 procent. Het is belangrijk dat de aanwijzingen van de lijm- en voegmiddelproducent te allen tijde worden opgevolgd.

**N.b.:** Raadpleeg de installatieaanwijzingen op [www.originalstyle.com/nl/installatiegidsen/algemene-installatiegids-voor-tegels/](http://www.originalstyle.com/nl/installatiegidsen/algemene-installatiegids-voor-tegels/) voorafgaand aan het zetten van de Masterpiece tegels.

## Reinigen

Original Style Masterpiece-tegels moeten, net als normale geglazuurde muurtegels, worden afgespoeld met schoon water en worden afgedroogd met een zachte, droge doek. Raadpleeg het onderdeel Masterpiece Tiles and Frames van de Original Style Fixing Guide ([www.originalstyle.com](http://www.originalstyle.com)) voor volledige tegelinstructies.

## Foto materiaal

Door kleine verschillen in de studiobelichting en de drukinkten, kunnen de in deze brochure getoonde kleuren licht afwijken van de werkelijke kleuren van de tegels. Vraag uw Original Style-detailhandelaar altijd om u een monster te tonen.

## Beperking van aansprakelijkheid

Original Style is niet aansprakelijk voor de onjuiste installatie van zijn producten. In het geval van enige claim in verband met de tegels zelf is de wettelijke aansprakelijkheid van Original Style voorzover maximaal is toegestaan op grond van toepasselijk recht beperkt tot het vervangen van het product of het terugbetalen van de kosten van het product. Original Style is in geen geval aansprakelijk voor gevolgschade of indirecte schade. Klachten moeten binnen zeven werkdagen na ontvangst van de tegels worden gemeld. De tegels moeten voor installatie worden gecontroleerd en claims worden niet meer in overweging genomen nadat de tegels zijn geïnstalleerd.

Door installatie accepteert u de kwaliteit, kleur, maten, textuur en kleurnuances van de tegels. Original Style garandeert dat de tegels voldoen aan hun beschrijving en geschikt zijn voor hun doel. Original Style biedt geen andere uitdrukkelijke of impliciete garanties voor de geschiktheid of gepastheid van de producten voor specifieke installaties. We verlenen geen garanties, uitdrukkelijk noch impliciet, voor slijtagebestendigheid of onderhoudsprocedures.

We wijzen u erop dat bepaalde zuurhoudende schoonmaakmiddelen kunnen reageren met sommige tegels en het karakter ervan kunnen wijzigen.
